*An 8-year-old Israeli boy featured in a video promoting the COVID-19 vaccine [died suddenly](#) last month from sudden cardiac arrest.*

Yonatan Moshe Erlichman, the son and grandson of prominent Israeli doctors, almost drowned in the bathtub after his heart stopped on the eve of Yom Kippur. Although paramedics were able to revive him, he died several days later on Sept. 28.

In 2020, Erlichman appeared in a video with [Shuski](#), described as a "friendly puppet 'child,'" urging viewers to get the [COVID-19](#) vaccine when it became available.

Describing Erlichman as the "poster child" for Israel's vaccine campaign, [LifeSiteNews](#) shared the government-sponsored video featuring the boy, released just prior to the introduction of the COVID-19 vaccines in Israel.

לא מזעזע אתכם? היכן הכותרות? החקירות? כמה ילדים עוד ימותו על מזבח הזהב?  
וביחוד שיש כבר שני מחקרים מבוקרים המעידים כי חיסוני ה-mRNA גורמים לבעיות לבביות. עד  
מתי תתחפרו? כמה עוד תכחישו?  
תזכרו שבכל רגע נתון זה יכול לקרות לילדיכם... [pic.twitter.com/PUYILN4jDr](https://pic.twitter.com/PUYILN4jDr)

— Avishag Balev (@AvishagBalev) [October 1, 2023](#)

Here is a partial translation of the tweet (via Google Translate):

"Doesn't that shock you? Where are the headlines? The investigations? How many more children will die on the golden altar?"

“And in particular, there are already two controlled studies that show that the mRNA vaccines cause cardiac problems ... How much more will you deny?”

“Remember that at any given moment, this can happen to your beloved children and grandchildren.”

Another tweet questioned why the story was not on televised news, but only in local and religious press. The person reported that the family was “scared to death and were trying to keep the story quiet.”

The boy’s family released the following statement:

“Our [Yonatan Moshe passed away](#) a short time ago. On the eve of Yom Kippur, Yonatan went into cardiac arrest in our home, and since then we fought by his side after he collapsed. We thank all those dear to us who were by our side in the last days of his life.”

## Netanyahu Bragged About Making Israel a ‘Lab for Pfizer’

Israel is one of the [most mRNA-vaccinated countries](#) on Earth, with more than 70% of its people over 16 receiving [at least two doses](#) by April 2021.

In November 2020, Israel’s government signed an [agreement with Pfizer](#) to acquire 8 million doses of its COVID-19 vaccine, which the government began distributing in December 2020.

In exchange for receiving the vaccine ahead of other countries, [Israel agreed to provide Pfizer](#) with epidemiological data to help the vaccine maker evaluate the efficacy and reactogenicity of the vaccine.

Israeli Prime Minister Benjamin Netanyahu said he was able to make Israel “[the lab for Pfizer](#)” because “98% of our population has digitized medical records” that would — when combined with his country’s “genetic database” — facilitate granular reporting of the vaccine’s impact on the country’s citizens.

With this data, “you can create a [biotechnological industry](#) that is unheard of ... unimagined even,” he said.

Netanyahu: “Israel ☐☐ became the lab for Pfizer”

Israel Ministry of Health denied it. Pfizer denied it. But finally here we have official confirmation from Prime Minister that as part of the deal, Israel was turned into Pfizer's lab. [pic.twitter.com/PPIrCNpukR](https://pic.twitter.com/PPIrCNpukR)

— Dr. Eli David (@DrEliDavid) [December 22, 2022](#)

[Dr. Sabine Hazan](#), a gastroenterology specialist in Ventura, California, weighed in on Netanyahu’s Pfizer deal:

Yeah, and you can create a weapon to eliminate a whole population. Who gave Netanyahu the right to decide for an entire population? Shouldn’t people have been allowed to vote to be guinea pigs? They all believed in a vaccine as a

solution, but it was not. Neonatal death rate ↑ [pic.twitter.com/BucoPYi0NZ](https://pic.twitter.com/BucoPYi0NZ)

## CDC Failed to Publicize 2021 Israeli Myocarditis Data in a Timely Manner

Information provided to [Children's Health Defense](#) (CHD) last year by the Centers for Disease Control and Prevention (CDC) following a Freedom of Information Act request showed the CDC received a report in February 2021 about [post-injection myocarditis](#) from the Israel Ministry of Health.

The report stated, "We are seeing a large number of myocarditis and pericarditis cases in young individuals soon after Pfizer COVID-19 vaccine. We would like to discuss the issue with a relevant expert at CDC."

Even though a significant [myocarditis safety signal](#) was visible both in the U.S. and Israel just months after the COVID-19 vaccines were made available, the [CDC failed to alert the public](#) until May 2021, after half the eligible U.S. population had already received the vaccine.

In June 2021, Israel released an official report confirming mRNA-related [myocarditis in young men](#), especially those ages 16-24, who showed a rate of up to 25 times higher than typically observed in the Hadassah Medical Center.

A September 2022 [Israeli study](#) found the incidence of myocarditis within 30 days of the second Pfizer shot was 2.35 times higher than in the unvaccinated, with the risk for males ages 16-19 presenting as nearly 1 in 1,000.

Although the Israeli study was quick to point out that the risk of myocarditis was milder after

the third Pfizer (first booster) shot, Dr. Peter McCullough warned last week at a hearing of the Novel Coronavirus Southwestern Intergovernmental Committee in the Arizona Senate that the effects of post-vaccine myocarditis can be delayed for years.

After summarizing the science around the spike protein's effect on the heart, including reports from [post-injection autopsies](#), McCullough related the story of an athlete who died during a heart stress test two years after being vaccinated.

Dr. McCullough: The COVID-19 Vaccines are NOT SAFE for Human Use

Testifying before the Arizona State Senate, Dr. [@P\\_McCulloughMD](#) said, as a practicing doctor, that he's seeing the complications of the COVID-19 vaccines firsthand. He previously reported, "Before COVID-19, I saw... [pic.twitter.com/qBdOlJotzl](https://pic.twitter.com/qBdOlJotzl)

— The Vigilant Fox 🦊 (@VigilantFox) [October 23, 2023](#)

Though news of Erlichman's death did not include information about if or when the boy was vaccinated, he likely received the Pfizer mRNA shots in 2021, along with the majority of Israelis.

This tragedy underscores McCullough's warning about the often hidden and [long-term risks](#) of post-vaccine myocarditis.

In June, [CHD scientists called for an investigation](#) into the CDC and the U.S. Food and Drug Administration for suppressing evidence linking the mRNA vaccines to myocarditis and pericarditis.

## Israeli Ministry of Health Hid Adverse Event Data

In a leaked June 2022 [video of a Zoom presentation](#) by a research team commissioned by the Israeli Ministry of Health, one of the speakers warned, "We'll have to think medical-legal — how to present our findings to avoid lawsuits. Why? Because of quite a few side effects, [yet] we said: 'OK, it exists and reports exist but still get vaccinated.'"

The researcher in the video voiced concerns about [long-term adverse events](#), including a higher rate of events after repeated vaccine doses.

— Yaffa Shir-Raz (@YaffaRaz) [September 1, 2022](#)

The ministry two months later issued a [report](#) claiming to have found [no new safety signals](#) that "were not already known." It also manipulated the data to show a smaller percentage of adverse events than were observed.

Yale epidemiologist [Harvey Risch, M.D., Ph.D.](#), discussed the suppressed Israeli data on an

episode of “Ask Dr. Drew”:

## Argentine Vaccine ‘Poster Boy’ Died Last Year

Erlichman’s tragedy mirrors the story of Santino Godoy Blanco, an Argentine boy who died last year at age 4 and who also was reported to have served as a national “[poster boy](#)” in advertisements promoting COVID-19 vaccines for children.

□□ The poster boy for Argentina’s □campaign has [#diedsuddenly](#) of “bilateral pneumonia”

Santino Godoy Blanco (3) was rushed to hospital due to fever and vomiting.

— DiedSuddenly (@DiedSuddenly\_) [November 13, 2022](#)

A [USA Today “fact check”](#) challenged the story, finding the claim false that Blanco’s appearances were promoting COVID-19 vaccines, and instead stating — correctly — that the advertisements were for measles, rubella, mumps and polio shots.

[Blanco died of a lung infection](#) associated with double pneumonia, which fact-checkers asserted was “unrelated with vaccination in general or COVID-19 vaccines in particular.”

However, the fact-checkers overlooked data from 2017 linking childhood vaccines to increased pneumonia risk.

In their book, “[Vax-Unvax: Let the Science Speak](#),” Brian Hooker, Ph.D., senior director of science and research at CHD, and Robert F. Kennedy Jr., CHD’s chairman on leave, shared [study data](#) showing vaccinated children carry a 5 times greater risk of suffering from pneumonia than the unvaccinated.

After Blanco's death, the Argentine government [withdrew the vaccination campaign](#) from all platforms.

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

### Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. –Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig*

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac*

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom*

*loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin*
