A chaotic upside-down world, where injustice is justice, war is peace and good and bad are reversible at will, has been emerging over the last decades. Gradually. But ever more severely, to the point where most everyone is confused, preferring holding on to his / her comfort zone, also called cognitive dissonance.

George Orwell’s 1984 is but a prelude to what is still in the making – and may come, if We, the People, do not stop it.

Today, the juxtaposed values that are infiltrated in our brains by massive lie-propaganda have already reached a stage where most people cannot detect a difference between truth and lies. Once they do, they find themselves believing in what commonly is known as a lie, but is sold by the elite and its billion-dollar mass-media as the truth.

So, they are confused and applaud their hangman.

Confusion is absolute.

Take Sicily, or some of the refugee-strategically placed Greek islands, like Lesbos, Leros, Samos, Chios, Kos – they are among the Mediterranean islands, most invaded and affected by refugees. They are the places of first refuge for Africans and Asians fleeing from misery and tyranny at home.

Black and colored skins, are often hated, and discriminated against. Yet, they are in poverty and misery – most needing help, attention from their fellow humans.

We, the largely white Europeans, have everything; they have nothing. They roam the streets begging, being chased away from restaurants and hotels by waiters and servants of the rich. Often even police stop them from begging.

The refugees' situation today is intimately connected to some 500-plus years of mostly European colonization, when native and indigenous people were enslaved and exploited, along with their lands.

According to UNHCR, there are currently worldwide more than 100 million people on the run, fleeing from home, misery and hopefully from death.

The dynamics of history is playing out today.

For most of the “freed” colonies freedom never came, even though proclaimed in most “former” colonies in the fifties and sixties. “Former” is but a euphemism for a color-change. Today they are as colonized – or worse – as they were then. The white colons chose their corrupted colored counterparts to continue exploitation on their white colons' behalf – dictatorship in misery.

Pakistan, Bangladesh, India are Asian's prime examples. When a country like Pakistan finally elects – to the surprise of the west – a leader who defends the interests of his fellow-people, *Imran Ahmed Khan* – the wannabe empire US of A pudges him, by buying corrupt Pakistani Parliamentarians and politicians. And nobody does anything against it. So, the western cabal continues pretending ruling over Pakistan, *former* British colony.

Ukraine

Compare this to white-skinned Ukrainian refugees. They have priority everywhere. Even hotels in selected European cities advertise *We support Ukrainian refugees*. Whatever that may mean. Nobody asks. It expresses the current brainwashed state of mind.

After EU Council President Charles Michel proposed to make Ukraine and Moldova candidates for EU membership, the draft final declaration of the June 23-24 EU summit in Brussels on June 21, 2022, stated,

“The European Council has decided to grant candidate country status to Ukraine and Moldova.” (Georgia is to be granted candidate status as well.) It is assumed that the 27 heads of state and government will follow the EU Commission's recommendation. See [this](#).

The Role of Germany in the US-Ukraine proxy war

Three days after the Russian attack on Ukraine – just as illegal under international law were all US wars since the attack on Yugoslavia – **German Chancellor** Olaf Scholz introduced his government's statement on Feb. 27 with the words:

“February 24, 2022 marks a turning point in the history of our continent.”

In a firm voice, Scholz castigated Vladimir Putin's cold-bloodedness and ruthlessness over his war of aggression, which he said could not be justified by anything, and asked:

“May might break right?”. The rhetorical answer (with respect to Russia) is clearly no. However, different standards seem to apply to the United States.

Would Olaf Scholz, who has one of the most corrupt political records in recent German history (see [this](#) [in German]), dare to challenge the US, for example with “May might break right?” – While referring to US invasions and aggressions on Syria, Iran, Pakistan, China, North Korea, Cuba, Venezuela, Nicaragua, Sudan, Yemen – and yes, Russia — and uncountable more countries over the past few decades – causing the death of some 20 to 25 million people.

Would Chancellor Scholz dare to refer to such US-made atrocities?

Clearly not. But nobody reacts. It's normal. Double-standards: The western cabal is always right with might. This narrative has been indoctrinated into the brains of western civilization for over hundred years. It's just part of an incoherent chaos, where might is right – and bad is good, where justice is overruled and literally overrun, bulldozed away by the powers that be. No constitutional rule, nor any national or international court, or judge, dares to stop them, the corrupted western governments, and the masters that pull the strings on them.

To stay with the absurdity of the western supported Ukrainian conflict – NATO countries have been shipping untold quantities for billions of dollars and euros of modern weaponries, including the most sophisticated tanks and anti-missile systems, drones, missiles – and more, much more. This weaponry digitized, works electronically and needs well-trained personnel to be used.

It so happens that such western / NATO training is apparently fast declining. RT (Russia Today) reports that [Training of Ukrainian troops has “dipped” in recent weeks, leaving them unable to operate advanced weapons systems from the West](#). See [this](#).

Is it possible that western training of Ukrainian troops declined, because the west has lost hope in Ukraine's making any headways against Russia? – A senior US defense official told the Foreign Policy (FP) magazine, *"The drumbeat of faster, faster, faster"* does not always work well because *"the Ukrainians needed to have the training to be able to effectively use these systems."*

Or is the reason for the faltering training much worse – namely that the lavish deliveries of 'lethal aid' from the US, UK and other NATO countries to Ukraine have led to *"black marketplaces"*, where some of those weapons can be purchased popping up on the **dark web**, [Google explains the *dark web* as part of the internet that isn't visible to search engines and requires the use of an anonymizing browser to be accessed. The *dark web* may be used by people wishing to carry out illegal activities online, such as selling weapons or drugs].

According to RT, *Ukrainian traders claim to offer not just small arms or body armor on the dark web, but also such sophisticated hardware as Javelin and NLAW anti-tank systems or Phoenix Ghost and Switchblade explosive drones.*

When asked if *dark web*-purchased weapons could be delivered to an area outside Ukraine, for example, the Polish border town of Przemyśl, the reply was: No problem, for an additional cost of US\$ 1,000, meaning that Ukrainian arms smugglers may have already bribed border guards to cross in and out of Poland without complications. See [this](#).

Food shortages and Famine

The *Rockefeller Foundation* over ten years ago predicted food shortages.

So, what may happen in the next 12 to 24 months – famine, death in many poverty-stricken areas – is not a Russian caused food-shortage. It's part of the cabal's plan. It fits perfectly their agenda, creating fear, misery and population reduction, by any means possible.

And we know the massive and coerced vaxxing with toxic and electromagnetic substances is also part of the cabal's master plan – Rockefeller, Gates, Schwab *et al*, and not to forget, the BlackRock-Vanguard financial headmasters.

[See this](#).

None of this is made transparent by the 24/7 mass-media lie-propaganda. They would not tell us that this is all part of a long-planned massive eugenics agenda; a planned massive genocide.

In the ***Horrible American Roots of Nazi Eugenics***, Edwin Black wrote on 28 June 2022, [during the German Nazi period] Eugenics was the racist pseudoscience determined to wipe away all human beings deemed "unfit," – or in preserving only those who conformed to the Arian stereotype. Elements of the philosophy were enshrined as [Nazi Germany's] national policy by forced sterilization and segregation laws.

This sounds very much like getting rid of the "useless eaters", as Klaus Schwab's top adviser, Yuval Noah Harari, WEF scholar and Israeli intellectual would call today's "unfit", or simply superfluous people.

It is a dark and rotten civilization that produces so-called “intellectuals” – where is the intellect? – who call part of their fellow-humans “useless eaters or people”, or unfit. May we turn such arrogance around, calling them, the Schwabs and Hariris of this world, “*the useless crust of humanity*”? See [this](#).

Digitization of Everything

The world’s population, especially the primary-targeted western world’s populace, is so much divided, scared, and / or wantonly swerved away from the reality through a “*well-deserved relaxed back-to-normal summer period*” that most of them are totally oblivious to what’s to come – the harsh, and ever harsher continuation of restrictions, mandates, of elimination of human rights, of personal rights, of personal freedoms.

Digitization is already all over us, in many forms, but the most nefarious mode is through the QR code (QR = Quick Response), that can store as much as 30,000-plus pieces of information about every one of us. And there is literally no limit to its potential expansion. We are talking about digitization of money, of every transaction – purchase, payment, trade, travel, service contracts, medical records including digitization of the human brain.

It’s called *Optogenetics*, a well-advanced WEF (World Economic Forum) program of total brain control. See this from [Kla.tv](#) (23 June 2022 – in German).

*

Nuclear holocaust, vaxx genocide or eugenics and digitization of everything including your brain? Is this our convoluted, chaotic, topsy-turvy, state-of-utter-confusion future?

Why would not the masters of ceremony, Klaus Schwab, Gates, Rockefeller, *et al*, as well as their top financial Cult Rulers of the BlackRock-Vanguard Clan, test total digital brain control on themselves? Their digitized, robotized, *optogenized* brains may experience utter happiness, as Artificial Intelligence (AI) may deprive them gradually but totally of all their possessions – converting them into common goods.

Common good for *We, The People*, who through our enlightenment and will-power will have overcome the beast of treason, deception and downright crime and ascended to a civilization of Peace, Love and Harmony into a bright future for mankind.
