One of our readers contacted me this week with information that the Australian government collects on vaccine injuries on their [Department of Health website](#). Like many countries, Australia maintains a database of adverse reactions for drugs.

The Australian government database for adverse reactions tracks 78 different vaccines for the past 20 years, with a total of 47 deaths following vaccination during the years 2000 through 2020.

In 2021 for just the 3 COVID-19 vaccines, there have already been a total of 524 deaths recorded following the COVID-19 shots, more than 10X the total for the past 20 years.

Vaccine cases and deaths in Australia past 20 years

Year	Cases	Vaccine Deaths	# of Vaccines
2000	298	2	78 vaccines
2001	673	7	78 vaccines
2002	585	2	78 vaccines
2003	637	1	78 vaccines
2004	569	1	78 vaccines
2005	387	2	78 vaccines
2006	249	0	78 vaccines
2007	264	0	78 vaccines
2008	370	2	78 vaccines
2009	1590	4	78 vaccines
2010	1416	2	78 vaccines
2011	475	0	78 vaccines
2012	392	2	78 vaccines
2013	692	1	78 vaccines
2014	546	1	78 vaccines
2015	487	1	78 vaccines
2016	1260	1	78 vaccines
2017	1435	3	78 vaccines
2018	1220	2	78 vaccines
2019	1228	6	78 vaccines
2020	1101	7	78 vaccines
2021 Covid-19	56650	524	3 vaccines

And now the Australian government is doing everything they can to lock down the citizens of their country and force them to be injected with one of the COVID-19 shots as a condition for participating in society.
