Warren, MI – School bus driver collapsed while driving (VIDEO ABOVE), 13 year old boy Dillon Reeves from Lois E. Carter Middle School, jumped in and brought the bus to a halt on April 26, 2023 ([click here](#))

The bus driver experienced "some dizziness" while driving and followed protocol by alerting "home base" that she wasn't feeling well and was going to pull over.

But the driver didn't make it to where she planned to park, eventually passed out and couldn't stop the bus, which started to veer into oncoming traffic.

13 year old boy Dillon Reeves, who was seated about five rows back, "jumped up from his seat, threw his backpack down, ran to the front of the bus, grabbed the steering wheel and brought the bus to a stop in the middle of the road".

The bus driver, a 40-year-old woman, is "stable but with precautions" and was transported to a hospital for examination. She had no physical injuries and suffered a medical emergency owing to a loss of consciousness.

Chula Vista, CA - A school bus crashed around 5pm after the bus driver had a medical emergency, on April 25, 2023 ([click here](#))

Brazil, Pontal - student took over after school bus driver collapsed and died (March 30, 2023)

Student takes over driving of school bus after driver suddenly becomes ill and dies

72 year old school bus driver Rita Sturdivant had a heart attack on Dec. 9, 2022 while driving students. ([click here](#))

My Take...

This is another serious problem no one is talking about.

Just like the recent increase in pilot incapacitation incidents with a serious risk of a large commercial plane crashing (so far all large planes have landed safely), these incidents of school bus drivers collapsing at the wheel bring about a risk to the safety of the children on board.

These bus drivers were almost certainly COVID-19 vaccinated and faced a vaccine mandate at some point. Now they are collapsing from COVID-19 vaccine injuries to the heart.

The health authorities and politicians are ignoring pilots collapsing and having heart attacks in-flight, so they will almost certainly ignore school bus drivers collapsing and crashing buses full of children.

But this is where parents can step in and demand accountability. If enough parents can wake up in time.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
