

Alert COVID-19: RNA-Type Vaccines Which Modify the Human Genome. Crackdown on Free Speech

By [Peter Koenig](#)

Global Research, December 04, 2020

Theme: [Intelligence](#), [Science and Medicine](#)

*This **first video** interview may be one of the most important ones you listen to before the onslaught of the Covid-19 vaccine – distinction: Western style Covid-19 vaccine.*

The Russian Sputnik V is not part of the same design.

*The western ones are not the “normal” kind; they are RNA-type vaccines that modify the human genome, plus much more – but listen to **Dr. Christiane Northrup**, who has an excellent way of describing complex issues for everybody to understand. .*

.

An important [article](#) in RT Op Ed entitled “UK wants to use literal army to fight ‘anti-vaccine propaganda’ online” begs the question “Are we in a budding totalitarian state” involving censorship and a crackdown on free speech?

With the impending rollout of a Covid-19 vaccine, a UK military cyber unit has been tasked to crack down on “online propaganda against vaccines.” Questioning something that will be injected into your body is now deemed radical.

.

With the anti-lockdown narrative beginning to become more prominent throughout the UK following the arrest of 150 people over the past weekend, a clampdown on independent thought is looming. The arrests were made because of anti-lockdown protests in London, and the heavy-handed nature of dealing with these protests is extraordinarily alarming. Now the crackdown is moving online, where the gradual destruction of free speech is becoming ever more blatant and cynical. The Sunday Times reported that there is even a brazen operation to suppress people’s fundamental right to express their opinion.

.

The UK authorities intend on literally using military intelligence brigades to manage the elimination of free speech. The primary target of this military operation is what the Times calls “*anti-vax militants*” and supposed propaganda content across the internet and social media. (emphasis added)

.

The above article by Lewis Olden is related to the video, in as much as it shows what to expect, if we let this vaccine or any of the western vaccines be put into our bodies.

This refers right now to the UK which is implementing harsh controls through a specially

trained “cyber” Military Unit – mind control, basically taking away your freedom of expression and eventually of thought.

This is hard to believe. But you better be prepared for it. And Dr. Christiane Northrup explains how.

The article entitled – [Breaking – by “Vaccine Impact”](#) (2 December 2020) quotes the former Head of Pfizer Research, Dr. Michael Yeadon, as saying that the new untested mRNA (human DNA-altering) **Pfizer and BioNTech vaccine, BNT162b2, may make females infertile.**

The two companies’ BNT162b2 has become the first COVID-19 vaccine allowed in the Western world as drug regulators in the U.K. doled out an emergency use authorization on Wednesday, ahead of decisions by the U.S. and Europe, which are expected soon.

For the broader vaccine world, the Medicines and Healthcare products Regulatory Agency’s decision means the world now has the first mRNA shot authorized for widespread use, opening up a brand-new chapter for vaccine development. ([Source.](#))

An emergency [STAY OF ACTION](#) was filed with the European Medicines Agency by Dr. Wolfgang Wodarg, Germany and Dr. Michael Yeadon. See: [“Stay of Action” Filed Against FDA to STOP Approval of COVID Vaccine for Using Faulty PCR Tests in Trials](#)

THIS STAY OF ACTION is very similar to the one filed last week with the FDA in the U.S. by Dr. Sin Hang Lee, and “demands that clinical trials be STOPPED until there is an accurate testing mechanism in place to correctly identify SARS-CoV-2, since the PCR test is very inaccurate”. “In Dr. Lee’s [ADMINISTRATIVE STAY OF ACTION](#), he recognizes the great risk for harm on the American public if the vaccine trials are approved based on these faulty tests”. “Dr. Yeadon, the former head of Pfizer research, also went public recently in a viral video recording where he states that the COVID Pandemic is over, and that it is being kept alive by false narratives using the faulty PCR tests.” (health impact news, op cit)

*

Just think – eleven months ago, at the beginning of January 2020 – nobody would have thought – not in their wildest nightmares – what would be coming to humanity within the next few months – maybe years if we don’t stop it. Repression no end – all possible because of an atrocious fear campaign.

Clever – fear from an invisible enemy.

People with fear will end up with a vastly reduced immune system, vulnerable to all kinds of infectious diseases, not just covid. Fear also reduces the will to resist – people under fear can be manipulated. We see it every day.

This invisible enemy [V the virus], they say has killed hundreds of thousands of people.

Truth is, however, quite different. CDC figures show that there have been no excess deaths in the US in 2020 – in fact the total deaths at the end of 2020 may be even lower than in 2019. – So, what are we talking about? A phantom virus-killer? – [See for yourself.](#)

Frankly, who could have imagined that we would be loosing almost all human and civil rights

only 11 months later, by December 2020?

And yes, this draconian crackdown starts in the UK (though, we have seen “examples” of it in Melbourne and Victoria State of Australia) – while people actually stand in line waiting for the vaccines, in the hope life will return to normal – IT WILL NOT.

It will get worse, and especially, you have no idea what is in the vaccine and how it will affect you – side effects and real effects. How it may affect future generations. You will never be able to detox your body from RNA vaccines, as they change your DNA, like genetically engineered organisms – think of corn, soja, rice, cotton and many more. With one of these vaccines you will become “transhuman”.

You will know much more after having listened to the interview with the renown Dr. Christiane Northrup.

Massive-massive civil disobedience may be the answer.
