The “official” [Bilderberg Group](#) website [has released](#) a list of participants for this years upcoming conference. The website also released a list of bullet points that they claim is the agenda for the secretive globalist confab.

In the past, [Intellihub News](#) and others have confirmed that while the list released by the Bilderberg website does include many who will be there, it also [leaves out those that would rather not have their name released to the public](#).

It is also well-known that whatever agenda is discussed at Bilderberg will have repercussions for the entire world for years to come. (past attendees have claimed that [the idea for the Euro was first discussed at Bilderberg](#))

Perhaps the biggest piece of news coming out of Austria and Bilderberg 2015 so far is the fact that a major [Hillary Clinton advisor](#) is on the list and set to attend.

Longtime Clinton friend and ally Jim Messina of The Messina Group will be attending the globalist conference where the globalist favorite for United States [2016 election](#) will surely be decided. This news indicates that the powers that be have most likely decided to back Clinton for President.

Key topics listed in the official press release include:

- Artificial Intelligence
- Cybersecurity
- Chemical Weapons Threats
- Current Economic Issue
