*The European (EEA and non-EEA countries) database of suspected drug reaction reports is [EudraVigilance](#), verified by the European Medicines Agency (EMA), and they are now reporting 48,817 fatalities, and 5,107,883 injuries following injections of four experimental COVID-19 shots:*

- [COVID-19 MRNA VACCINE MODERNA \(CX-024414\)](#)
- [COVID-19 MRNA VACCINE PFIZER-BIONTECH](#)
- [COVID-19 VACCINE ASTRAZENECA \(CHADOX1 NCOV-19\)](#)
- [COVID-19 VACCINE JANSSEN \(AD26.COV2.S\)](#)

From the total of injuries recorded, almost half of them (2,177,286) are serious injuries.

"Seriousness provides information on the suspected undesirable effect; it can be classified as 'serious' if it corresponds to a medical occurrence that results in death, is life-threatening, requires inpatient hospitalisation, results in another medically important condition, or prolongation of existing hospitalisation, results in persistent or significant disability or incapacity, or is a congenital anomaly/birth defect."

A *Health Impact News* subscriber in Europe ran the reports for each of the four COVID-19 shots we are including here. It is a lot of work to tabulate each reaction with injuries and fatalities, since there is no place on the [EudraVigilance](#) system we have found that tabulates all the results.

Since we have started publishing this, others from Europe have also calculated the numbers and confirmed the totals.\*

Here is the summary data through November 12, 2022.

\*These totals are estimates based on reports submitted to [EudraVigilance](#). Totals may be much higher based on percentage of adverse reactions that are reported. Some of these reports may also be reported to the individual country's adverse reaction databases, such as the U.S. VAERS database and the UK Yellow Card system. The fatalities are grouped by symptoms, and some fatalities may have resulted from multiple symptoms.

## Sudden Deaths and Injuries Among Young and Formerly Healthy People Continue

### 24-Year-Old Athlete and Actress Crippled After Mandatory COVID Vaccine

24-Year-Old British Professional Athlete and [Actress](#) Genevieve Florence. (Left 2 [image sources](#).)

Sudden deaths and injuries continue to be reported all across Europe and around the world,

and more and more European politicians are beginning to speak out about how deadly the COVID-19 vaccines are.

But instead of halting these vaccines, the EMA has actually just approved a new COVID-19 vaccine by GSK and Sanofi.

After months of review at European regulators' desks, GSK and Sanofi have scored a world-first nod to enter the COVID-19 vaccine market in Europe with their pandemic booster VidPrevtyn Beta.

Thursday, the European Commission signed off on the Sanofi-GSK booster to augment protection against COVID-19 in adults ages 18 and up, making VidPrevtyn the first next-gen, protein-based adjuvanted COVID-19 vaccine approved in Europe. ([Full article.](#))

Australia has done the exact opposite, and has stated they are NOT approving new COVID-19 boosters for those under the age of 30 due to the high risks of heart disease from the shots.

The Australian government says the risk of myocarditis from a COVID booster might be greater than COVID itself — so it won't allow people under 30 to get a fourth vaccine.

"In males aged 16-40 years, it is uncertain whether the risk following COVID-19 remains higher than the risk following vaccination," the government [said](#). ([Full article.](#))

Here is the latest montage of young victims who have either suffered "sudden deaths" or crippling injuries. It starts with the testimony of 24-year-old British professional athlete and [actress](#) Genevieve Florence, who was mandated to get the shots to be able to continue filming, and totally disabled her.

# The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*
