*Has the flu and the majority of colds been eradicated from society because of mask wearing and social distancing as the so called experts contend or is it more plausible that every case of the sniffles for the past year and a half have been wrongfully diagnosed as Covid-19(84)? Are the current PCR tests reliable and what does the FDA, WHO and CDC say about its use today and in the near future? In this video Dan Dicks of Press For Truth covers the latest controversial announcement from the CDC which states that the "CDC encourages laboratories to consider adoption of a multiplexed method that can **facilitate detection and differentiation** of SARS-CoV-2 and influenza viruses". Dan also proves that the "fact checkers" can simply not be trusted.*
