Kelly Sue – A Canadian woman who used to walk 10 miles a day and ride her bike 24 miles every 2 days had 9 strokes after her 2nd COVID-19 vaccine dose.

Kelly Sue had her 2nd COVID-19 vaccine on June 12, 2021. Three and a half weeks later she had back-to-back strokes. From July to early November 2021, she had 9 TIAs (mini-strokes) and strokes. She spent 31 days in the hospital.

She had blindness in her eyes, couldn't use her mouth, couldn't talk, would wake up and

didn't know who she was or where she was.

Tallahassee, FL - 35 year old Maxwell Arline died suddenly of a 2nd heart attack after surviving 1st one a few days earlier, died on April 28, 2023 ([click here](#))

Jessica Veloza

14h · GoFundMe · 🌐

Last week Maxwell Arline passed away unexpectedly of a 2nd heart attack, days after having survived the 1st he had the day of his 35th birthday. Anyone who knew Max knew he was one of the most genuine, kind, creative, and joyous people, always there for others.

Unfortunately his life insurance policy was denied, unbeknownst to him, and his family is now in need. Any amount helps. Please share. ❤️

Marcus Vieira Ferreira, better known as Marcus Bala.

According to the information, Bala, who served in his professional career for clubs like CRB, ASA and Penedense, had been admitted to the red wing of the health unit since late afternoon, after feeling sick when taking a walk.

He suffered three cardiac arrests before, around 10 pm, not resisting. Family members and friends of the former athlete mourned death on social media. There is still no more information on wake and burial.

The Alagoas Football Federation (FAF) issued a note of regret for the death of the former athlete. **Check in full:**

16 year old Justus Danielli collapsed at calculus exam on Mar. 23, 2023, was shocked back to life with defibrillator 5 times (had 5 cardiac arrests) ([click here](#)).

Lexington, SC - Mari Murton collapsed, lost consciousness and ended up in ICU after each COVID-19 vaccine injection, was diagnosed with Sudden Cardiac Arrest Dissection (Feb. 20, 2023).

Mari Murton is with Elena Moore.

3h · 🌐

I started almost 4 months ago with Elana, I have always worked out but this past year after I had an adverse reaction to the 1st Vaccine shot and was in ICU for 6 days I have not had the get up and go, so I reached out to Elana to hold me accountable we started the end of September and it was going great then on October 26 I went to the gym to get some cardio in I remember getting on the stepper machine then waking up in ICU at LMC 4 days later 🤔 with all my boys by my side 😊 they were called in thinking I was not going to make it through the night. I was diagnosed SCAD Sudden Cardiac Arrest Dissection , I received CPR for 4 and half minutes from a guy at the gym I now call my Angel! Ambrose Lee he saved my life also was shocked 4 times in the ambulance and a stent was placed in my heart.. After 3 weeks of resting and healing I was ready for the gym Elena was by my side taking it very slow, but emotionally there for me! Fast forward 3 months I am back lifting more then when I started and seeing and feeling the difference with my body. I highly recommend and very thankful for my family, friends, doctors, nurses and ambulance staff and my new work out partner I now consider a friend....

Ukraine - 28 year old professional soccer player Oleh Danchenko suffered a cardiac arrest and his heart stopped 3 times during training in Turkey (Feb. 16, 2023) ([click here](#)).

My Take...

I have not seen any doctor or scientist discussing the phenomenon of multiple heart attacks or multiple strokes in COVID-19 vaccinated individuals.

Seven heart attacks, nine strokes, this is not normal. These strange events are occurring in young people and often in rapid succession. Sometimes fatal.

The nature of these events suggests a mechanism of injury that may be unique to COVID-19 vaccines and as such should be investigated by cardiologists.

COVID-19 vaccine induced myocarditis that leads to cardiac arrests and COVID-19 vaccine induced blood clots that lead to heart attacks or strokes, behave differently than other

causes.

How do we prevent these incidents, how do we treat them? No one knows because doctors are too afraid to lose their medical licenses to even begin asking the questions.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

ISBN: 978-0-9879389-3-0, Year: 2022, PDF Ebook, Pages: 164, 15 Chapters
