AIR CANADA - Ottawa, Ontario - Mar. 3, 2024 - 55 year old Pilot Anand Acharya died after an almost 2 year battle with brain cancer. He was a PhD and an Air Canada Pilot on Boeing 777.

Anand Acharya

MARCH 20, 1968 MARCH 3, 2024

Anand Acharya passed away peacefully at home on March 3, 2024 at the age of 55, after an almost **two-year battle with brain cancer** surrounded by his wife and daughters. He remained unbelievably positive and accepting throughout his journey and lived each day to the fullest, spending his time with family and friends, travelling, biking, paddle boarding, walking, skating and reading. Two days prior to his passing, when the doctor asked him how he was doing he told her with all sincerity that “he was living his best life ever”. While he reached great heights in his professional life including being a Captain in the RCAF on the C130, obtaining a PhD in Economics from Carleton and being an Air Canada pilot on the Boeing 777, the thing he was most proud of was his family which he always made his top priority. He is survived by his wife (Kusum), his daughters (Nina and Jasmine), his sister (Anjali) and his parents (Padma and Jana). His wish was to be remembered and not mourned. To this end, a Remembrance of Life will be held at the Beechwood National Memorial Centre, 280 Beechwood Avenue, Ottawa on Sunday, March 10th, 2024 from 12:00 to 3:00 pm.

In lieu of flowers, donations for research may be made in Anand’s name to the [Brain Tumor Foundation of Canada](#)

DELTA – NYC – Feb. 16, 2024 – 58 year old Capt Geoffrey John Brock died unexpectedly on Feb. 16, 2024 during a layover in Honolulu, HI.

Geoffrey Brock Obituary

Geoffrey John Brock age 58 of Lyndeborough, New Hampshire passed away unexpectedly February 16th, 2024. Geoffrey graduated from Mascenic High School in 1983. He attended University of Texas, Arlington, and received his Bachelor's Degree in Mathematics. Geoffrey followed in his father's footsteps and learned to fly when he was 15. He turned this passion into a lifelong career.

Shortly after college graduation, he was hired as a pilot with Suburban Airlines, and soon thereafter upgraded to captain. While at Suburban he served as the ALPA Central Safety Chairman. During 1995, Geoff was hired by Northwest Airlines that eventually merged into Delta Airlines. At Northwest, Geoffrey upgraded to captain on the DC-9. After the Delta merger, Geoffrey was asked to serve as a line-check airman on the MD-88 & 90. He was then asked to participate in the initial cadre to bring the Airbus 220 on line and flew the first revenue flight on that aircraft for Delta between New York and Boston. At the time of his passing, Geoff was a Boeing 767-400 captain flying throughout the world.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the

deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac

A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. –Edward Curtin
