[Big Tech's Effort to Silence Truth-tellers: Global Research Online Referral Campaign](#)

When the covid tsunami hit the shores of New Zealand, thereby fostering a slew of drastic measures based on limitless fear and breathtakingly absent science, Dr. Peter Canaday did what good doctors are meant to do: he thought, he questioned, he amassed evidence, he insisted on basic foundational principles of Medicine, and he brought his concerns to the public.

Other doctors at the time also expressed their concerns, myself being among them, but Peter, given his expertise in Internal Medicine, Respiratory and Intensive Care and Radiology, marshalled his talents in an enviable way to bring an eminently rational perspective on a complex series of topics to all of us. An example of the kind of presentations he was making may be seen here:

Peter was 'rewarded' for his good and necessary work with the suspension of his medical licence, a professional conduct complaint, and a week-long appearance at a Health Practitioners Disciplinary Tribunal in April of 2023.

I interviewed Peter shortly after the Tribunal concluded and our conversation may be found [here](#).

I read Peter's legal brief for the Tribunal, characterized by his customary meticulous presentation of material, and I understood that his concluding submission was a courtroom tour de force, effectively demolishing his critics' specious arguments. He and others were optimistic that truth and evidence would prevail and he would be fully exonerated. I,

however, was extremely dubious — not because I had qualms about Peter’s defense, but because I had no trust in the establishment systems, processes and procedures. An ominous sign was the Tribunal’s refusal to livestream their proceedings in real time, and another ominous sign was that they failed to render a decision for many months when typically these kinds of matters were resolved within days.

It came as no surprise to me therefore when the [Tribunal found against Dr. Canaday](#), on 21 November 2023.

I have discussed this development and the consequences for Peter’s career in my recent interview [here](#).

I urge all readers to watch attentively and to avail yourselves of the supporting documents posted alongside the video of our conversation. I believe you will find that there has indeed been a gross miscarriage of justice.

However I also believe, quite strongly, that justice can not be expected from a lawless adversary.

The establishment authorities in Medicine not only here in New Zealand but worldwide, under the aegis of the Federation of State Medical Boards and its international arm, the International Association of Medical Regulatory Agencies, have shown their rottenness — and iron control. The ‘fix’ was and is ‘in’ and it would be perilously naive for us to expect some sudden enlightenment from these quarters.

Doctors like Peter Canaday, who stepped up to the plate when their wisdom was most in need, have been hounded, harassed, fined and vilified. Instead they should be crowned with laurels for upholding the principles of their profession, forged over millennia.

In the end the final court of justice is us — the people — who can see through the operation of a racket hell-bent on instilling fear, undermining rational thought, and shilling for senselessly destructive measures that have caused unnecessary suffering and death.

It may take a while but we will hold them to account.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global

coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
