Please allow me to preface this article by saying that I am not a Trump supporter, but a neutral observer who would like these important elections to be conducted in fairness and full transparency.

As it looks now, the Democrats may have committed massive election fraud. It is not in the interest of the US and the World that the next US President emerges from a swamp of corruption and fraud. Peter Koenig, November 10, 2020

-Remember when Donald Trump said before the 2016 Elections, he wanted to be President to clean up the swamp in Washington?

Well, he may be just doing that, belatedly. President Trump may have just launched a massive sting operation against the flagrant corruption of the “Democrats”.

He knew they were planning a massive election fraud, when they insisted on mail-in votes from US citizens living in the US, similar to the absentee votes, and asked that the mail-in votes would be counted at the end.

Pretext for the mail-in votes was “covid” – social distancing, not getting near each other standing in line for voting. A perfect excuse, transformed into a massive voter fraud.

- Between 3:30 AM and 4:30 AM, they “found” 140,000 mail-in ballots for Biden in Wisconsin;
- Between 3:30 AM and 5:00 AM, they “found” 200,000 mail-in ballots for Biden in Michigan;
- Between 2:00 AM and 4:00 AM, they found a million (1,000,000) mail-in ballots in Pennsylvania

All mail-in ballots “received” in the morning hours of November 4, way beyond the voting deadline. All for Biden, none for Trump
Reference video about minute 1:45”.

Republicans were not allowed to be near the ballot counting as observers, as is the common

rule in election vote counting, that the opposition is present, to observe the counting process. Example given in Pennsylvania by former Mayor of New York, Rudy Giuliani, who denounces “fraud and corruption” in Philadelphia, his home town; see video below.

And fraud and corruption has been going on in at least two more States, Wisconsin and Michigan, and possibly also in Georgia – and maybe others.

President Trump did not agree in principle with the mail-in vote from citizens within the US, because that is usually not done. Absentee votes yes, from military and Americans living abroad, but not from US citizens living in the US. He finally agreed, but said these mail-in votes must have been received before the voting deadline – 3 November – and must be counted first.

However, the Democratic National Committee (DNC) decided differently, namely that the mail-in votes would be counted last. This leaves room for fraud, as these latter votes will most likely not be matched against votes already cast, nor will they be scrutinized with the rigor of validity the way the ballots cast at the polls are checked, so duplicate votes maybe possible. There have indeed been reports of “dead” people voting.

Trump had sizable leads in the key swing states Pennsylvania, Wisconsin and Michigan, and also in Georgia – until the mail-in ballots arrived and were counted – see above. That’s when the pendulum swung to the other side, giving Biden the win.

On 7 November, the mainstream media declared Joe Biden the winner of the 2020 US Presidential Election, with 290 against 214 electoral votes (270 are needed to win), even though no legal state or government authority has yet acknowledged Biden’s win. At the same time, Biden received congratulatory messages from the European Union, as well as from some of staunchest US stooges, like Germany, France and the UK – possibly from others too. That reminds of the EU’s recognition (sic) of Juan Guaidó, as President of Venezuela.

The Trump Team must have suspected that fraud may be part of the “Democrats” strategy. They have planned a sting operation, assisted by the CIA. Each valid ballot distributed to the eligible voters has a small almost unrecognizable water mark.

Lawsuits are already under way in the three key swing states and more may follow. Recounts will be requested. On the basis of the recounts and the watermarks on the valid ballots, the level of fraud may be determined.

So, the election is far from over, and may end up like in 2000 in the Supreme Court for a final decision. But we are not there yet.

There are other dangers too.

Already now, street riots take place. Protests for or against Woke, the Blacks, the police... you name it. They are funded by disruptive forces, like the Soros Open Society Foundation and others, with similar objectives. More of such riots may ensue, the longer the final decision is postponed. Wouldn't such social upheavals be a good reason to declare officially a state of emergency - merging into Martial Law?

That would be the ultimate example for the world to see a totally defunct and dystopian "Democracy".
