

426 Dead Syrian Children? US 1% Heartlessly Poverty-Kill 1 Million Children/Month in Gruesome Slow Agony

By [Washington's Blog](#)

Region: [Middle East & North Africa](#)

Theme: [Crimes against Humanity](#), [US NATO War Agenda](#)

In-depth Report: [SYRIA](#)

Best current evidence shows that [426 dead Syrian children](#) were murdered by the criminal US 1% and minions as a [false flag attack](#) to cause war on Syria. False flags are an aggressor nation committing a horrendous act, blaming the targeted nation, and then lying to the public for war support.

The evidence for this *prima facie* accusation:

1. The US has a [two hundred year history of repeatedly violating crystal-clear treaties for unlawful Wars of Aggression](#) that include false flag operations and propaganda campaigns to sell the wars.
2. [Current US wars are not even close to lawful](#), and now disclosed through official US government reports that [all "reasons" for war were known to be false as they were told](#).
3. [On-the-ground evidence shows](#) US-backed rebels kidnapped the very same children shown dead from alleged gas attacks. US 1% claims of the Syrian government being responsible are unsubstantiated testimony from lying War Criminals; proved from the above two points.

In addition, [I remind you](#) that the US 1% spin to save "innocent lives" in Syria (explore [here](#), [here](#)) is refuted by that same 1% reneging on every promise to save innocent children's lives from preventable poverty. The US watches as one million children die slow, gruesome, agonizing deaths from poverty every month as the US refuses to honor all official promises to end poverty.

Since 9/11, US reneged promises to end poverty have killed over 100 million children, [twice the number of children enrolled in pre-kindergarten to 12th grade in the US](#).

Since the 1%'s reneged promises from just 1998, the total deaths from preventable poverty is conservatively greater than from all wars, revolutions, murders, accidents, and suicides in the 20th and 21st centuries.

Since the 1990 [World Summit for Children](#) where the promise to end poverty was again sincerely pledged, total deaths from poverty eclipse all the above categories of death in all known human history.*

The leverage point to remove the 1% is for those of us among the 99% [with arrest authority to exercise it](#) for “emperor has no clothes” obvious ongoing War Crimes and murders of US soldiers who were lied-into criminal wars.

*Assuming 15 years of poverty deaths totaling 225 million and 23 years at 400 million (poverty deaths have decreased over the past 20 years) compared to the estimates of 160 million war deaths from Scaruffi, P., [Wars and Casualties of the 20th and 21st Centuries](#), and 230 million from Leitenberg, M, [Deaths in Wars and Conflicts in the 20th Century](#), (along with the relatively smaller numbers for murders, accidents, and suicides). Total global deaths in recorded history is probably a safe estimate given a global population of ~1.6 billion in 1900. My assignment for high school students on ending poverty with all of the documentation: [The Economics of Ending Poverty](#). *Despite* the investment to save a *million children's lives each month* from preventable poverty being just 0.7% of our gross national income, *despite* that every historical case of ending poverty reduces population growth rates, and *despite* US promises to make that investment at global summits, the 1% “leadership” in government and [corporate media](#) renege and ignore all promises to end this crushing torture, these excruciating and prolonged deaths of children.
