The European database of suspected drug reaction reports is [EudraVigilance](#), which also tracks reports of injuries and deaths following the experimental COVID-19 "vaccines."

A subscriber from Europe recently emailed us and reminded us that this database maintained at EudraVigilance is only for countries in Europe who are part of the European Union (EU), which comprises 27 countries.

The total number of countries in Europe is much higher, almost twice as many, numbering around 50, although there are some differences of opinion as to which countries are technically part of Europe.

So as high as these numbers are, they do NOT reflect all of Europe. The actual number in Europe who are reported dead or injured due to COVID-19 shots would be much higher than what we are reporting here.

The EudraVigilance database reports that through June 19, 2021 there are 15,472 deaths and 1,509,266 injuries reported following injections of four experimental COVID-19 shots:

- [COVID-19 MRNA VACCINE MODERNA \(CX-024414\)](#)
- [COVID-19 MRNA VACCINE PFIZER-BIONTECH](#)
- [COVID-19 VACCINE ASTRAZENECA \(CHADOX1 NCOV-19\)](#)
- [COVID-19 VACCINE JANSSEN \(AD26.COV2.S\)](#)

From the total of injuries recorded, half of them (753,657) are serious injuries.

"Seriousness provides information on the suspected undesirable effect; it can be classified as 'serious' if it corresponds to a medical occurrence that results in death, is life-threatening, requires inpatient hospitalisation, results in another medically important condition, or prolongation of existing hospitalisation, results in persistent or significant disability or incapacity, or is a congenital anomaly/birth defect."

A *Health Impact News* subscriber in Europe ran the reports for each of the four COVID-19 shots we are including here. This subscriber has volunteered to do this, and it is a lot of work to tabulate each reaction with injuries and fatalities, since there is no place on the [EudraVigilance](#) system we have found that tabulates all the results.

Since we have started publishing this, others from Europe have also calculated the numbers and confirmed the totals.[1]

Here is the summary data through June 19, 2021.

Total reactions for the experimental mRNA vaccine Tozinameran (code BNT162b2, Comirnaty) from BioNTech/ Pfizer: 7,420 deaths and 560,256 injuries to 19/06/2021

Notes

[1] These totals are estimates based on reports submitted to [EudraVigilance](#). Totals may be much higher based on percentage of adverse reactions that are reported. Some of these reports may also be reported to the individual country's adverse reaction databases, such as the U.S. VAERS database and the UK Yellow Card system. The fatalities are grouped by symptoms, and some fatalities may have resulted from multiple symptoms.
