Washington's plan to seize Ukraine and to evict Russia from its Black Sea naval base has come amiss. But as Lenin said, "two steps forward, one step back."

Do you remember all the tough talk coming from John Kerry, the White House Fool, Hilary Clinton, and the lickspittle Merkel about the harsh sanctions that would "badly damage" the Russian economy unless Russia prevented the referendum vote in Crimea? Well, it was all bullshit, more hot air from the White House sock puppet and the lickspittle German chancellor who is a disgrace to the German nation. As the Russians kept telling John Kerry, sanctions on Russia would destroy Europe and do little damage to Russia.

I wish the Russians had kept this to themselves. I was looking forward to the Washington morons destroying NATO by closing down the European economy.

Of course, after pretending that they were macho tough guys, something that Washington's prostitute media could hype as sanctions had to be imposed, so Washington came up with sanctions, not on Russia, but on eleven individuals: the deposed Ukrainian president, an advisor to the deposed president, 2 Crimean officials, and 7 Russians.

The choice of the officials is an utter mystery. The seven Russians are a Putin aid, a Putin adviser, four members of the Russian parliament (Duma) and a deputy prime minister. What any of these people had to do with the referendum in Crimea, no one knows.

Moreover, the sanctions only apply to foreign bank accounts that these 11 individuals might have outside Russia. Most likely, that means only the deposed Ukrainian president, if we are to believe all the propaganda about him. Other reports say that the sanctions are only for the next six months.

If the Washington and EU criminals steal any money from these persons, the Russian central bank can replenish their stolen accounts.

The people who decided that Crimea would disassociate from Ukraine and return to Russia were the people themselves. Under the wording of Obama's stupid sanctions, his sanctions should apply to the Crimean people who voted to disassociate from the US stooge government in Kiev.

Additionally, Obama's sanctions apply to himself and to his regime and to its NATO puppets as it was the West that overthrew the elected government of Ukraine, not Russia or Crimea. The Americans, of course, never apply law to themselves.

In other words, the sanctions are totally meaningless. Yet, the White House Fool declared: "If Russia continues to interfere in Ukraine, we stand ready to impose further sanctions."

Obama's hypocrisy makes a person want to puke. It is the White House Fool who is interfering in Ukraine. It was Washington that financed and organized the overthrow of the elected Ukraine government, using well organized and well armed neo-nazis to intimidate the unarmed police and ruling party, thus clearing the way for Washington to set up an unelected government of its well-paid stooges.

What the incompetent White House Fool overlooked is that southern and eastern Ukraine are Russian, not Ukrainian, so the fool's coup has caused Crimea to depart and is causing widespread protests in eastern Ukraine against Washington's stooge unelected government in Kiev. Washington's stooge Kiev government has appointed unelected Ukrainian multibillionaire oligarchs, who have their own private security forces, as mayors of the Russian cities to put down the protests. If the oligarchs use violence against the Russian people, the likely result will be that the Russian Army will take control of eastern Ukraine, which in every essential way is Russian.

If eastern Ukraine returns to Russia, Washington will be left with the ultra-nationalists of western Ukraine, people who fought for Hitler during World War 2. The EU doesn't want ultra-nationalists as the EU is busy stamping out nationalism and the sovereignty of European countries. Nevertheless, Washington will have gained a strategic advantage over Moscow, as Washington can place anti-ballistic missile and other military bases on western Ukraine's border with Russia, thus completing Washington's encirclement of Russia with hostile military and missile bases.

Russia will neutralize the US bases by targeting them with Iskander missiles, which cannot be intercepted by ABMs.

All that the White House Fool will have achieved is to further make clear to Russia, and to China, that Washington has both on its target list, because both are in the way of Washington's world hegemony.

One can only wonder why Putin doesn't preempt the coming US military attack on Russia by destroying NATO economically without firing a shot. All Putin needs to do is to cut Europe off from energy. It would take Washington three years to create the capability to deliver US natural gas, achieved by fracking's destruction of US water supplies, to Europe. By that time NATO governments would likely have been overthrown by mass unemployment and economic suffering. Putin could also seize all foreign assets in Russia and rapidly complete the arrangements with China, India, Brazil, and South Africa to abandon the use of the US dollar in international settlements.

The US dollar as world reserve currency is the source of American imperialism. The five countries that comprise the BRICS have half of the world's population. They can conduct their economic affairs without the dollar.

The world needs to understand that the neoconservative US government is the Third Reich on steroids. It is a malevolent force with no sense of justice or respect for truth, law, or human life. Just ask the residents of Iraq, Afghanistan, Libya, Syria, Palestine, Pakistan, Yemen, Somalia, Lebanon, Honduras, Venezuela, Cuba, Iran. Even the deluded western Ukrainians will soon catch on.

Obama himself declared that the US is “the exceptional nation.” This is the neoconservatives version of Hitler’s declaration that the German nation was exceptional and, therefore, above all others. The only difference between Washington and National Socialist Germany is that Washington has a far more powerful police state and nuclear weapons.

The hubris and arrogance that arises from Washington’s belief that it is the government of the “indispensable and exceptional nation” means Washington has no respect for any other country, nor for law whether its own or international. Washington can invade countries without cause, a war crime. Washington can kidnap and torture people, a crime under US and International law. Washington can ignore the self-determination of peoples, such as Crimeans. Who are mere Crimeans to vote on their own future without Washington’s consent, without Washington determining the outcome? Washington declares the Crimean people’s self-determination “illegitimate and illegal,” and refuses to recognize self-determination, while pretending to be the home of “freedom and democracy.”

No government in human history can come close to the hypocrisy and malevolence of Washington. Armed with nuclear weapons and a military doctrine of pre-emptive nuclear first strike, Washington alone stands as the threat to life on earth.
