The Head of the European Central Bank Christine Lagarde, has announced the implementation of the digital Euro, which will have devastating economic and social consequences.

According to Peter Koenig:

“The universal drive towards central bank digital currencies, emanates most likely from the Bank for International Settlements (BIS), the Central Bank of all central banks, controlling at least 90% of central banks around the globe, and the BIS, itself, being controlled by the Rothschild family.

As we see, all is in best-intended private hands, perfectly aligned with the fraudulently established 1913 Federal Reserve Act – that has allowed the US Federal Reserve –which is controlled by a handful of Wall Street Banks– to create a US dollar hegemony around the world”.

The euro is key to our European unity. A digital euro, existing alongside cash, would future-proof our currency. It would be safe, easy to use and free of charge.

While the decision whether to issue a digital euro will be taken later, we’re now launching the preparation phase. pic.twitter.com/fs81p7otVW

Can We Trust Christine Lagarde?

The Head of the European Central Bank Christine Lagarde has a criminal record in France.

EU shock: How Christine Lagarde was convicted for 'negligence' over sketchy French affair

CHRISTINE LAGARDE was this week nominated by the European Council to become the next president of the European Central Bank (ECB). The nomination seems to be a triumph for the Frenchwoman, whose career was recently under threat from a conviction for "negligence".

"International Monetary Fund chief Christine Lagarde has been convicted [December 2016] over her role in a controversial €400m (£355m) payment to a businessman.

French judges found Ms Lagarde guilty of negligence for failing to challenge the state arbitration payout to the friend of former French President Nicolas Sarkozy [Bernard Tapie].

The 60-year-old, following a week-long trial in Paris, was not given any sentence and will not be punished.

The Court of Justice of the Republic, a special tribunal for ministers, could have given [Ms Lagarde up to one-year in prison](#) and a €13,000 fine. (The Independent, December 19, 2016, emphasis added)

Christine Lagarde convicted: IMF head found guilty of criminal charges over massive government payout

But former French finance minister, who faced potentially one year in jail, will not face any punishment

Unusual in France? Lagarde was found “guilty” *without the enforcement of a one year jail term* ordered by the Court: She was accused of “negligence” rather than “complicity” in a multimillion euro fraud.

The French judges took the decision to withhold a one year prison sentence pertaining to the accused pursuant to a decision of the IMF Executive Board which is routinely chaired by the accused.

Christine Lagarde avoids jail, keeps job after guilty verdict in negligence trial

Judges opt not to give any punishment to head of International Monetary Fund, who was given support of IMF board after the verdict

Can We Trust Pfizer Which **Also** Has A Criminal Record?

Did the Media or Your Government Inform You? Had You Known Would You Have Accepted to Receive the Covid-19 mRNA Vaccine?

"The federal government announced the largest medical fraud settlement in U.S. history" directed against Pfizer: \$2.3 Billion (2009)

See details below

Pfizer's CEOs Were not Arrested. [They were Put on "Probation"](#) by the U.S. DOJ

Is there a relationship between the Covid "Vaccine" and the "Digital Euro"?

They are both "Big Money" operations controlled by the Financial Elites. The Central Bank Digital Currencies (CBDCs) project is to be implemented in coordination with the International ID system under the so-called WHO Pandemic Treaty, as well as the vaccine programs.

"Two kinds of absolute controls are being prepared to implement The Great Reset, alias UN Agenda 2030. A potentially straitjacket and total control by programmable Central Bank Digital Currency (CBDC), and an all-oppressive health tyranny by WHO, overriding national Constitutional rights and national sovereignty as far as health measures are concerned." (Peter Koenig)
