*Washington's EU vassals might be finding their backbone. Britain, Germany, France, and Italy are reported to have defied Washington's orders and applied to join the Chinese-led Asian Investment Bank. Australia, Japan, South Korea, Switzerland and Luxembourg might also join.*

Washington uses its development banks such as the Asian Development Bank, the World Bank, along with the IMF, in order to exercise financial and political hegemony. These banks are crucial elements of American economic and political imperialism.

The Chinese-led bank will, of course, be much more effective. The Chinese will use the bank to actually help countries and thereby make friends and grow trust, whereas Washington uses its banks for domination by force.

This new bank, together with the BRICS Bank, will provide countries with escape routes from Washington's domination.

The Evil Empire is beginning to crack. It will crack more as the Russian-Chinese alliance unfolds its potentials and when European capitals understand that hegemonic Washington has put their existence at risk in order to try to prevent Russia's rise. The crazed American and British neocon nazis, and their dupes among the populations, comprise the greatest human threat that the world has ever known. The sooner the Evil Empire collapses, the safer the world will be.
