In this expanded edition of Michel Chossudovsky's 2002 best seller, the author blows away the smokescreen put up by the mainstream media, that 9/11 was an attack on America by "Islamic terrorists". Through meticulous research, the author uncovers a military-intelligence ploy behind the September 11 attacks, and the cover-up and complicity of key members of the Bush Administration.

According to Chossudovsky, the "war on terrorism" is a complete fabrication based on the illusion that one man, Osama bin Laden, outwitted the \$40 billion-a-year American intelligence apparatus. The "war on terrorism" is a war of conquest. Globalization is the final

march to the “New World Order”, dominated by Wall Street and the U.S. military-industrial complex.

September 11, 2001 provides a justification for waging a war without borders. Washington’s agenda consists in extending the frontiers of the American Empire to facilitate complete U.S. corporate control, while installing within America the institutions of the Homeland Security State.

In all major regions of the world, the economic recession is deep-seated, resulting in mass unemployment, the collapse of state social programs and the impoverishment of millions of people. The meltdown of financial markets was the result of institutionalized fraud and financial manipulation. The economic crisis is accompanied by a worldwide process of militarization, a “war without borders” led by the U.S. and its NATO allies.

This book takes the reader through the corridors of the Federal Reserve, into the plush corporate boardrooms on Wall Street where far-reaching financial transactions are routinely undertaken.

The complex causes as well as the devastating consequences of the 2008 economic crisis are carefully scrutinized with contributions from Ellen Brown, Tom Burghardt, Michel Chossudovsky, Richard C. Cook, Shamus Cooke, John Bellamy Foster, Michael Hudson, Tanya Cariina Hsu, Fred Magdoff, Andrew Gavin Marshall, James Petras, Peter Phillips, Peter Dale Scott, Bill Van Auken, Claudia Van Werlhof and Mike Whitney.

[Towards a World War III Scenario: The Dangers of Nuclear War](#)

The US has embarked on a military adventure, “a long war”, which threatens the future of humanity. US-NATO weapons of mass destruction are portrayed as instruments of peace.

Mini-nukes are said to be “harmless to the surrounding civilian population”. Pre-emptive nuclear war is portrayed as a “humanitarian undertaking”.

While one can conceptualize the loss of life and destruction resulting from present-day wars including Iraq and Afghanistan, it is impossible to fully comprehend the devastation which might result from a Third World War, using “new technologies” and advanced weapons, until it occurs and becomes a reality. The international community has endorsed nuclear war in the name of world peace. “Making the world safer” is the justification for launching a military operation which could potentially result in a nuclear holocaust.

The object of this book is to forcefully reverse the tide of war, challenge the war criminals in high office and the powerful corporate lobby groups which support them.
