

California Democrats Have Legislated Control Over Medical Practice Out of the Hands of Doctors

The Hippocratic Oath is Now Illegal in California

If you are so unfortunate to live in California, get out quickly. The state government is insane. Indeed, you could say criminally insane. Aside from water, electricity, earthquake and wildfire problems, the state has legislated away doctors' judgments about how to best treat their patients, and the Woke governor's state task force on reparations for blacks wants to rob California residents of \$2,225,000,000,000 in order to give the 2,225,000 blacks who reside in California \$1,000,000 each. As soon as blacks hear about this, practically the entire black population of the US will move to California. See [this](#).

In 2020 the US black population was 41.1 million, raising the cost to California taxpayers to \$41,100,000,000,000 if blacks all decide to become millionaires by moving to California. This reparations sum is 11.4 times larger than California's GDP in 2022. Only a dumbshit like California's governor Gavin Newsom could come up with a task force this stupid. Of course, it was the dumbshit voters in California who elected him and refused the effort to recall him. So one could easily conclude that the voters deserve to pay the reparations. It serves their stupidity right.

Blacks comprise 5.7% of California's population. Latinos are the largest percentage of the population at 39%, followed by 35% white and 15% Asian. Will the reparation bill be levied against Latinos and Asians or just whites?

According to Kamilah Moore who heads California's Reparations Task Force, black homelessness is another "atrocious" California has committed against blacks. It turns out that 34 to 40 percent of the state's homeless are black. What accounts for the homelessness of the remaining 60-66%? If there is an atrocity, it is against all races of the homeless.

The mindlessness of the California state government boggles the mind. But it gets worse.

On January 1, California's new law that criminalizes the Hippocratic Oath went into effect.

This law, passed by California's Big Pharma-owned Democrat government, makes it a punishable offense for doctors to take exception to or disagree with Big Pharma's diktats enforced by Big Pharma controlled medical boards. Debate and clinical evidence is now impermissible. Doctors who on the basis of evidence think the mRNA injections are unsafe, and doctors who treat Covid with known cures such as Ivermectin and HCQ, are guilty under the new California law of committing the crime of "misinformation" and can have their medical licenses revoked

Under the new California law, only Big Pharma and its "regulators" and bought and paid for medical boards can determine acceptable medical practice.

In California the corporate takeover of medicine is now complete. Nothing counts but Big Pharma's profits, which it shares with medical boards whose members are hired as consultants at pay levels above what they can make practicing medicine.

For years Big Pharma's lobbyists have succeeded in getting laws passed that squeeze medical doctors out of private practice. One of Big Pharma's greatest successes was ObamaCare. Health maintenance organizations (HMOs) receive higher payments from Medicare and private insurance than do doctors in independent practice for the same procedures. This has forced many doctors in private practice to sell their practices to the favored providers of health care and to become employees who have to follow medical protocols directed from above or be fired.

The lack of independence is why doctors and nurses had to stand by helplessly while Big Pharma, Fauci, and the FDA murdered people with a deadly injection while withholding treatment with the known cures of Ivermectin and HCQ.

Money over life is the American way. There is no accountability. In California as of January 1, 2023, doctors cannot dare mention the rise of medical tyranny as a weapon against the people.

The dumbshit insouciant California population has voted itself into tyranny.

Expect legislation muzzling doctors to spread in blue states.
