Former Canadian Medical Association President Dr.Gigi Osler posted pictures of vaccinating herself and her teenage daughter with Moderna. “We believe in Moderna...my daughter got it. But did not get magnetized”

Every day I hear stories about young doctors who are closing their practice and retiring because they had a heart attack or a stroke or a neurological injury and they can't practice

medicine anymore. Every other day a Canadian doctor dies suddenly.

They were all COVID-19 vaccinated. And most of them convinced their family members to take COVID-19 mRNA vaccines and forced them on their children.

## Why are doctors the most brainwashed group?

I often get this question: why are doctors the most brainwashed with COVID-19 propaganda?

Part of it is incompetence and arrogance. Doctors are put on a pedestal and praised, despite many doctors being grossly incompetent, dull, and not critical thinkers.

But another part is much darker. Doctors who fell for the propaganda also pushed COVID-19 vaccines on their family members and gave them to their children.

Now they can't admit COVID-19 vaccines are toxic because they gave those toxic products to their loved ones.

Australia – 26 yo Caillin Atchison, daughter of a doctor and Australian Medical Association president Michelle Atchison, died suddenly in her sleep on May 11, 2022. ([click here](#))

Just in case there are any questions about how big of an mRNA vaccine pusher her Australian physician mother Dr. Michelle Atchison was:

**Minh Le Cong** · Apr 28

@ketaminh

So my 3rd covid vax was Dec . That means my immunity starts to wane about now . Got flu shot today. TGA & ATAGI approve 4th dose already but only for certain 'vulnerable' groups . If I could buy a dose privately I would . Why wont they allow this ?

**Michelle Atchison**

@michelleatchi15 · [Follow](#)

Health care workers should be on the list for 4th vaccine.

11:57 PM · Apr 28, 2022

Marlinton, WV – 25 year old Allyson Cutlip developed pericarditis multiple times, as well as inflammation of the liver and spleen. “Why can’t I just be healthy?”

Allyson Cutlip

May 23 at 11:58 PM · 🌐

I dont know why God has been testing me so much recently. I'm tachycardiac & they found fluid around my heart again...I hate having an autoimmune disease..& doing all of this without having someone to hold my hand has been nothing short of depressing. I'm jealous of the ones who have found their person...

Update: spleen and liver inflamed. Fluid around heart. They are admitting me to the hospital

Update: i have to stay another night. they have to stick a needle into my pericardium around my heart to drain the fluid & send it off for testing. Still unsure about why my liver and spleen are enlarged but maybe this testing can shed some insight.

My mother is a badass. Just fought breast cancer. Still recovering from her masectomy. LOVES EVERYONE. Is the kindest person in the whole world. Hilarious 😂 GORGEOUS. Loves me I'm her fav 🥰🥰🥰 is literally my bff. SO SMART & INSPIRING!!! Ugh I can only hope to be half the woman my momma is 🥰❤️ Autumn & I watched my momma go from small town gas station to big time physician. Autumn & I watched her go through things she didn't deserve, yet she always came out on the other side,... [See more](#)

Allyson's 3 year old boy has an autoimmune platelet disorder that was almost fatal:

Allyson Cutlip

March 1 · 🌐

DONATE YOUR BLOOD IT SAVED MY SONS LIFE.

I learned that it takes thousands of peoples plasma to create ONE dose of what he needed. That one dose **stopped his body from attacking his own platelets.**

Luke's platelets were CRITICALLY low. Normal is >150. His was 18. Anything below 20 has the most serious risk of bleeding, meaning bleeding could occur with no injury at all, hence his unexplained bruises & petechie (red dots caused by bleeding under the skin) all over his body. This all started with NOSEBLEEDS. Sharing so parents can pay attention to these signs & symptoms because I had NOOO idea what we were facing .

Here is a family with three generations recently impacted by very serious health problems.

A COVID-19 vaccinated physician mother (in her late 40s/early 50s) would have ensured her daughter, with whom she has a great relationship, was also COVID-19 vaccinated. The mom doctor just developed breast cancer at a young age, the 25 yo daughter developed pericarditis, and inflammation of liver and spleen – very typical of post COVID-19 vaccination auto-immune issues.

The boy who is 3 years old had an auto-immune disease attacking his own platelets. Did Allyson get vaccinated while she was breastfeeding? Or is the boy COVID-19 vaccinated himself? These are important questions.

Imagine a family poisoned over 3 generations because of bad advice of one doctor in the family. I believe this is now the reality for many doctors' families.

Saskatchewan Infectious diseases specialist Dr. Alexander Wong rushes to get his small kids COVID-19 vaccinated, then disappears (he has been missing for 14 months).

Pinned Tweet

**Dr. Alexander Wong** @awong37 · Nov 28, 2021

Our 5 year-old got his 1st dose of [#COVID19](#) vaccine yesterday. Insisted on not being held, barely flinched, didn't shed a single tear.

Daddy, on the other hand? I cried like a baby. Tears of happiness, relief, and pride.

THANK YOU, science - we are SO grateful.

This has been one of the most shocking things for me to watch over the past year. Dr. Alexander Wong, a Saskatchewan Infectious Diseases specialist rushed to get his 5-year old boy COVID-19 mRNA vaccinated on Nov. 27, 2021.

He must have been one of the first children age 5 to get mRNA vaccinated in Canada.

On April 28, 2022, he wrote numerous Twitter posts about how excited he was to vaccinate his two young children under age 5 as soon as Moderna mRNA vaccine was approved:

**Dr. Alexander Wong** @awong37 · Apr 28, 2022

...

FINALLY! Moderna submitted for EUA w/ FDA in US for its COVID-19 vaccine in kids b/w 6 mos - 6 years. Similar submissions worldwide soon, including Health Canada & EUA.

When available, we'll vaccinate our 2 young children under 5 with confidence.

Brief 📄 to explain why. (1/9)

...

It feels like parents of kids <5 have been waiting FOREVER for vaccine. It's finally coming, everyone.

When it comes, my wife & I will excitedly line up to get our 2 young kids under 5 vaccinated ASAP.

Protecting them from severe outcomes & long COVID matters so much. (8/9)

...

I am an infectious disease physician. My wife is a registered nurse.

We have 2 kids under 5, yet to be vaccinated.

When Moderna's COVID-19 vaccine is approved for our youngest, we'll vaccinate them WITH CONFIDENCE.

It's been a long wait. THANK YOU SCIENCE. We're SO grateful.

Tip

Those were his last Twitter posts. He hasn't posted in 14 months.

For someone who pushed propaganda regularly throughout the entire pandemic, it is not normal to then disappear for 14 months. I hope Dr. Wong and his family are ok, and I'm very concerned about his young children.

For his sake, I hope he didn't vaccinate those two young children under age 5.

**Dr. Alexander Wong** @awong37 · Mar 6, 2022

My 5 year-old just announced that all guests to his birthday party in July would be "fully vaccinated and boosted", because "the virus will still be here".

Perhaps most shocking was the fact that his last tweet, 2 weeks before he died, was getting his 1 year old daughter COVID-19 mRNA vaccinated.

US Marine Ronald Hinton lost three relatives in 5 months in 2022, one doctor and two nurses.

Halifax, NS – Fully COVID-19 vaccinated Dr. Hesham Lakosha, a physician & ophthalmologist died on April 9, 2023, allegedly from ALS and his ex-wife Latifa Alabdy (age 68) died two weeks later on April 23, 2023.

St. Cloud Florida – Patrick Kelly (age 20) died April 18, 2022 and his mother, a nurse, Francesca Kelly (age 50) died Feb. 5, 2023. Mother believed her son died from the COVID-19 vaccine ([click here](#))

## My Take...

One of the main reasons why most doctors are either not waking up or are refusing to wake up to the COVID-19 mRNA vaccine fraud, is because they pushed these toxic products on their family members including their children, some of them very young.

Psychologically, it must be very difficult to face the possibility that, as a doctor, and as someone that your entire family trusted and counted on, you made a horrible mistake and ended up poisoning your entire family including your children.

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*
