I am back on some social media platforms, but I know that I won’t be there long because the censorship is getting worse. It isn’t just me of course, it is widespread. Twitter suspended me permanently, Youtube and Vimeo deleted all of my videos, Facebook suspends me regularly, and so it goes. My website also has been largely demonetized. These are some ways that the anti-democratic governing polities control the messaging: censorship coupled with monopoly (Mockingbird) media and military grade psychological warfare. (1)

Right now beneath the sunny blue skies and seeming normalcy, genocide is occurring globally. The experimental mRNA injections are bioweapons disguised as vaccines (2). They are neither safe nor effective. Some of the jabs may be placebos (3), some batches may be worse than others and, fortunately, not all will be adversely affected to the same degree. Unfortunately, those receiving a placebo and/or those not apparently adversely impacted, will advertise the “safe and effective” lie, thus enabling the globalist totalitarianism masquerading as public health measures. (4)

The COVID Op is a military/intelligence operation, and the “Lion’s Den”, as per Reiner Fuelmich, is the U.S. deep state. (5)

Read Kennedy’s book, The Real Anthony Fauci, and you will see the eerily predictive pre-COVID scenarios that are deeply embedded with intelligence agencies and military. DARPA is involved. An Italian judge noted that she could not get ingredients because it was a “military secret”. (6)

Canada is heading into a fall season of more unreasonable fear porn to push the dangerous, experimental jabs based on fabricated pretexts and fabricated pandemics. Early treatment protocols have always been available but largely denied (7) even as the COVID protocols and mandates are killing us and the economy, by design.

All COVID data has been manipulated for a disease that is similar to the flu. Nobody needed
to die. PCR test results are invalid (8), and the data base is junk.

Our governments no longer represent us, a global coup is underway.

If enough of us say NO, we can end this. More and more are saying NO. That is the good news.
