

If the COVID Vaccine Protects, How Are the Unvaccinated a Threat?

In recent days 24 vaccinated soccer players have collapsed on the playing field due to heart attacks. See [this](#). Also [this](#).

Australia, once a free nation, has been turned into a vaccination-coercive Gestapo state, like Austria and much of Europe. Australian authorities, like Austrian ones and the Western media, are brainwashed and immune to scientific and medical evidence. As part of its coercive policy, Australia has banned the defending tennis champion Novak Djokovic from the Australian Open, because he says vaccination is a personal choice, not a qualification for playing tennis.

There is no known evidence that vaccination protects anyone, not even the vaccinated. Indeed, the scientific and medical evidence, attested to by thousands of experts, is that the vaccine is more deadly than Covid. The vaccine not only causes huge numbers of injuries and deaths (witness the soccer players) from adverse reactions, but also degrades the innate human immune system, leaving people exposed to a wide range of diseases. For example, there are reports that cancer cases are exploding.

If Djokovic is banned, no one should attend the Australian Open, and no one should watch on TV. Let the event proceed without attendees and viewers. This is the only effective way, other than dragging Australian authorities out in the streets and hanging the scum from the nearest lamp post, that people can protect their civil liberty. If people are brainwashed and overcome with an orchestrated fear, then the people are lost, and with them the Western achievement of liberty.

It is proven beyond all doubt that vaccination protects no one. But vaccination endangers the vaccinated from adverse reactions and from impaired immune systems, and via shedding endangers the unvaccinated. *It has long been clear that it is the vaccinated who are a danger to the unvaccinated, not as the lying propaganda asserts, the unvaccinated who are a threat to the vaccinated.*

Think about the official position for one second. Obviously, if the unvaccinated are a threat to the vaccinated, *then the vaccine is pointless as it does not protect but does injure and kill*. The adverse reporting databases of the US, UK, and EU prove that conclusively.

What is wrong with people that they cannot comprehend that when the medical establishment and its media whores say the unvaccinated are a threat to the vaccinated *they are admitting that the vaccine does not protect*.

If the vaccine protects, it protects, and the unvaccinated could only be a threat to themselves.

Please note that the media whores, bought off by advertisements, university professors, bought-and-paid-for-by-BigPharma-research grants, and the Big Pharma-influenced medical-establishment via grants to medical schools, all admit, everyone of the criminals, that the vaccine does not protect when they demonize the unvaccinated for “endangering the vaccinated.”

The fact that I have to point this out tells you how utterly stupid people are. How can people so stupid as to believe (1) the vaccine protects, and (2) the unvaccinated are a threat to the vaccinated going to survive.

Such people lack the intelligence to justify their existence. Maybe the depopulation agenda has a basis after all.
