It is with great sadness that we share with you that Dr Mike Davis died unexpectedly from a serious medical condition, a brain aneurysm, on Monday 5th February 2024.

Mike's wife and their three beautiful children are an important part of our community and we all extend our support to them at this incredibly difficult time. Mike loved his family dearly – always making time to be there for them despite his busy work life - whether it was the first day of school, coaching their soccer team or supporting his wife in her endeavours. He had a great affinity with the ocean and the outdoors, spending much of his spare time in the quest to surf the perfect wave, kite surfing and camping with his family.

Mike relocated to the area to join our Clinic as a registrar at the beginning of 2016 and ended up becoming a Partner in early 2023. His gentle, caring nature and calm approach endeared him to us all. He also loved making a difference in his patients' lives, helping people of all ages in our community and he will be greatly missed.

Rest in peace Mike ❤️

# The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

## Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. –Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that the lockdowns never have been possible without the infamous DNA-modifying PCR and contact tracing tests – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists.*

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac*

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom*

*loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin*
