\*\*\*

*Two kinds of absolute controls are being prepared to implement The Great Reset, alias UN Agenda 2030. A potentially straitjacket and total control by programmable Central Bank Digital Currency (CBDC), and an all-oppressive health tyranny by WHO, overriding national Constitutional rights and national sovereignty as far as health measures are concerned.*

The former will be "managed", coordinated and supervised for faultless implementation, by the so-called Central Bank of Central Banks, the Bank for International Settlement (BIS); the latter by the 1948 Rockefeller-created, falsely called UN-agency WHO. The emerging tyrant's budget is to 80% pharma, Gates and otherwise privately funded. Both are criminal organizations.

These are plans, not yet implemented. But the world better be aware, so We, the People, may stop this terrifying assault on humanity in its tracks.

CBDC may be upon us, humanity, rather sooner than later. **Programmable CBDC is a weapon of mass destruction.** The weapon has been in the planning for decades – and it fits right into the Bigger Picture of the Great Reset / Agenda 2030.

*Programmable* – means the money can be programmed on how it is to be spent by an individual, or blocked, or made to expire, or made to be used for certain goods or services – or it can be totally withheld, wiped out, depending on how well you behave, according to the standards of the all-commandeering death cult elite.

CBDC is a master control element, a stranglehold on the population.

Simultaneously, an all controlling health tyranny is being prepared by WHO. The plan is that

the new totalitarian rules – Biden Administration initiated revised International Health Regulations (IHR), including a new Pandemic Treaty – are to be ratified by the World Health Assembly, presumably by the end of May 2023. If approved, by a two-thirds majority, the new rules will become effective in 2024.

## **Health Tyranny and Control by WHO**

The elite who pretends to rule over humanity acts most silently from the shadows. It includes the financial giants, the largest funders of the World Economic Forum (WEF), the *Davos Boys*. The financial elite calls the shots on integrated and willing Klaus Schwab, WEF's CEO.

In turn, Mr. Schwab passes on instructions to the World Health Organization (WHO), for example, to redesign and implement the revision of the IHR which now also includes a Pandemic Treaty.

First, Bill Gates, also one of the key sponsors of WHO, puts a shady Ethiopian politician, Tedros Adhanom Ghebreyesus, at the helm of WHO. Tedros, a buddy of Bill Gates, is former DG of the GAVI Vaxx-Alliance, also created and funded by the Gates Foundation. – So much for WHO being a UN Agency.

If these new IHR / Pandemic Treaty are approved by the World Health Assembly at the end of May 2023, the world (currently 194 WHO members) will be living under a “health tyranny”.

WHO would have overreaching powers over otherwise autonomous countries, being able to overrule national Constitutions and decide whether a disease must be treated as a pandemic, i.e., with massive vaccination.

For example, WHO could decide that henceforth the common flue must be treated as a pandemic. Since “covid”, any “vaccination” will be the gene-modifying mRNA type. The same viral-technology that has, with covid inoculations, caused already tens of millions of deaths around the world. Of course, not openly recognized, but over-mortality statistics, especially in the western world, alias, Global North, speak for themselves. They are congruent with the countries' vaxx-injection rates.

People have no clue that when they next take their kid for a polio, or measles vaccination, their child will be injected with a potentially deadly mRNA-type toxic solution, producing immune-averse spike proteins. See [this](#) by Dr. Mike Yeadon, former VP and Chief Science Officer of Pfizer.

## **Total Obedience**

To assure utmost obedience of countries, Klaus Schwab has on several occasions boasted that the, the WEF was able infiltrating scholars of the WEF “Academy” for Young Global Leaders (YGL) into governments around the world. They often are placed in Prime Minister's or President's positions. To name just a few of the more prominent ones – Justin Trudeau, Canada; Emmanuel Macron, France; Mark Rutte, Netherlands; former German Chancellor Angela Merkel; as well as Olaf Scholz, current Chancellor of Germany.

## **Central Bank Digital Currency (CBDC) - Welcome to the New Money Prison**

The decision to introduce CBDC so-to-speak at warp speed was made at a Jackson Hole, WY, meeting in August 2019 by the Central Bankers of the G7 nations. They voted on a financial coup which was “Going Direct Reset”.

This was planned way ahead for at least the last 20 years, and now needed to be consolidated for the final stage of total and absolute financial control – the end game of the coming world tyranny. First applied by the Global North, where the impact will be greatest.

### **It is weaponizing money into programmable and controllable CBDC - a Weapon of Mass Destruction.**

The rest of the world will follow suit. That’s what they think. Destruction of the industrialized world is first. Germany is supposed to lead deindustrialization of Europe, prompted by artificially caused energy shortages. Then comes the absolute control of the world’s natural resources – so that reconstruction of the system, with a drastically reduced world population, may progress rather fast.

The US / NATO Ukraine proxy-war against Russia is a forerunner aiming at dominating Russia and her wealth of natural resources.

Governments and banksters are the people’s biggest, most nefarious, but least recognized enemies. How much longer does it take until a majority of people will wake up and stop this crime on humanity?

According to Katherine Austin Fitts, the introduction of CBDC, may put half a billion people out of work. That is just one part of the warfare. It is intimately connected to the pandemic. People did not die of covid, most perished from toxic vaxxes and from “covid” caused misery.

Dr. Michael Yeadon, former VP and Chief Scientist of Pfizer repeatedly said in his interviews and special addresses, the real, potentially massive dying, of the coerced vaxx-campaign – will take place after three and up to about ten years from the beginning of the vaxx-drive. Injections of mRNA material into people’s bodies began in December 2020. We are now entering year three. And hundreds of thousands, if not millions, around the world have already died due to the “vaxxes”, NOT covid.

Today, truth-seeking scientists and medical doctors warn – “don’t get vaxxed, it is dangerous for your health, the jabs may kill you.” If not, they may maim you for life, or reduce massively women’s and men’s fertility. The latter shows already up in statistics – in Europe from 20% to 40% reduced fertility in 2022. Yet, worldwide vaxx-drives go on – a bulldozer stopping from nothing.

### **How to weaponize money?**

A threesome tyranny – a “trinity”, is at it. The WEF and it’s behind the scene giant financiers; the Governments, and the banksters, through a network of national central banks, all controlled by the Bank for International Settlement (BIS), in Basel, Switzerland.

The “health industry” – Big Pharma, health- and hospital facilities and insurances are following the line with digitized health records and digitized health services.

**The 2019 G7 Jackson Hole decision on massive bank failures** to bring about CBDC, started in early March 2023 on a relatively light note in the United States. The opening was the apparent collapse of California’s Silicon Valley Bank (SVB), California’s Silvergate Capital and NYC’s Signature Bank. None of them really needed to go into bankruptcy. They were “bailed out” by the Biden Administration, put in control of the “Regulator”, before rumors of failure could trigger a run on the bank.

We know how “rumors” can be fabricated or enhanced and how they may mobilize people.

On the other side of the Atlantic, Credit Suisse, second largest Swiss bank, had been plagued for the last two decades by scandals and “financial irregularities” one after the other, including drug money laundering, and helping Russian oligarch escape western sanctions by “disappearing “ documents linking them to their luxury yachts which were supposed to be confiscated.

Since earlier this year, the bank’s share value plummeted, first by the week, then by the day. For a complete list of financial scandals and more, see [this](#).

Much of the loss of confidence was, again, based on rumors – and rumors can be spread – true or false.

There was never a need to put CS into *receivership*. The bank, according to many analysts, also FINMA (the Swiss banking “regulator”) was solvent, especially after CS supposedly received on Friday, 17 March, a 50 billion franc “bail-out” loan from the Swiss Central Bank.

According to insiders (CS analysts)- and outsiders, this amount of cash would have been enough to restructure the bank, including quietly getting rid of undesirable *skeletons* – regaining trust of people and shareholders – and be functional again within less than a year.

However, there may be another agenda for the sudden change in direction, during the weekend, 18/19 March. Janet Yellen, US Secretary of Treasury, UK and German senior Ministry of Finance officials were in “consultation” with the Swiss Minister of Finance.

Outside pressure again cut into Swiss sovereignty politically and in terms of Swiss reputed private banking services.

What happened then, is the complete opposite to what the 50 billion “bail-out” should have achieved. One may ask, was the CHF 50 billion government “bail-out” just a disguise?

In an apparent sudden change of direction, the Swiss Government, without any consultation of shareholders and holders of some CHF 16 billion worth of bonds, forced UBS, the largest Swiss bank, to take over its slightly smaller sister, CS. Even stranger, this happened by applying a shady emergency decree. CS was never in an emergency of insolvency.

CS shareholders had to accept a take-over price of CHF 3 billion, about CHF 0.76 / share, less than half its last quoted share value. The bank’s infrastructure alone is worth a multiple of the take-over price.

On Sunday, March 19, the Swiss regulator FINMA announced that the so-called additional

tier-one bonds (AT1) of about CHF 16 billion will be written to zero as part of the deal. Neither the shareholders or the bondholders were warned.

This precipitous coerced deal has not gone down well in Europe. A famous law Professor at the Swiss Fribourg law-specialized university, called Switzerland a “Banana Republic”.

The conservative Swiss newspaper NZZ reported on 19 March 2023 that a few months ago nobody would have believed the downfall of CS was possible. In 2007, CS had a stock value of over CHF 100 billion. It was gradually reduced to CHF 7 billion, less than a week before the decreed take-over. The paper concludes that *Switzerland got rid of a Zombie-bank, but acquired instead a Monster-bank*. After the merger, UBS will have about 5 trillion worth of managed assets. Compare this with about 10 trillion of BlackRock.

Instead of a 50 billion bailout credit – which would have been paid back, the new deal costs Switzerland about 230 billion – a 200 billion Central Bank line of credit, of which hundred billion are fully guaranteed by the Swiss Government (taxpayers), plus a 9 billion guarantee (taxpayer) for UBS losses, plus other guarantees in case of defaults.

As a sideline, the Swiss Central Bank, on 5 March declared one of the biggest losses in its recent history, of CHF132.5 billion. You add to this a potential loss position of another some CHF 100 to 200 billion – that makes you think – what else is planned to wipe out this debt?

The major CS shareholders may launch a massive law suit against the Swiss Government. Saudi National Bank (10%), Saudi Olayan Group (5%), plus Qatar Holding (5%), hold together about 20%. For these oil-producing countries legal fees may not be an issue, but creating a precedent will be important. BlackRock with about 4.1% CS shares stays for now on the sidelines.

Looks and smells like all of this has been planned by a long hand. Remember the G7 Central Bankers meeting at Jackson Hole, Wy in 2019?

Financial Times and Forbes report that there are about 200 small-to medium size US banks “at the brink” of collapse. The Credit Suisse collapse, one of the world’s 30 systemically most important banks, also one of the “Too Big to Fail” banks, rescued by the Swiss Government, may just set the beginning of a massive domino of bank failures in the US and Europe. See [this](#).

BlackRock’s Vice Chairman, responsible for Investments, Philipp Hildebrand, is the former President of the Swiss National Bank (forced out in 2016, because of a personal scandal), then joined BlackRock. He knows how the wheels turn in Switzerland.

The Biden Administration’s *rule of order*, ignores the 2010 Dodd-Frank Act that eliminates government bail-outs and opened the door for bail-ins, allowing banks to confiscating creditors’ money and converting it into equity. If this government bail-out policy continues, a never-seen before government debt will accrue. The same may apply in Europe, amassing potentially hundreds of trillions of national debts, on both sides of the Atlantic.

This would be the ideal moment to introduce at once in the western world – US, UK, Canada, Europe, but also Japan and Australia – *programmable* Central Bank Digital Currency (CBDC).

These countries’ combined 2022 GDP amounts to about US\$ 50 trillion equivalent, almost half of the 2022 world GDP (US\$ 103.86 trillion). See [this](#) (World Bank data).

\*

Within the shortest period of time, the western US-dollar-based economy's debt could be wiped out with one stroke – with a new kind of money, the CBDC. With another stroke, the entire ignorant western population could be doubly straitjacketed – by WHO's Health Tyranny, as well as by *programmable* CBDC.

It is high time that We, the People, around the world gain consciousness and become aware of the dictatorial measures waiting just a short stretch down road to be implemented. Then, the bulk of The Great Reset / Agenda 2030 would have been achieved. Once that happens, it will be difficult to escape.

It is time that We the People, request our governments to exit WHO – in Switzerland a referendum to this effect has already been initiated – and that we are prepared for setting up parallel governments with local money, totally delinked from existing banking and central banks.
