COVID Propaganda Roundup: The latest updates on the "new normal" – chronicling the lies, distortions, and abuses by the ruling class.

Things have been getting hot and heavy on the COVID front recently. Without further ado, let's get into it.

The Science™ concludes immunity from natural infection 'at least as high, if not higher' than mRNA shots

Via [NBC News](#):

"Immunity acquired from a Covid infection provides strong, lasting protection against the most severe outcomes of the illness, according to research published Thursday in [The Lancet](#) — protection, experts say, that's on par with what's provided through two doses of an mRNA vaccine.

[Infection-acquired immunity](#) cut the risk of hospitalization and death from a Covid [reinfection](#) by 88% for at least 10 months, the study found."

It's about two years too late.

Where are the social media bans for all the mainstream media outlets that pushed COVID misinformation to the contrary? For instance, Medical News Today, one among many, claimed on [February 5, 2021](#) that "COVID-19 mRNA vaccines are around five times more effective at preventing hospitalization than a previous infection."

I got my Facebook and Medium accounts permanently suspended for telling the truth about COVID mRNA gene therapies' efficacy or lack thereof. When will Medical News Today get theirs for lying?

And what about the lying government agencies that are totally bought by Big Pharma? The CDC *still* at this late date – [recommends COVID vaxxes for everyone regardless of prior infection](#):

“COVID-19 vaccination is recommended for everyone ages 6 months and older in the United States for the prevention of COVID-19. There is currently no FDA-approved or FDA-authorized COVID-19 vaccine for children younger than age 6 months.”

Judge: ‘Public Safety Outweighs Personal Vaccination Choice’

Via [PBS](#):

“A person’s choice to decline vaccinations does not outweigh public health and safety requirements in medical settings, a federal judge ruled in a Montana case.

U.S. District Judge Donald Molloy last week permanently blocked a section of law the state said was meant to prevent employers — including many health care facilities — from discriminating against workers by requiring them to be vaccinated against communicable diseases, including COVID-19.”

Donald Molloy needs to be disbarred.

There is no justification for COVID vaxx mandates in the name of “public safety” because [they do not stop transmission](#) — as a Pfizer executive herself admitted recently.

Donald Molloy’s morally bankrupt ruling – like all morally bankrupt corporate media – is brought to you by Big Pharma.

This is your brain on Pfizer:

COVID Warlord Fauci makes \$100K per speech

COVID Warlord Fauci — who should consider himself fortunate if he were to wind down his golden years rotting in a prison cell — is instead getting rich. [He is currently making \\$50-100K per speech](#) sharing all the wisdom he accrued over decades of presiding over the biomedical-industrial complex.

Never forget their rage filled hysteria against the unvaccinated.

— Syrian Girl 🇸🇾 (@Partisangirl) [January 13, 2023](#)

Allowing this demonic goblin not only to roam free but to add to his ill-gotten fortune is an affront to decency.

US Department of Energy concludes COVID lab leak theory ‘likely’

Just a short year ago, one got his social media accounts suspended for speculating that COVID emerged from the biolab called [Wuhan Institute of Virology](#) that specifically studied

bat coronaviruses.

Now that the US Department of Energy finally got around to weighing in, one wonders if the tide has shifted.

Via [Wall Street Journal](#):

“The Energy Department’s conclusion is the result of new intelligence and is significant because the agency has considerable scientific expertise and oversees a network of U.S. national laboratories, some of which conduct advanced biological research.

The Energy Department made its judgment with “low confidence,” according to people who have read the classified report.

The FBI previously came to the conclusion that the pandemic was likely the [result of a lab leak](#) in 2021 with “moderate confidence” and still holds to this view.”

Woody Harrelson drops truth bomb on SNL, immediately smeared as ‘anti-vaxxer’

Woody went off-script for his SNL monologue, to the horror of the twelve libs who still watch SNL.

Woody Harrelson's monologue! pic.twitter.com/FAEcBDnIKu

— Saturday Night Live – SNL (@nbcsl) [February 26, 2023](#)

“The biggest drug cartels in the world get together and buy up all the media and all the politicians and force all the people in the world to stay locked in their homes, and people can only come out if they take the cartel’s drugs — and keep taking them — over and over.” -Woody Harrelson

The smear machine jumpstarted immediately. Via [Rolling Stone](#), “Woody Harrelson Spreads Anti-Vax Conspiracies During ‘SNL’ Monologue”:

“The [Oscar-nominated actor](#), who first won over audiences on Cheers, is a 9/11 truther who’s shared a number of [conspiracy theories](#) during the [Covid](#) pandemic...

And so, during his rambling [SNL](#) monologue Saturday night, an apparently under the influence Harrelson continued along these lines. After a winding story about smoking weed — shouting-out his pot shop in West Hollywood, The Woods, and claiming his manager, Jeremy, transported weed from the LA shop to New York for him — Harrelson went into a spiel about the pandemic.”

The media’s reaction proves that Harrelson’s comments *weren’t a joke*.

Study: Ugly people likelier to mask than attractive peers

Via [Frontiers in Psychology](#):

“Self-perceived attractiveness has significant effects on mask-wearing

intention via mask attractiveness belief in the post-pandemic of COVID-19. Our findings suggest that mask-wearing can shift from being a self-protection measure during the COVID-19 pandemic to a self-presentation tactic in the post-pandemic era.”

If you’ve seen the libbed-out freaks who still mask in Trader Joe’s or whatever, this checks out.

WHO investigates bird flu outbreak in Cambodia

Via [NBC](#):

“The World Health Organization said Friday that it is investigating two human cases of bird flu in Cambodia, after an 11-year-old girl died this week and her father also tested positive for the H5N1 strain.

An [outbreak of bird flu](#) first observed in 2021 has been circulating around the world, including in the United States, where nearly 58.5 million birds from commercial and backyard flocks have been wiped out since last February, [according to the U.S. Department of Agriculture](#).”

I’ve speculated elsewhere that the [US government might be conducting gain-of-function research on avian flu](#) in any of its numerous biolabs scattered around the world to serve as the next engineered bioweapon terror.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
