My roommate from UF has been in the hospital for almost a month from COVID. It's devastating. She's a nurse practitioner in her early 30s, and her family needs support. If you can, please contribute to the Gofundme link below.

Also, stop treating this virus like a joke or "just the flu." The numbers have started becoming names (and I'm sure I'm not alone in that).

For those who have not yet heard, our son passed away suddenly and unexpectedly without warning on our flight into Jamaica. It was our first family trip for our little traveller, and we are all absolutely broken. The light has gone out of our lives. Our time together was too short, but we will never escape the impact you had on us. And we will never want to.

Rest in Peace Malcolm Zion Joshua Azan. Our sweet, sweet boy. Mommy and daddy will love you and miss you forever.

We are heartbroken and devastated to be writing this but yesterday we had to say sleep tight to our beautiful, amazing Noah-Blake, he passed peacefully at 12.38pm. He was taken into hospital 6 weeks ago with a mystery illness, he fought and fought and showed signs of improving but unfortunately his lungs just weren't getting any better, so me and tash had to make the difficult decision to take him off his ventilator and let him slip away, he had his daddy and mummy by his side and he was comfortable and pain free, we are so proud of our strong brave boy and he is now flying high pain free, we would like to thank everyone that has been there on this journey with us. We are going to miss you so much our Noah bear but we know you are now pain free and at peace.. fly high and sleep tight our little soldier 🥺💔💔💔💔

Nov. 10, 2023 - Louisiana - Mercedes White, a prominent TikTok star posted news that her 2 year old son, Wesley, inexplicably died of cardiac arrest on Nov. 10, 2023. The previously healthy baby had a cardiac arrest and died on the way to the hospital.

A **TikTok** star has shared her anguish after her beloved two year-old son died of cardiac arrest earlier this month.

Mercedes White took to **Facebook** following the death of her boy Wesley, writing: 'He was it for me. I wanted only one baby... and now he's gone. I don't know how to process this. He slept with us since the day we brought him home,

White, from **Louisiana**, continued: 'I cuddled him every night. I keep waiting for his little feet to kick me in the back.

'Little piece of him are all over our house but he will never be here again. I thought I had more time with him. I wanted to be better for him.

'He deserved more than this. Nothing feels right, my baby is gone. Hug your little ones a little tighter for me.'

The grieving mom said Wesley had died after falling ill, then suffering from a cardiac arrest as he was rushed to hospital. Further details of his condition and death have not been shared.

White shot to fame as a 'booktokker,' who shares book news and reviews of novels she's enjoyed, with the trend credited with helping save the publishing industry and launch careers.

In another, the content creator - whose handle is **@bookclubwannabe** - lamented the loss of her 'one [and] only' child, recalling how he had 'slept with [she and her husband] since the day we brought him home.'

White offered little else and had never before mentioned her son suffering from congenital heart problems. She buried him on November 17, one post revealed, after raising more than \$41,000 for his funeral.

NYC influencer Christine Tran Ferguson's son, Asher, dead at 1: 'Nightmare'

By Emily Lefroy

July 20, 2023 | 1:37pm | Updated

New York City influencer Christine Tran Ferguson, revealed her son Asher, 1, passed away after a two-week health battle.

Ferguson shared the news via an Instagram post.

"My heart is utterly broken and shattered into a million pieces," she wrote in the post shared on July 20.

"I will never understand why, nothing makes sense. I'm still in shock, I just want to wake up from this unimaginable nightmare and have you back in my arms. Why is this happening to us, why Asher??" the grieving mom wrote.

Ferguson concluded her post by saying they are still unsure what caused Asher's death.

July 13, 2023 - Savannah, GA - 2 year old Josephine Boswell died suddenly in her crib on night of July 13, 2023. Her mother Kassandra Pelky Boswell wrote when she was born: "I just simply can't take the risk of unvaccinated people being around my infant."

So I hate it when these Facebook statuses are made but apparently it's necessary.....

sigh

Please tell me if you aren't vaccinated before you meet my child.

I 100% support your decision to choose whether to get the vaccination or not. I respect your choice and bodily autonomy enough to give you that support.

Please show me the same respect by understanding that I just simply can't take the risk of unvaccinated people being around my infant.

I wouldn't let people without their TDAP around her before she got her vaccine.

Until I'm comfortable with unvaccinated ppl being around her, I ask that you be upfront about it.

It's not personal, I promise!

Some of you know about the fertility issues I've dealt with for a decade and I acknowledge that the covid anxiety might be rooted in that but..... the root is kind of irrelevant.

Please pardon any errors in this post as I never thought I'd have to write something like this.

It is with great sorrow and utter despair that I have to write that on Thursday night, Josephine unfortunately passed away after I found her not breathing in her crib. Everyone (including myself, police officers, EMTs, and the ER staff) worked diligently for almost two total hours performing CPR but they were unfortunately unable to revive her.

Lee and I are devastated and living out our absolute worst nightmare. We are finalizing funeral plans, however, we do know that it will be Tuesday at 4pm in Savannah. We will update as we finalize plans.

Feel free to reach out to us, however, our ability to function, or respond, has varied minute by minute.

Addilyn Emelia Radomske Booth was an energetic little girl who loved her family.

On Christmas Day, Addilyn (Addy) was happily opening presents alongside her older sister Alexia.

Just days later, the Kelowna family was shattered when Addy was found not breathing and later died the morning of Dec. 29.

"Addy on the 27th wasn't feeling too great, but it wasn't anything out of the ordinary, she just wanted to snuggle up," said Addy's aunt Emmy Radomske.

"The 28th she was doing fine again, like they weren't concerned about anything.

"She never was sick enough that it was a major concern."

On Dec. 28, Addy and Alexia went for a sleepover at their grandmother's house.

The little girl was found not breathing around 7:30 a.m. and 9-1-1 was called.

Attempts to revive her were unsuccessful.

"Little things just don't matter," Radomske said.

"When something like this happens, I've heard people say it before, when something like this happens you realize what things matter."

Radomske has a special place in her heart for little Addy, as her niece was named after

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and

massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden "plandemic"; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that "there is no causal relationship between the virus and economic variables." In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. -David Skripac

A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
