

Austria: Coercion and Tyranny: The Killer Agenda Behind the Vaccine “Incentives”. “We Can and We Must Stop This”

“Extravagant” Incentives for the Non-Vaxxed to Accept the Jab

Austria recently announced a total lockdown of the entire population, vaxxed or unvaxxed, and compulsory vaccination as of 1 February 2022, see [this](#). Both of these measures have raised a lot of resistance, especially the second one; it is a direct interference in people’s basic Human Rights.

This is however not enough for Chancellor Alexander Schallenberg, to withdraw the draconian and illegal request for obligatory vaccination. Instead, the Austrian Government, like so many other western governments in Europe and the US, has initiated an incentive scheme for the non-vaxxed that basically works as a lottery.

For example, under a vaccination lottery, the unvaxxed can now win a house, for a “limited time” if they submit to the jab. The news was announced on 23 November and is apparently valid until just before Christmas. See [this](#).

But the most hilarious, and as far as I know, never heard-of before “incentive scheme” is a 30-minute free-brothel time with a prostitute, if one accepts the jab. Yes, you have read correctly: Austria offers the unvaxxed – presumably primarily men – a prostitute, free for 30 minutes, meaning the government pays for the prostitute’s time. See this [CNN report](#).

The CNN reporter – a lady – pointedly, with a smile, says it’s a win-win solution: More men get vaxxed and the brothel makes more business. Fabulous.

This just shows how desperate governments around the world get to meet their “outside” imposed “vaxx-quotas”.

What’s the real agenda?

It becomes increasingly clear that this vaccination campaign – one can no longer call it a campaign, it is rather coercion of the worst kind with a specific goal – has a clear plan: implement as fast as possible a eugenist agenda. And that before people wake up to realize what they have been forced to accept – a highly probable lethal shot, or series of shots.

According to Dr. Elisabeth Eads, these mRNA Covid jabs are diminishing your immune system drastically, the first one by about 30%, the second one another 30% and the so-called “booster” shot by about 20%. Since the West is in the midst of the “booster campaign”, on average the western population may be losing about 80% of its immune system after receiving the three injections. Of course, there are different reactions by different people. This is an average. This means, a considerably higher vulnerability to ANY viral and infectious disease, including the common flu – which is, as we know, registered as Covid.

Would this, plus the endlessly propagated and forced “testing-testing-testing”, maybe account for what they say is an almost exponentially increased “case” load? And this, of course, in the Northern Hemisphere’s flu season. – See [this](#).

In healthy people, and especially younger people, like children, the immune system recovers over time, more or less rapidly. Is this the reason, why some “scientists” predict already that a “booster” shot will be necessary at least once a year? And that children are coerced to get a “booster” jab?

To be repeated: The agenda is massive depopulation, as fast as possible, before people wake up.

In other disturbing but related news, the professional Journal “Circulation” offers a molecular biological explanation on how Covid vaxxes may harm people lethally. [See this](#), as well as the short abstract below (published 8 November 2021).

Abstract

Our group has been using the PLUS Cardiac Test (GD Biosciences, Inc, Irvine, CA) a clinically validated measurement of multiple protein biomarkers which generates a score predicting the 5 yr risk (percentage chance) of a new Acute Coronary Syndrome (ACS). The score is based on changes from the norm of multiple protein biomarkers including IL-16, a proinflammatory cytokine, soluble Fas, an inducer of apoptosis, and Hepatocyte Growth Factor (HGF) which serves as a marker for chemotaxis of T-cells into epithelium and cardiac tissue, among other markers. Elevation above the norm increases the PULS score, while decreases below the norm lowers the PULS score.

The score has been measured every 3-6 months in our patient population for 8 years. Recently, with the advent of the mRNA COVID 19 vaccines (vac) by Moderna and Pfizer, dramatic changes in the PULS score became apparent in most patients. This report summarizes those results. A total of 566 pts, aged 28 to 97, M:F ratio 1:1 seen in a preventive cardiology practice had a new PULS test drawn from 2 to 10 weeks following the 2nd COVID shot and was compared to the previous PULS score drawn 3 to 5 months previously pre- shot.

Baseline IL-16 increased from 35 \pm 20 above the norm to 82 \pm 75 above the norm post-vac; sFas increased from 22 \pm 15 above the norm to 46 \pm 24 above the norm post-vac; HGF increased from 42 \pm 12 above the norm to 86 \pm 31 above the norm post-vac. These changes resulted in an increase of the PULS score from 11% 5 yr ACS risk to 25% 5 yr ACS risk. At the time of this report, these changes persist for at least 2.5 months post second dose of vac. We conclude that the mRNA vacs dramatically increase inflammation on the endothelium and T cell infiltration of cardiac muscle and may account for the observations of increased thrombosis, cardiomyopathy, and other vascular events following vaccination.

In a 4-min video, Dr. Vernon Coleman calls this mRNA mechanism sheer murder. He also calls for an immediate stop to all “vaccination”.

It is high time that people collectively around the world stand up – **at once** — against this murderous tyranny and vaccination, and that everybody rejects further vaccination. It’s not just tyranny for total domination and the implementation of the Great Reset and the Fourth Industrial Revolution – it is tyranny to drive people to walk or run into their own grave by fear.

We can and must stop this.
