Lawyer Dr. Reiner Fuellmich, Corona Committee Foundation, demands after the public hearing of an eyewitness on the consequences of mass vaccinations: “This deadly human experiment must be stopped as soon as possible!”

“When fellow citizens first learn of the diabolical plans of the enablers and ‘enforcers’ of the ‘New Normal’, many of them will suffer a mental shock. Tried and tested defence mechanisms will then only function to a limited extent and for a short time. Free, courageous and honest intellectuals should therefore do everything in their power to gently take their interested fellow citizens with them step by step on this journey ‘from darkness into light’. For it needs the cooperation of all people of good will to be able to ward off the long-planned ‘attack’ on humanity. And the path to this cooperation must begin in the hearts of people” (1).

The author of these lines begs your indulgence for quoting from his own “psychological manifesto of common sense”, which he published in the course of the second half of 2020 under the title “Hand over power to no one!”. At that time, he had no idea that he, as an experienced psychologist and former psychotherapist, would also suffer a mental shock about half a year later due to certain news.

“The terrible dying after vaccination”

Lawyer Dr. Fuellmich, together with his lawyer colleague and economist Viviane Fischer – two of four directors of the Corona Committee Foundation – interviewed a whistleblower, i.e. a courageous nurse from a Berlin nursing home. As an eyewitness, he gave shocking insights into the apparently common vaccination practice in homes for elderly and partly demented German citizens (2).

According to the carer, these homes for elderly people in need of care are literally raided by doctors accompanied by Bundeswehr soldiers in uniform. Afterwards, wherever they are found in the corridors or rooms, they are vaccinated, sometimes with the use of physical force. The consent of the relatives of nursing home inmates with dementia is obtained

beforehand. This deeply inhumane vaccination procedure is repeated.

The threat of Bundeswehr soldiers is probably set up so that the home residents will submit without resistance – and they do. They freeze with fear because they were not allowed to receive family visitors for a long time and many of the residents experienced the Second World War. The health condition of the residents is not queried before the sometimes violent vaccination.

After vaccination, the health of even formerly lively elderly people deteriorates rapidly. There is gasping for breath, fever, oedema, skin rash, a yellowish-grey discolouration of the skin and muscle tremors in the upper body and arms. Residents who tested negative for SARS-CoV-2 before the vaccination suddenly test positive afterwards. And soon the first vaccinated people die. Despite requests from the lawyers, the police and the public prosecutor's office in Berlin do not take action.

The vaccines used are mRNA vaccines, including the one from BioNTech/Pfizer. BioNTech has recently started production in Germany. These vaccines have come under massive criticism worldwide because of their lack of testing.

Is death once again a master from Germany? (3)

The believable descriptions of the sensitive nurse are shocking. Anyone interested can listen to them for themselves and form their own judgement. The author of this commentary shares the opinion of the lawyer Dr. Fuellmich and his team that this deadly human experiment with vaccination, which is certainly not an isolated case in Berlin and Germany and is being concealed by the mass media, must be stopped as soon as possible. Our fathers, mothers and grandparents are not human guinea pigs of deviant psychopaths in collaboration with Big Pharma.

Let us no longer be intimidated by this centuries-old diabolical “game” with the fear of the rulers and let us discard our religiously conditioned belief in authority and obedience reflex today! Let us have the courage to use our own intellect and stand up against the screaming injustice!

If we do not stop this crime against our older relatives and fellow citizens as well as against the whole of humanity immediately, we younger ones will naturally be the next victims.

We have no more time to lose!
