Israelis Want Genocide

Is Israel's failing war the end of Netanyahu's government?

Don't bet on it. See [this](#).

Israel's voters reward Netanyahu's government coalition with more votes.

Israelis want genocide – and their government not only delivers but promises more of it.

The West Wants Genocide

The US and Western governments not only support Israel's genocide – they actively participate in it.

This is confirmed by scores of their own Western officials who don't want to be guilty as part of their politicians' crime against humanity:

"What's really different here is we're not failing to prevent something, **we're actively complicit**. That is fundamentally different from any other situation I can recall," added the official, who spoke on condition of anonymity:

More than 800 serving officials in the US and Europe have signed a statement **warning that their own governments' policies on the Israel-Gaza war could amount to "grave violations of international law"**.

It says Israel has shown “no boundaries” in its military operations in Gaza, “which has resulted in tens of thousands of preventable civilian deaths; and... the deliberate blocking of aid... putting thousands of civilians at risk of starvation and slow death.”

“There is a plausible risk that our governments’ policies are contributing to grave violations of international law, war crimes and even ethnic cleansing or genocide,” it said. ([Tom Bateman, BBC, February 2, 2024](#))

Israel’s coalition of Netanyahu and extremist elements are in safe hands – the Israeli people and US and Western governments **actively** support their genocide.
