Climate change and protection of biodiversity are sloganized propaganda expressions that are infiltrated in almost every conversation, news cast, public discussion. They must be omni-present to be made "true".

Hitler's Propaganda Minister, Joseph Goebbels, said, "if a lie is repeated enough, it becomes the truth." And we truly lived this omen of *lies for truth* for many decades and very intensely throughout the last 3 years.

The climate change and biodiversity loss lies are penetrating our brains, as is the diabolical QR code - a key instrument for our enslavement through total control. Most people, still, seem to be so blinded as to scanning with their smart phones almost any QR code they come across - thereby giving away more and more of their most intimate personal details.

It is amazing that a majority of people of our beloved Mother Earth still haven't noticed that we are living in an ever-growing tyranny since the beginning of 2020. A dictatorship that has been planned for many decades, if not longer. And it started around the globe, in all 193 UN member countries (194 WHO members) at midnight of December 31, 2019.

The transition from 2019 to 2020 - the ringing-in of the New Year, was also the beginning of UN Agenda 2030, earlier called Agenda 21 - WHO's "Decade of Vaccination", meaning also a decade of massive population reduction, of a well-planned and orchestrated mass genocide; of the Great Reset, supposedly leading in 10 years to Klaus Schwab's infamous slogan - "*You will own nothing but will be happy*".

The year 2020 is the beginning of a crime that has no name. Its gravity behooves an expression way beyond "atrocities". Mind you, it was prepared by a long hand.

Those who have not been touched by it, cannot imagine.

Those who are suffering from it, many of them cannot speak or express themselves anymore.

And many who would like to speak out are censored, or otherwise silenced.

That's the extent of the monstrosity descended on us – humanity.

*

The surviving population may be either chipped by the end of ten years (2030), or otherwise transhumanized, mind manipulable – most likely through the massive introduction of 5G ultra-shortwaves, in combination with the vaxx-injected graphene oxide or other highly magnetic and often deadly concoctions.

That's the Plan. But, always remember – We, the People, can stop it.

The worldwide 5G network is also a key instrument to develop and advance Klaus Schwab's *4th Industrial Revolution*, the digitization of everything, including our brains, every record of our most intimated details of our lives, and our money – all, especially the latter, is already in process in most of Europe and to some extent also in the US.

Digitized money is devoid of cash. You will no longer be in control of your money. The plan is to replace "cash" by Central Bank Digital Currencies (CBDC) which will be managed and surveyed, first by national Central Banks, later by a globalized Central Bank, according to the One World Order – with regional subsidiaries.

In which case, our money can be turned on and off, or made to expire, or programmed for purchasing special goods or services, as the Dark Cult feels fit, or as they believe you may deserve it, according your "good" or "bad" behavior.

That's the direction we are going, if We, the People, do not stop it NOW. There is no time to lose.

For those who are not yet on the bandwagon of awakened people, these are not conspiracy theories but a die-hard reality.

Becoming actively involved in steering the vessel into the direction of light and awareness is urgent.

Call for Resistance

One of the purposes of this article or warning is a call to jump on the train of enlightenment and grow in togetherness into a critical mass to resist this sledgehammer tyranny.

As these lines are written, "their" – the diabolical Clan's – intent is to enslave and control us all with a full digital identity containing all our medical and other most intimate data. The QR code, already widely in use and activated, is a perfect vehicle for an all-inclusive digital ID.

A digital ID will allow the tyrants to trace your every step, as well as your environmental footprint. If your "e-footprint" is considered too large, you may be warned, and eventually punished – your digital bank account may be turned off, or reduced or blocked. Whatever the "authorities" choose to do to make you submissive.

WHO is also preparing, in a non-transparent onslaught of World Health Assembly Meetings, a so-called *Pandemic Treaty* – which, if approved, will take control worldwide of all matters concerning “health” – over and above sovereign nations’ Constitutions. We may be force-vaxxed, if WHO so decides – and country governments would have no choice, but going along.

Mind you, the financial powers behind WHO are foremost the pharma-industry and Gates Foundation. WHO, a so-called UN agency, is the epitome of corruption.

The WHO member-governments’ choice is NOW – during the World Health Assembly high-pressure meetings. They could and should, humanely they MUST say NO, to this deadly treaty, of which one of the goals is massive population reduction – from what we have seen in the past three years – WHO is poised to commit a crime and crimes of proportions that have no name.

And there is the ever agenda of climate change and biodiversity .

The climate change hoax and depopulation agenda has a long history. It started with the Club of Rome which was created in 1968, basically as a Rockefeller idea, by this trio [Aurelio Peccei](#), [Alexander King](#), and [David Rockefeller](#).

In 1972 – 50 years ago – The Club of Rome published the book, *Limits to Growth*. The book warned that the Earth’s resources would not be able to support the *exponential rates of economic and population growth and would collapse before the end of this century*.

Having said this, the last century has come and gone – and the world has not collapsed. Nevertheless, the same people and their successors keep saying today, in 2022, that the message of this book still holds. They pretend that the earth’s interlocking resources – the global system of nature in which we all live – *probably cannot support present rates of economic and population growth much beyond the year 2100, if that long, even with advanced technology*.

Hardly anybody who lives today will be alive in 2100 to testify whether they are right or wrong. But as past records indicate – they will be dead wrong... and We, the People, have to be aware of the built-in lie, of whatever comes out of the Club of Rome climate and depopulation predictions. Mind you and be aware, such forecasts serve the elite of the rich and powerful.

Such statements are clearly setting the stage for justifying a massive depopulation genocide, the beginning of which we are experiencing since the start of the Decade 2020. Depopulation and massive deindustrialization were the motives for a false pandemic, into which the world has been plunged.

The result is a wave of massive bankruptcies, unemployment misery and death – as well as death from an intense campaign of coercive “vaccination”; not from covid, but from injections that have nothing to do with disease prevention. This, in the meantime, is even admitted by the perpetrators, including the pharma industry which extracted, or stole, billions and billions of dollars from public treasuries for vaxxes that kill.

Amazingly, so far, they have gotten away with it. An extensive world-wide criminal trial à la Nuremberg 2.0 is overdue.

Starting with the 1992 United Nations Conference on Environment and Development (UNCED), also known as the '*Earth Summit*', held in *Rio de Janeiro*, Brazil, the Climate Change hoax began actively to be propagated, and that repeated almost on an annual basis by the so-called *Conferences of Parties to the United Nations Framework Convention on Climate Change*, or simply called COP.

In November 2022, COP27 took place in Sham El-Sheik, Egypt, with similar results of all the previous ones, zero concrete or binding agreements. Some 35,000 participants flew in from around the globe, many heads of Government or other high-level political, business, or other oligarchy pundits. Hundreds, if not thousands in their fuel-guzzling private jets, for two weeks of wining and dining, leaving behind an environmental footprint, worse than what most medium-sized countries could produce in a year.

Mind you, these monster meetings are for environmental protection. They are to tell the world that our excess energy consumption will lead us soon into Armageddon – unless, we the common people will drastically reduce our standard of living.

Be sure, these life and comfort limitations, never concern the oligarchs and elite industrialists – and always excluded and never to be mentioned is the military, by far the largest single user of hydrocarbons and producer of CO₂, so that the war machine can and must roll on, undisturbed.

Again, this points to massive depopulation, to an eugenist agenda, and to a gigantic transfer of resources from the bottom and the middle to the top.

Since more and more people are waking up, as they are smelling the lies, deceptions and cheats behind it all, drastic measures were decided behind closed doors at COP27, to be imposed upon the world as surprises, to make sure there is no escaping.

Climate Change Lockdowns is one of them. Can you imagine? – This follows the Plandemic

precedent of 2020, when people were intimidated and locked down with fear, so they would obey – for their own good, of course – all the subsequent orders and mandates, notably being vaxxed with deadly poison injection – trials of DNI-modifying mRNA-jabs, with massive side effects, many of them fatal. The death count will increase, as time goes by. See also several statements to this effect by Michael Yeadon, former VP and Chief Science at Pfizer.

See [this](#), [this](#) and [this](#) (or watch below).

The climate lockdowns have already started. In the UK, residents of Oxfordshire may soon need a special permit to go from one “zone” of the city to another. Under this “15-minute city” agenda, to travel to another district, requires a special permit. But the permit allows to go from one zone to another only for 100 days a year. If this plan goes through – and We, the People, can stop it – the districts main roads will be equipped with myriads of electronic gates, registering car license plates or other compulsory electronic devices installed on vehicles.

In the same vein, France, literally with the “permission” of Brussels EU dictatorship, has decided to completely ban certain short-haul flights in an attempt to reduce carbon emissions. Such restrictions may soon come to other countries.

We, the common people should take the train rather than the plane – giving a blind eye to all the execs jetting with their private jets from meeting to meeting around the globe. – It is amazing that the French people haven’t stood up yet to protest, for example, to boycott French airlines altogether.

An outright horror scenario is brewing.

But it mustn’t happen, because We, the People can stop it. If in masses we stand up confronting the power, we are more powerful than the dictatorial authorities.

Biodiversity – a parallel and back-up measure of repression

The next step is preventing the human destruction of biodiversity by “excess” emissions of CO₂. “*The Greens*”, who have become the neo-fascists, attempt to make us believe that we are producing so much CO₂ that not only changes the climate, but much worse, we are destroying Mother Earth’s biodiversity. We are responsible for the death of millions and millions of plants, insect and animal species.

But nobody tells you that in the same space of time, millions and millions of new species, plants, insects and animals emerge. It’s a constant cycle. Also called the cycle of life. It never stops. It has nothing to do with CO₂ – and less so with man-made CO₂, which amounts to less than 0.05% of all CO₂ generated, mostly by the planet’s oceans and rain forests. Be aware – CO₂ is essential for life. Without it, life could not exist.

Our planet Earth is part of the Cycle of Life. Climate is influenced almost exclusively by sun activities. When they stop or slow down, the climate cools down. Most references to this effect were readily available on internet, but in the recent wave of censoring the truth, they have been “fact-checked” away.

The goal is “zero-sum CO₂ emissions”. Whatever that means, it is totally senseless. But, again, 24x7 propaganda has people bend over, feel guilty, scared – and ready to obey any

oppressive mandates in order to save the planet.

What the Green fascist agenda is actually promoting is exactly the contrary of what they say. Since CO2 is a vital chemical compound for life on earth, eliminating it, is eliminating biodiversity.

Time is running fast.

We, the People, have to act fast, in unison, in a critical mass, to stop this ever-stronger emerging tyranny.

We can do it, by starting small again, at the commune level, expanding progressively into groups of communes, trading with each other – and, thus growing slowly, but healthily and freely.
