A month ago, on March 20, 2023, I wrote a substack about brain aneurysms killing young people. ([click here](#))

There have been many new incidents since then, requiring another article.

Actor Jamie Foxx had a "brain bleed" or brain aneurysm on April 11, 2023, and remains hospitalized

Early reports suggested Jamie Foxx had a brain bleed or brain aneurysm rupture. Jamie remains hospitalized a week later with doctors unable to find an explanation for what happened to him.

Was he COVID-19 vaccinated? Yes.

I want to let everyone who knows me to know. [Tara passed away from a brain aneurysm](#). She did not Overdose, Tara has been to 5 or 6 of the local Hospitals and they did absolutely nothing for her. No x-rays, no scans, no lab work, absolutely nothing, because she didn't have insurance. When she came home Sunday she came in smiling and was happy, because we had cooked a big Sunday dinner, like we used to do. I was at Church, 5 minutes from home. She text me and said Daddy where are you? Because my head is hurting really bad, and that she had fell out. When I got home I came straight in looking for her. Cody found her laying in the yard. It was not an Overdose, they let my Baby Girl suffer because she did not have insurance. Please keep praying for our Family.

Good Morning everyone ❤️

I'm saddened the reason for activating my facebook is to bring the news that [David Cooper](#) is in ICU after suffering a brain aneurysm. I will try to keep everyone updated as much as possible but please for any DOUX issues drop a NC on me inworld and I will try and get to it as quickly as i can and please avoid sending messages to David here on FB. Right now hes unable to use the phone to check messages and he needs minimal stress to try and recover. Please keep him in your prayers. ❤️

My lovely daughter, **Jessica Harrison-Poteet** has passed. She was the oldest of our children. She was only 51. She suffered a brain aneurysm on Sunday and was declared brain dead today. Oh, how she will be missed. She has always been the most kind and generous person. Now she is giving the greatest gifts. She is an organ donor. I am beyond devastated. Your outpouring of love and gracious offers are warmly received. My heart is shredded once again. She was so very beautiful inside and out

Jessica Lee Harrison-Poteet, 51, passed away on April 10, 2023, after having suffered a sudden brain aneurysm at her home in Coeur d'Alene, ID. She was born on July 21, 1971, to Richard D and Joan N (Dihel) Harrison. Jessica spent her 51 years loving people and "fur people" (dogs) above all else in life.

For those of my friends in the business. I am sure most of you had the pleasure of knowing Mark Yokota. As most of you know, he passed away last night from a brain aneurysm. He was truly a great person, and it was my pleasure to know him over 20 years. If you can donate please do. He leaves a family behind that can benefit from anything you give. Always remember that tomorrow is not promised.

Early on the morning of April 7, 2023, Chelsea Rae Andersen, suddenly and tragically died from a brain aneurysm. She woke up nauseous around 2:30 am and fell unconscious in the bathroom. She never regained consciousness. We called an ambulance and over the course of the next few hours in the emergency room, the aneurysm was discovered and four specialists unanimously agreed there was nothing they could do to save her life. We spent some time with her body before choosing to d... [See more](#)

Russian national team head coach, Alexander Pongilsky, revealed Krotov suffered a brain haemorrhage when a blood vessel burst in his sleep on Friday night.

My Take...

There have been so many collapses and deaths from brain aneurysms in the past few weeks, I was not able to fit them all into this article.

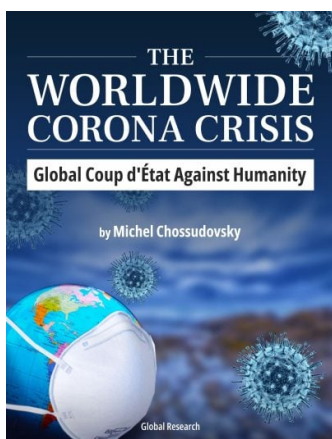

All COVID-19 vaccines which are based on the SARS-CoV2 spike protein, damage blood vessels and cause aneurysms.

I believe post COVID-19 mRNA vaccine brain aneurysms will be killing young people at a high rate, and it will take some time for doctors to figure this out and admit it.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
