

# Corona Tyranny - and Death by Famine

By [Peter Koenig](#)

Global Research, May 08, 2020

*By the end of 2020 more people will have died from hunger, despair and suicide than from the corona disease. We, the world, is facing a famine-pandemic of biblical proportions. This real pandemic will overtake the "COVID-19 pandemic" by a long shot. The hunger pandemic reminds of the movie the Hunger Games, as it is premised on similar circumstances of a dominant few commanding who can eat and who will die – by competition.*

This hunger pandemic will be under-reported or not reported at all in the mainstream media. In fact, it has started already.

In the west the attention focuses on the chaos created by the privatized for-profit mismanagement of the health system. It slowly brings to light the gross manipulation in the US of COVID-19 infections and death rates – how allegedly hospitals are encouraged to "admit" COVID19 patients – for every COVID19 patient the hospital receives a US\$13,000 "subsidy" (under Medicare), and if the patient is put on a ventilator ([average death rate 40% to 60%](#)), the "bonus" amounts to US\$ 39,000. According to Dr. Senator Scott Jensen, Minnesota in a Fox News interview with Laura Ingraham:

"Right now Medicare is determining that if you have a COVID-19 admission to the hospital you get \$13,000. If that COVID-19 patient goes on a ventilator you get \$39,000, three times as much. Nobody can tell me after 35 years in the world of medicine that sometimes those kinds of things impact on what we do."

[\(Dr. Sen. Scott Jensen, from Fox Interview\)](#)

In real life, poor people cannot live under confinement, under lockdown. Not only have many or most already lost their meager living quarters because they can no longer pay the rent – but they need to scrape together in the outside world whatever they can find to feed their families and themselves. They have to go out and work for food and if there is no work, no income – they may resort to ransacking supermarkets in the city or farms in the country side. Food to sustain life is essential. Taking the opportunity to buy food away from people is sheer and outright murder.

"Every child who dies from famine in the world – is a murder" – Jean Ziegler, former UN-Rapporteur on Food in Africa.

Whoever the architects behind this COVID-19 pandemic –who have the universal order to instruct national governments to follow strict total lockdown– are wittingly or unwittingly

responsible for “crimes against humanity”.

This process is committed on a worldwide scale. It is unprecedented in the history of humanity. Only few countries have not or only partially following the total lockdown tyranny, and thereby saving a considerable segment of their social wellbeing and economy. Is the objective to dominate the world under a New World Order, aiming at a totally controlled and massively reduced world population?

Who will live and who will die? The stated objective of the depopulation agenda is to reduce world poverty. How? through tainted toxic vaccinations, rendering African women infertile. (The Gates Foundation with support of WHO and UNICEF have a track record of doing so in Kenya and elsewhere, see here [Kenya carried out a massive tetanus vaccination program, sponsored by WHO and UNICEF](#)); or letting the “under-developed”, the already destitute, die by famine – preventing them from access to sufficient food and drinking water. Privatizing water, privatizing even emergency food supplies – is a crime that leads exactly to this: lack of access due to unaffordable pricing.

Should this not be enough, “Lock Step” has other solutions to trigger food shortages. HAARP can help. HAARP ([HAARP = High Frequency Active Auroral Research Program](#)) has been perfected and weaponized. According to [US Air Force document AF 2025 Final Report](#), weather modification can be used defensively and offensively, i.e. to create droughts or floods, both of which have the potential of destroying crops – destroying the livelihood of the poor.

And if that is not enough, the [2010 Rockefeller Report](#) also foresees food rationing, selectively, of course, as we are talking about eugenics. Let’s not forget Henry Kissinger’s infamous words he uttered in 1970: **“Who controls the food supply controls the people** – the quote goes on saying,

“Who controls the energy can control whole continents;  
who controls the money can control the world.” (see [this](#)).

A recent Facebook entry (name and location not revealed for personal protection) reads as follows:

“..... In the poorer country, where I live, the entire village is on lockdown since March 16. Here the people have nothing to eat ... The wife of my main worker was raped and beaten to death. She was of Chinese descent. In spite of not being allowed to go outside, the people were starving and rampaged walking miles from farm to farm destroying everything. I have lost my entire livestock, fruits, vegetables. The houses were burned and the vehicles, tools etc. stolen. I am bankrupt with nobody around who can give money to rebuild. My workers cannot be paid. Their families are also starving. More malnutrition and undernourishment which will lead to a higher starvation rate or death from other diseases. How many will commit suicide through landing on the streets completely impoverished? – How many died in India trying to walk literally up to thousands of miles to get back home in the hope of finding refuge, after all public transportation was shut down and all had to go into lockdown. I am sure that these numbers will be a lot higher than the number who have died from the virus as well as will increase the numbers for those dying of next year’s flue due to a weakened immune system.”

And as an afterthought .... *“Maybe the elites are planning depopulation. It sure looks like it.”*

This happened somewhere in the Global South. But the example is representative for much of the Global South, and developing countries in general. And probably much worse is to come, as we are seeing so far only a tiny tip of the iceberg.

The International Labor Organization (ILO) reports that worldwide unemployment is reaching never-seen mammoth proportions, that nearly half of the world’s workforce – 1.6 billion people -may be out of work. That means no income to pay for shelter, food, medication – it means starvation and death. For millions. Especially in the Global South which has basically no social safety nets. People are left to themselves.

## Nearly half of global workforce at risk as job losses increase due to COVID-19: UN labour agency

The New York Times (NYT) reports (1 May 2020) that in the US millions of unemployed go uncounted, as the system cannot cope with the influx of claims. Add these millions to the already reported more than 27 million unemployed, the tally becomes astronomical. The same NYT concludes that the millions who have risen out of poverty since the turn of the century, are likely to fall back into destitution along with millions more. Latest FED forecasts predict unemployment could reach up to 50% by the end of 2020.

# ***Stymied in Seeking Benefits, Millions of Unemployed Go Uncounted***

As state agencies grapple with new guidelines and sheer volume, many workers are frustrated in filing claims and omitted from jobless tallies.

Dying of famine – mostly in the Global South, but not exclusively – is an atrocious death for millions, maybe hundreds of millions. Dying in the gutters of mega-cities, forgotten by society, by the authorities, too weak to even beg, infested with parasites due to lack of hygiene – rotting away alive. This is already happening today in many metropolitan areas, even without the corona disaster. These people are not picked up by any statistics. They are non-people. Period.

Imagine – such situations in large cities as well as in rural areas, under the [Rockefeller “Lock Step”](#), the death toll could be even higher.

The current lockdown – brings everything to halt. Practically worldwide. The longer it lasts the more devastating the social and economic impact will be. Irretrievable.

Not only production of goods, services and food – comes to a halt, but vital supply chains to bring products from A to B, are interrupted. Workers are not allowed to work. Security. For your own protection. The virus, the invisible enemy could hit you. It could kill you – and your loved-ones too. Fear-Fear-Fear – that’s the motto that works best – it works so well that people start screaming – *gimmi, gimmi, gimmi- gimmia vaccine!* – which brings a happy grin on Bill Gates’ face. As he sees the billions rolling and his power rising.

Bill Gates along with WHO “he bought” will become famous. They will save the world from new pandemics – never mind, their side effects – 7 billion people vaccinated (Bill Gates’ dream

) and nobody has time to care or report about the side effects, no matter how deadly they may be. The Bill and Melinda Gates Foundation (BMGF) may be slated for the Peace Nobel Prize – and, who knows, Bill Gates may become one of the next Presidents of the dying empire. Wouldn’t that be an appropriate reward for the world?

Meanwhile the rather cold-blooded IMF maintains its awfully unrealistic prediction of a slight “economic contraction” of the world economy of a mere 3% in 2020, and a slight growth in the second half of 2021. The IMF’s approach to world economics and human development – to social crisis, is fully monetized and lacks any compassion – and thus, becomes utterly irrelevant in the age of corona. Institutions like the

IMF and the World Bank, mere extension of the US treasury, they are passé in the face of an economic collapse, for which they are also in part responsible.

#### “Debt Jubilee”

What they should do – perhaps IMF and WB combined – is call for a capital increase of up to 4 trillion SDRs (as was suggested by some of the IMF Board Members) and use the funds as a special debt relieve fund, a “Debt Jubilee Fund” for Global South Nations. Handed out as grants. This would allow these nations to get back on their feet, back to their sovereign national monetary and economic policies, recovering their internal economy, with a national currency, public banking and a government-owned central bank, creating jobs and internal autonomy in food, health and education.

Why is this not happening? – It would require a change in their constitution and a redistribution of voting rights according to new economic strength of nations. China would become a much more important player – with a more important share and decision-making role. Of course, that’s what the US does not want to happen. But the unwillingness to adapt to new realities, makes these institutions irrelevant to the point that they should and might fade away.

Interestingly, though, two of the three economic projection scenarios of the IMF, foresee another pandemic, or a new wave of the old pandemic in 2021. What does the IMF know that we don’t?

Juxtaposed to the insensitive approach of the global financial institutions and the globalized private banking system, the **World Food Program** warns (25 April 2020) that the **COVID19 pandemic will cause “famines of biblical proportions”**; that without urgent action and funding, hundreds of millions of people will face starvation and millions could die as a result of the COVID-19 pandemic.

As it is, every year about 9 million people die from famine in the world.

The WFP Executive Director, David Beasley, told the UN Security Council that in addition to the threat to health posed by the virus, the world faces “multiple famines within a few short months,” which could result in 300,000 deaths per day—a “hunger pandemic.”

Beasley added that even before the outbreak, the world was [“facing the worst humanitarian crisis since World War II”](#) this year due to many factors. He cited the wars in Syria and Yemen, the crisis in South Sudan and locust swarms across East Africa. He said that coupled with the coronavirus outbreak, famine threatened about three dozen nations.

According to the [WFP’s “2020 Global Report on Food Crises”](#) released Monday (20 April ), 135 million people around the world were already threatened with starvation. Beasley said that as the virus spreads, “an additional 130 million people could be pushed to the brink of starvation by the end of 2020. That’s a total of 265 million people.”

# 2020 - Global Report on Food Crises

Publication type: [Reports](#)

Topics: [Food security analysis \(VAM\)](#)

*The 2020 edition of The Global Report on Food Crises describes the scale of acute hunger in the world. It provides an analysis of the drivers that are contributing to food crises across the globe, and examines how the COVID-19 pandemic might contribute to their perpetuation or deterioration. The report is produced by the Global Network against Food Crises, an international alliance working to address the root causes of extreme hunger.*

The famine pandemic is further exacerbated by the ongoing refugee crisis – which is also a catastrophe of misery – hunger, disease, lack of shelter – total lack of hygiene in most of the refugee camps.

Professor Jean Ziegler, Sociologist (University of Geneva and Sorbonne, Paris), Vice-President of the UN Human Rights Committee, recently visited the refugee camp of Moria on the Greek island of Lesbos. He described a situation where 24,000 refugees are cramped into military barracks that were built for 2,800 soldiers, live under calamitous circumstances – lack of potable water, insufficient and often inedible food, clogged and much too few stinking toilets.... diseases no end. COVID19 would just be a sideline.

These people who fled Europe-and-western-caused warzones, destroyed livelihoods – are being pushed back by the very European Union, as most countries do not want to host them and give them a chance for a new life. This atrocious xenophobic behavior of Europe is against the Human Rights that all EU countries signed and against internal EU rules. They are a sad reminder of what Europe really is – a conglomerate of countries with a history of hundreds of years of colonization, of merciless exploitation, plundering and raping of the Global South.

This abjectly atrocious characteristic – shamelessly continuing to this day – seems to have become an integral part of the European DNA. These wars and conflicts are willfully US-NATO made, for power, greed – to maintain the US military industrial complex alive and profitable – and as a stepping stone towards total world hegemony.

The refugees emanating from these conflict zones, their fate and famine will be added to those starving from the also man-imposed corona crisis. The death toll from sheer hunger and famine-related causes, may become astronomical by the end of 2020, way-way outweighing and dwarfing the doctored and manipulated COVID-19 figures.

Is there hope? Yes, there is hope, as long as we live.

The world has to wake up.

Seven billion people under lockdown- wake up! Realize, what is happening to you, all under false pretenses to control humanity, to digitize and robotize your very lives.

What better way to do this than under the pretext of locking you away “for your own safety”? – Defy these rules, stand up against these invisible omni-powerful self-appointed

rulers, who only have the power, we, the People, give them, or allow them to take from us. Because all they have is money, and corrupted media that spread fear and more fear to keep locking you down.

My final words: follow your heart. Open your heart to love and beyond your five given and media-manipulated senses and enter a higher consciousness.

Get out of FEAR, get out of the lockdown, stand up for your rights, for your freedom. Because freedom and liberty cannot be bought with money, nor trampled by the media. They are inherently within us all. If enough of us open our hearts to LOVE, to an all-englobing love, we will overcome this small psychopathic elite.
