The Biden regime has made it clear that the US government is Zionist. Biden is clearly not an American patriot. He sacrifices America's welfare and reputation, what little of it remains, in behalf of Zionist Israel's Genocide of the Palestinian people.

Since 1947 Israel has been stealing Palestine from its owners and 2,000 year inhabitants. For decades Israel has been driving Palestinians out of their villages, forcing them into refugee camps in foreign countries, and reducing their presence in Palestine to almost nothing. Israel has succeeded in renaming Palestine Israel. This has been going on for 76 years with the support of the great, moral, Western democracies who always express concerns with human rights only when their concern is directed at their chosen enemies.

Now that the Zionists have shrunk Palestine with American, European, and Muslim help to almost nothing, the decision has been made in Washington and Israel to erase Palestine altogether. There will be no more pointless talk about “two state solutions.”

The Zionist Puppet-Biden, President of the United States of America—represents the Zionist propaganda that any criticism of Israel's Genocide of the Palestinians is anti-semitic, that is, the criticism is allegedly only a product of hatred of Jews and has no relationship to the impact on moral conscience of the Zionist mass murder of Palestinian women and children, which we can all see occurring every day.

To see an American President sink so low tells us that what was once a Proud American is now a Shamed American. The President of the United States has our country on record as a complete supporter of genocide and the enabler of mass murder, a president who has used one hundred billion dollars of our money in support of mass murder, actually sending at America's expense the bombs and missiles that are doing the work of Genocide.

Biden is Israel's leader in America and the Western world, but Congress, especially the Republicans, agree with him.

It was the House Republicans who called the presidents of Harvard University, the University of Pennsylvania, and the Massachusetts Institute of Technology to come before the House Education Committee and be scolded for having students who dare to protest against Israel. Note that all three presidents of our leading educational institutions are women.

The outcome is that the House of Representatives has passed a resolution that criticism of Israel constitutes "anti-semitism." See [this](#).

In Germany and other European countries a person can be arrested merely for correctly criticizing Israel's violation of human rights laws. Those laws only apply to Washington's enemies, never to Israel or to Washington. In Europe it is a criminal offense to disagree in any way with the official Zionist narrative of the Holocaust. Facts never are permitted to enter the official explanation, even if the facts support the narrative in a limited way. By banning protests of Israel's genocide of the Palestinians, Europe has given a blank check to genocide.

As is perfectly clear, evil is now the official foreign policy of the Western world. This makes the defense of Western civilization ever more difficult.

I am finding it increasingly difficult to defend a civilization whose "Satanic evil" increases every day.
