Got our boosters today. Moderna. Arms are hurting feeling feverish and super tired. Thought we would not have side effects. How long will this last?

Help Support For Many Medical Bills and Issues

Hi this is Jennifer...I have had so many messages asking how my husband and I are and it has been very hard to keep up. We are both now on a long road ahead to recovery of rehab tests and Medical issues. Our story: Rob my husband had a stroke and went to the hospital. When I went to that hospital the next day I had a major heart attack in the E.R. before I could even go to his room. I was revived 3 times and paddled 20 times. The doctors were surprised I made it through that. An emergency stent was put into my heart through my leg area. From that stent insertion my veins were

Update. I still have Covid. Slept for over 48 hours now. On and off in bed. Headache is still excruciating. Fever wavering between 99.5 and 101.4. Keeping up on fluids. Energy is up a bit. Super cranky. Advance sorry to my hubby who is getting the brunt of my anger. Praying it gets better soon.

Dec. 28, 2023: "Folks this is NOT a drill. COVID is back up and skyrocketing. I had/have it. Three weeks now with a headache that won't quit. Nothing like I have ever experienced". Please mask up."

The doctors were surprised I made it through that. An emergency stint put was put into my heart through my leg area. From that stint insertion my veins were damaged when pulling the stint out causing blockage in my leg. Emergency vascular surgery was done on my leg but was unsuccessful and my leg started to die which ended up in 2 amputations of my leg. First one below my knee then a second one above my knee. I was in I C U for over a week then to a room and now in for a very long road to rehab. Rob was there every day and night at my side after just having a stroke. You never know what life will throw at you but we are trying out very best to stay strong. All of our family and friends who have sent and gave Prayers and support how can we ever thank you enough. There are just not enough words. But we do thank you all from the bottom of our hearts. Family and friendship is so rewarding and special. We seen many asking about helping us with donations. Cindi and another friend of ours Lee both put up a Zelle donation link and a Pay Pal Link and many have been asking us for a go Fund me link. Cindi was trying to do a Go Fund Me but having trouble getting that to work. So we all decided for us to try the Go Fund Me here. Thank you for all your prayers and thoughts. Zelle is a bank link or you can use this Go Fund Me here. All help is appreciated a message or post or phone call or if you would like to help through one of these donation options. Thank You

Hi to all Jennifer's friend's. This is her husband Robert Novak. I am posting this message on her Facebook page so all of her friends will see this. Jennifer had a major heart attack and had to be revived twice in the E R. Doctor's said she died twice. She has other serious complications from this heart attack that are still ongoing and will be heading back to surgery today Jan. 2 or tomorrow Jan.3. She is in the I C Unit at Garden City Hospital. I will try to keep updates on here but feel free to message me on my Facebook for updates and questions. I will answer when possible. She is the love of my life.

Hi to all Jennifer's friends. Again this is her husband Robert posting on her page to let all her friends know how she is doing. I am very sorry for such a late update but issues have been ongoing. Jennifer has had 3 surgery's and possibly another may have to happen. She is still in a heavy groggy state of mind. However she has been moved yesterday out of the I. C. unit at the hospital Jan. 5 to a room and the Rehab department is starting their evaluations and plans.

Cindi Freier here, a retired Northwest Airlines agent .

My friend - coworker Jennifer suffered a massive heart attack on January 2nd, 2024.

Jennifer flatlined twice and received multiple paddle shocks, 12 to be specific.

During a stint procedure, a vein shattered resulting in amputating her right leg below the knee. Then another surgery amputating the same leg above the knee .

Rob, her husband, suffered a stroke a few days earlier. They were in the same hospital on the same days. Isn't that crazy!

They both have a long road ahead. Two amazing people with a positive attitude towards recovery and life.

Jennifer has always been a fighter and 'one tough cookie' as someone commented on her facebook page. Jennifer will be moved to a rehab in a few days and then returning home while she waits about 6 months to get a prosthetic leg. She will be re-learning to walk all over again with her new leg. Honestly the next few months or year will be a tough one. They could use our support while Jennifer will require a great deal of rehabilitation .

Will you join me supporting this amazing, positive couple that, for so many years, has been a blessing to so many? Would you join me in helping them bridge the financial gap with such recovery ahead?

If you feel like you could help, this go fund me is to help out a former Northwest & JetBlue employee friend of mine, [Jennifer Ormiston Novak](#) who suffered a massive heart attack and as a result lost a leg just above the knee. The timing of her heart attack was both shocking and a blessing at the same time. She was actually at the hospital at the time it happened because her husband was there due to having a stroke. I have to believe that the fact that it happened in the hospital allowed them to respond quickly and keep her alive. Even if you can't help with a donation, prayers are appreciated.

January 17 at 8:29 PM · 🌐

This is Robert again (Jennifer's Husband) a update...Jennifer is in a rehab facility after having a major heart attack and passed away 3 times being paddle 20 times and 3 other surgery's...Emergency vascular surgery and amputations (Twice) on her right leg. This all began while she came to visit me (Robert) in the hospital from having a stroke. Now today Jan. 17 a I.V. line was put through her arm into her chest and around and into her heart to administer antibiotics through an I. V. because of infection where the stint was inserted. Many were asking about a Go Fund Me but were having a hard time making it work. So through several people working on this a Go Fund Me has been set up. It is at the top of this page. Thank You everyone for all your prayers support and donations. This has already been a long road and even longer road ahead. You can also do Pay Pal triplestar1155@aol.com or Zelle

My Take...

I have covered dozens of stories of multiple COVID-19 Vaccinated family members having vaccine injuries or dying suddenly.

This tragic story of Jennifer and Rob is unique, because we have confirmation that Jennifer and Rob took the Moderna COVID-19 mRNA booster shots together.

If they had a bad vaccine batch, a “hot lot”, both of them would have been developing internal damage. It’s important to have mRNA Vaccine serial numbers from all the vaccines they took (and check the serial numbers for adverse events on howbadismybatch.com)

It is highly probable that both continued to take mRNA vaccines together, as she lamented that she had not taken the most recent booster shot as she was sick.

Husband had a stroke, and she had two heart attacks, all within 24 hours. Both are very common vaccine side effects, and the recent COVID infection may have had a contribution as well.

Another indication of vaccine injury is this: the COVID-19 Vaccinated often have severe complications from even the most minor surgical procedures. The reason for this is unknown but usually due to clotting abnormalities.

It was the minor procedure of a cardiac stent that led to severe complications that required the amputation of her leg. This is so rare, it’s virtually unheard of.

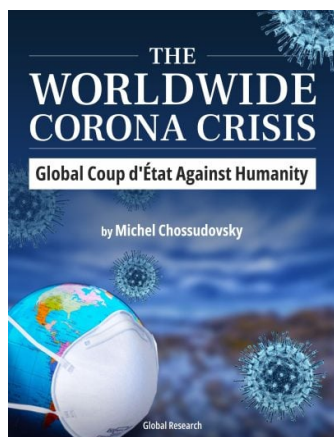

Overall, a tragic, shocking story of someone who had no idea of the toxicity of the

experimental pharmaceutical products she continued taking with her husband.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a

relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.
—Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it’s too late. You will not find so much valuable information and analysis in one place. –Edward Curtin
