An airline has been rocked by the sudden death of two flight attendants; one while on the plane and another in a hotel during a stopover. There were no reported underlying health issues for either flight attendant.

Dec. 23, 2023 (British Airways Flight BA184 EWR-LHR)

A 52 year old British Airways flight attendant was found dead in his hotel room on Dec. 23, 2023 in between flights.

He failed to report for duty and his flight from Newark to London Heathrow was cancelled as a result.

Dec. 31, 2023 (British Airways Flight BA31 LHR-HKG)

A 52 year old British Airways flight attendant tragically collapsed as the busy 13-hour flight from London Heathrow to Hong Kong prepared to depart.

Travelers were reportedly in their seats and the doors were locked when the flight attendant, who was not identified, crumpled to the floor in the back of the plane.

A passenger trained in first aid tried to save the man as the pilot urgently called for medics, but he died at the scene, the Sun reported.

“Sadly, despite the best efforts of our crew, a patient was pronounced dead at the scene,” London Ambulance Service [said in a statement to Metro UK](#).

The flight was delayed until the following day with different pilots and crew in charge, the Sun reported.

[May 20, 2023](#) – British Airways Flight BA886 flight attendant (stewardess) collapsed on flight from Heathrow, London to Bucharest, Romania, forcing captain to divert and land the plane in Budapest, Hungary.

A [British Airways](#) stewardess has collapsed during a flight from [London](#) to [Romania](#), forcing the pilot to change course.

The ‘medical emergency’ – which took place on Saturday evening during the 170-passenger Airbus A320 flight from Heathrow to Bucharest – forced the captain to stop in Budapest to seek critical care for the cabin-crew member.

The flight was then delayed for a further 21 hours as the stewardess was escorted to a hospital in the Hungarian capital by a fellow crew member.

BA confirmed that she was in full recovery as of yesterday, despite now-discounted fears from staff that she was having a heart attack.

A BA source told The Sun: ‘It seemed very serious at the time and the captain had no option but to divert.

‘She was quite a young woman and was clearly very unwell and a medical emergency was declared.

‘Another crew member went with her to hospital as soon as the plane landed but the delay meant that the limit on the number of hours staff had worked was exceeded.

‘The plane was unable to resume its journey and all passengers and crew were forced to overnight in Budapest.

‘Hundreds of passengers waiting for the plane in Bucharest for a return flight to Heathrow were also delayed by almost a whole day and also had to be found hotels for the night.

‘It’s caused an enormous amount of disruption for passengers left stranded.

‘But the wellbeing of the stewardess had to be put first in the circumstances.’

The airline has declined to reveal the identity of the sick woman as well as what caused her to collapse.

Flight attendants who collapsed in past year:

[June 21, 2023](#) – American Airlines flight attendant Carol Wright collapsed at the early stage of Flight from Venice to Philadelphia International Airport (VCE-PHL) on June 21, 2023. her colleagues attempted to perform CPR. The pilots for the flight made the decision to declare an emergency and divert to Dublin Airport (DUB).

Remembering PHL Flight Attendant Carol Wright

June 21, 2023

All flight attendants

It is with great sadness that we share the sudden passing of PHL-based Flight Attendant and Purser Carol Wright while working a flight this morning.

Carol began her career with American Airlines 38 years ago, and she loved her profession and the many friendships she created. She is remembered as a pleasure to support and a joy to work alongside.

Any unexpected loss is extremely difficult, but please know that we are taking care of the colleagues who were flying with Carol. We are also in contact with Carol's family and will provide for their needs and any help they require as we assist with bringing her home.

Please keep Carol's family, friends and colleagues in your thoughts.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of

innocent people who have no clue. His conclusions are evidenced by renown scientists.
—Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. –Edward Curtin
