I never claimed to be a doctor or scientist, I am an embalmer. I have been only sounding an alarm about what I am seeing! I can only say that this is not normal. In the 20 years prior to 2021 I never seen anything like this. Something is causing this, and I see it often.

Yeaaaaaaaaaaaaaaaaa... Those aren't normal clots you might find post-mortem... Was just talking to some other medical folks about this yesterday...

Richard Hirschman ✓
@r_hirschman

...

Embalmers are seeing this a lot! But still the shots are being pushed by the CDC and the FDA! The sad thing is that even if they pull it off the market today, how much damage has been done to humanity? Only time will tell.

So, has anyone determined what this is. We see these posts and I would like a. Intelligent, scientific answer. Just asking. Not trying to be rude. I need more than pics. What do our Elete doctors say it is? Has it been studied? If so where is the info. Thank you.

No embalmer I know have seen these clots before 2021. Some have 50 years of experience. Even if it has been seen before it would be extremely rare, which can explain why most of us never seen it before. But I am seeing this quite often now. I have over 200 images since September...

Continue to listen to them. I have had many articles trying to discredit me and what other embalmers are seeing. But they never actually explain what it is.

I never seen this type of clotting prior to 2021. If it is explained by some rare condition that would explain why we embalmers never noticed it before. But now it is way too common. What is causing this?

Thank you for sharing! I have seen many abnormal clots since 2021! I am not a doctor but an embalmer. This is me removing one from the right jugular vein. I have also found them in arteries as well.

Do you have access to med records to show who was jabbed?

If so, can you correlate clots to only the jabbed?

Additionally, is there any correlation between the # of jabs & the severity of or increased # of clots?

If you have that data, I would love to

Richard Hirschman  [@r_hirschman](#)

Yes, I would estimate close to 30 inches based on others I have actually put a measuring stick to.

[@r_hirschman](#) do you think these clots are made up of dead cell debris as Professor Bhakdi first assumed? He said that the mrna/graphene would destroy blood cells and the debris caused by this would then build up in the lower extremities and lungs?

Richard Hi ✓ @i · May 23, 2023 ...

Unfortunately you are probably right. It is for that reason I have. I only know what I see and what has changed. Something has changed in the blood. I can't prove what's causing this change but I know when it started. My gut says it is related to the vaccine. Maybe covid as well?

Is this the clot caused by the shot?
If so how can they justify liability
protection 🤔

About 1 year ago today, we found out that my husband had blood clots in his legs and lungs. The lung clots were inside the heart vessels leading to the lungs and could only be removed by the open heart surgery which he had in May... praise God that one of the only 4 doctors in the United States was at The Ohio State University hospital, operation was successful and he is getting better each day! Showing the clots...for those who are squeamish...look away

Matthew Horwood @Matt_HorwoodET

Carolyn said in each body she embalms, there are usually enough clots to be comparable to a "heaping plate of spaghetti!"

She also said the fibrous masses - which are different from normal blood clots - look like "calamari," and have a feel similar to "chewed gum and rubber mixed together."

"They remind me of parasites, because it's like they're creating a blood clot and they're feeding off it," she added.

(In the second photo, you can see a "normal" blood clot, which is dark red and more jelly-like, in the top-left corner.)

Matthew @M · Sep 30, 2023

While embalmers don't receive paperwork on the vaccination status of the deceased, Carolyn has gotten a few family members to confirm that their family members didn't receive the vaccine, and she said those individuals didn't have

Richard Hirschman @r_hirschman

Democrats, Republicans, Liberals, far left or right, white or black, male or female, rich or poor, this is what I am seeing coming out of the circulatory system during the embalming process since early 2021. In the prior 20 years I don't recall ever seeing this before. Something is causing this problem and I think we should try to figure it out, because I see it quite often now. May God help us 🙏

Follow

Replying to [@MTGrepp](#)

I'm recovering from massive lung blood clots removed 2 weeks ago. My symptoms started about 2 years ago after the 1st 2 jabs. Tiredness & shortness of breath escalated & I knew I was in trouble. After an hr. in the ER, I was on the operating table, sucked them out.

Having to choose between feeding your family or watching them starve wasn't much of a choice.

Should have never been that way.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. –Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of

invented by the WHO have no clue. His conclusions are evidenced by renown scientists. Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’État under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
