"Dissident Voice"

In an explosive and extraordinary analysis, Dr. Anita Baxas, MD, explains the multiple causes for injuries and deaths from covid injections worldwide. An estimated 20 million people died and another 2 billion have been injured (adverse events) worldwide. And this after only 2 ½ years of the coerced fake and deadly covid vaxxes.

Dr. Baxas reasons that spike protein, like any protein foreign to the body, may cause the immune system to build antibodies against it.

This may explain the damage to cells and ultimately the tissues they form, such as the inner lining of blood vessels, heart muscle, kidneys, ovaries, testes and basically any organ that displays the spike protein.

It may also explain inflammation, myocarditis, vascular complications such as heart attacks, strokes, brain fog, pulmonary embolism, sudden loss of vision, hearing, limb amputations to erectile dysfunction – and many more diseases, not immediately linked to the covid injections, but to immune deficiencies caused by the injections.

Ultimately, it may explain auto-immune disease symptoms and a heightened immune response, eventually depleting the immune system, leading to immune deficiency.

See Dr. Baxas's full report below.

*

The NYT Covid Tracker estimated in March 2023 that over 5.55 billion people, 72.3% of the world population, have been injected at least twice by the vaxx poison. See [this](#).

According to Michael Yeadon, former Pfizer VP and Chief of Research, the real death toll will manifest itself three to ten years after the covid injections and “boosters”. In addition to the direct vaxx effect, each mRNA spike-protein “follow-up” injection will also disturb and diminish people’s immune system and consequently lead to many deaths from various causes.

On several occasions, Dr. Yeadon expressed his concern that people should at all cost abstain from covid injections, or at least avoid “booster” shots. See [this](#) and [this](#) and [this](#).

Become Aware

It is never too late to become aware and proactive against a killer-system that wants to drastically reduce humanity, convert survivors to robotized transhumans subjected to artificial intelligence (AI) – and full digitization to the world’s locked-in matrix.

We MUST under no circumstances allow the WEF, WHO, and the United Nations to push through the planned 94-point revision of the International Health Regulations (IHR) which includes the Pandemic Treaty, giving the UN and WHO the authority to decide on health regulations over and above national sovereignty of the more than 190 member countries.

This would also involve worldwide recognized and recognizable digital vaxx certificates and IDs.

It would transform WHO and the UN into an international health tyranny.

These measures are currently being debated behind closed doors at the UN General Assembly, 19 to 26 September 2023.

Update: Just in: UN General Assembly President Approves Pandemic Declaration – Privacy Experts Warn of ‘Digital Gulag’ (20 September 2023), see [this](#).

If we stand up in unison and solidarity – and in a spirit of PEACE – we can stop this gigantic crime against humanity.

What Causes Death and Disability in the COVID Shots?

Is there something hidden inside to cause the illusion of the “next pandemic”?

By

Dr. Anita Baxas

Experts estimate that 20 million are dead and 2 billion have been injured by the Covid injections¹. The spectrum of symptoms people suffer from after getting the Covid shots is very large. This is an indication that there are several undisclosed ingredients in the shots that alone or in combination with each other can cause this wide variety of health problems.

Researchers on five continents have been examining the vials and blood of the injected. So far the following culprits of death and disability have been discovered, though not all their effects are completely known yet.² At the bottom of the article you will find a table listing the affected organ systems and the symptoms/diseases that affect them as well as the ingredient(s) most likely causing the problems.

mRNA (modified RNA, NOT messenger RNA)

Not all the examined vials contained mRNA, but we must assume that the majority do. It's transported through the cell membranes into the cell and as researchers in Sweden³ found also into the nucleus where it can be inserted into the DNA via an enzyme called reverse transcriptase. It's supposedly coded to force the cell to make spike proteins which are then expressed on the outside of the cell's membrane. There it attracts antibodies that ultimately destroy not only the spike protein but also the cell presenting it.

Spike protein is said to be the outer shell of the virus. As there is no proof that viruses exist, the question arises as to what the mRNA is coded for. mRNA and DNA basically are blueprints for cells to produce amino acid chains. Two or more short amino acid chains make up peptides and several peptides make up proteins. Any protein foreign to the body will cause the immune system to build antibodies against it. What protein the mRNA in the shots code for remains an open question.

This can explain the damage to cells and ultimately the tissues/organs they form such as the inner lining of blood vessels, heart muscle, kidneys, ovaries, testes and basically any organ that displays the spike protein. It can explain inflammation, myocarditis, vascular complications such as heart attacks, strokes, brain fog, pulmonary embolism, sudden loss of vision, hearing, limb amputations to erectile dysfunction. It can also explain auto-immune disease symptoms and a heightened immune response ultimately depleting the immune system leading to immune deficiency.

Lipid Nano Particle LNP aka Hydrogel ⁴⁻⁹

This is supposedly only a harmless transport vehicle to get the mRNA into the cell. Patents discovered by Karen Kingston though show that they are much more than that. They can build "things" and be directed by outside stimuli like temperature, electric and magnetic fields, possibly by signals sent via 5G (?). They can serve as sensor platforms and transmitters. They could be the origin of fibrous clots pulled out by coroners and embalmers. Dr. Ana Maria Mihalcea MD, PhD as well as Dr. Shelton in Australia, Dr. Nixon in New Zealand, La Quinta Columna researchers in Spain, Shimon Yanowitz in Israel and others have photographed structures that look like computer chips that are assembled under the influence of EMF.

These hydrogels could be responsible for clotting symptoms as they are suspected of

forming fibrous clots (not blood clots). These include the same as symptoms as caused by spike proteins. They may be responsible for the spiritual decline and personality changes as well as neurological symptoms like seizures.

Fetal Tissue

Admittedly human fetal tissue was used to create the shots. Dr. Robert Young said that this is used to drive or direct the LNP with the mRNA to particular tissues in the body. From my medical background doing fetal cell therapy (using animal fetal cell tissue -NEVER human) to treat a variety of so-called incurable diseases I have seen studies done in the early 50s to 70s proving that fetal cells will migrate to the tissue of their origin. Thus, when we injected fetal calf liver cells intramuscularly, these cells would migrate to the liver to heal the organ in the patient. Consequently the “vaccine” manufacturers are using fetal tissue as a driver to direct the LNPs loaded with mRNA and probably Graphene to particular tissues. The shot was never going to stay only in the Deltoid muscle where the injection was placed. They purposely targeted certain organ systems such as ovaries, testes, brain. Fertility of the human race was purposefully targeted as a means of depopulation. A recent analysis by Professor Konstantin Beck at the University of Lucerne, Switzerland of June 6, 2023 clearly shows a reduction of birth rates in Germany and Switzerland by about 10%. This was due to the increase of still births mainly within 9 months of the first “vaccination” campaign. A report from the UK just confirmed an increase in stillbirths as well.

As it's possible that Graphene is also enclosed in the hydrogel, it could be a co-factor in fertility issues. The fetal tissue is the cab driver, the hydrogel is the cab and the mRNA and very possibly Graphene are the passengers.

Graphene Oxide

I have already written about the effects of Graphene in the human body in my first Substack. Here is a short summary of Graphene effects in the body:

Physical Destruction of Cell Membranes: Acts like razor blades, cutting through the cell membranes.

Free Radical Damage: breakdown of cell membrane lipids, DNA breakage & mutation, Chromosomal fragmentation, Protein denaturation, Deformation of Chromosomal end base pairs.

Mitochondrial dysfunction, aging, mutagenesis, carcinogenesis. Reduces antioxidants Glutathione and SOD, increases free radical malonaldehyde.

Inflammation: Elevation of pro inflammatory cytokines IL-6, 12, Tumor Necrosis Factor alpha, Nuclear factor Kappa beta. Activates Immune response with Monocytes, Macrophages, T Helper cells 1+2 and destroys them.

Apoptosis: Triggers mechanisms in the cell to induce cell death, necrosis

Alters Gene expression: Epigenetic effects through DNA hypermethylation or hypomethylation

- Forms large aggregates blocking blood vessels
- Platelet aggregation forming thrombi (blood clots)
- Retards brain tissue development in fetus by decreasing RNA and DNA synthesis

- Retards blood vessel formation in the heart of the fetus, leading to hypoxia
- Leads to abortion and death of the mother in pregnant mice
- Hemolysis (destroyed red blood cells)
- Cytotoxic to T Lymphocytes (toxic to the immune cells called T Lymphocytes)
- Decreases Cell adhesion, changes cell morphology leading to cell degradation
- Decreases gene expression responsible for structure and function of cell membranes, regulation of cytoskeleton, endocytosis and focal adhesion. Cell function becomes dysregulated.
- Colon Cancer cell viability improves with Graphene Oxide!
- Affects locomotor activity, balance, neuromuscular coordination
- Electrostatic interactions with Red blood cells (Rouleau formation, aggregation)

Researchers in China¹⁰ studied the effects of Graphene in the body. Basically it can go everywhere, pass the Blood Brain barrier, Placental barrier, Lung and Testis barriers. Depending on the method of administration (oral, intravenous, subcutaneous, intratracheal (into the windpipe), intraperitoneal- into the abdomen), it can be found in lung, liver, spleen, bone marrow, blood vessels. It penetrates cell membranes, the nucleus and mitochondria. Larger particles can get stuck in blood vessels. It breaks down cell membranes, breaks DNA strands, mutates DNA, fragments chromosomes and destroys proteins. It causes mitochondria to malfunction curbing cellular energy production. It causes aging and cancer. It causes massive inflammation and increases the inflammatory cytokines Interleukin 6, 12, Tumor Necrosis Factor and Nuclear Factor Kappa Beta. It activates immune cells and destroys them. It triggers cell necrosis and cell death leading to organ failure.

Graphene can be responsible for a collapsing immune system, inflammation, multi organ damage including blood vessels leading to blood clots and thrombocytopenia (lack of blood platelets due to excessive bleeding using up the platelets faster than they can be made leading to more excessive bleeding). Many neurological symptoms can be caused not only by reduced blood flow to the central nervous system due to spike proteins and hydrogels but also by direct damage to nervous tissue by Graphene. These include paralysis (including Bell's palsy), Parkinson's symptoms, MS, Guillain Barré symptoms, uncontrollable limb movements and other neurological symptoms. Graphene will also be responsible for fetal malformation and still births as well as infertility. The collapsing immune system as well as damage to DNA could explain the massive increase in cancers seen in the injected population. Mitochondrial damage explains chronic fatigue and brain fog.

Graphene used to carry payloads which can be released by remote activation via mobile phones- is this the next "pandemic"?

A new article was just published in Science Direct¹¹ explaining how Graphene Oxide can be used to transport payloads such as a pharmaceutical (and maybe a potent toxin, bio weapon, warfare chemical?) and then triggered to release the payload remotely via a mobile phone. Graphene was not only injected with the fake vaccine but was also found on masks and nasal swabs. The implications of this are frightening. Suspicion is circulating that the next "pandemic" will be Marburg or Ebola virus. Since there is no proof that viruses exist (see my last Substack article), let's look at what toxins could elicit symptoms that could be attributed to these two viruses. The most prominent symptoms of Marburg "infection" are fever, myalgia (muscle aches), headaches, nausea, vomiting, pain, diarrhea, cough, chest pain, sore throat, jaundice, swollen lymph glands, delirium, stupor, coma, bleeding, rash, multiple organ failure. Most of these symptoms correlate with the body trying to detox

something.

Snake venom from crotalid and viperid snakes can cause diffuse bleeding of skin and internal organs¹². Blood thinners such as Warfarin which is also used in rat poison cause disseminated bleeding. Endotoxins from gram negative bacteria such as E. Coli, Pseudomonas, Klebsiella, Salmonella and others can cause generalized intravascular coagulation (blood clotting inside of blood vessels) leading to a rapid decline of blood clotting factors and platelets which then causes generalized bleeding. There may exist poisons that are not known about except in top secret labs that could cause Marburg and Ebola symptoms.

Then there are electromagnetic frequencies that can inhibit blood coagulation leading to increased bleeding. This has been studied in 2001 in Poland¹³ and in 2022 in the country of Georgia¹⁴. We also know that EMFs can elicit flu like symptoms which mostly are a detox reaction as detailed in the last Substack article.

It's important not to take any information by government as truth in case the next pandemic is rolled out with symptoms attributed to viruses such as Ebola and Marburg.

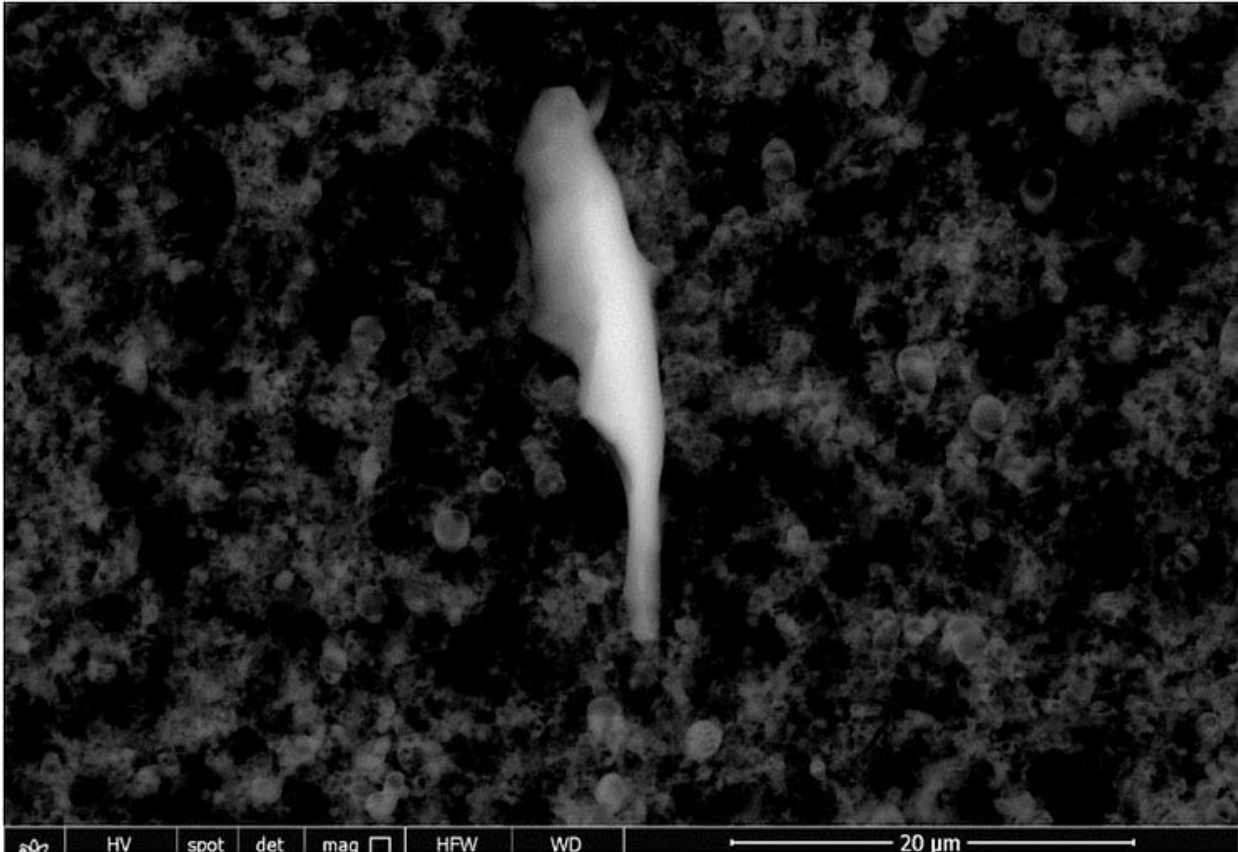

Toxic Metals

These are found in most vaccines. Many are neurotoxins causing neurological issues, but they also interfere with normal cellular metabolism. Besides causing neurological issues they can also interfere with the heart's electrical system causing palpitations.

Aluminum, Antimony, Barium, Titanium, Cesium and Thulium have been found in vials so far.

A Parasite Here and There

Dr. Robert Young found a parasite in one of the vials called Trypanosoma Cruzi.

Dr. Robert Young found *Trypanosoma Cruzi* in a Pfizer vial under his microscope. *Trypanosoma Brucei* was also found which causes sleeping sickness. *T. Brucei* is one of the few pathogens known to cross the blood-brain barrier.

Trypanosoma Cruzi is the cause of Chagas Disease:

Acute infection is followed by a latent period which may remain asymptomatic or progress to chronic disease. Infection during pregnancy results in stillbirth or abortion or chronic neonatal disease. Acute Chagas disease is fatal. Death results from acute myocarditis with heart failure or meningo-encephalitis. Chronic disease has cardiac and GI effects with chronic cardiomyopathy with heart failure, syncope, sudden death, thromboembolism. In the GI tract it can cause enlargement of the esophagus causing dysphagia and mega colon with difficulty passing stool.

Trypanosoma Brucei causes African Sleeping Sickness:

Causes intermittent fever, headaches, rigors, circular red rash, swollen lymph nodes. Inability to concentrate personality changes (lassitude, indifference), daytime somnolence, tremor, ataxia, over eating, terminal coma.

Entries in the VAERS system corroborate Dr. Young's findings. One of them tells of a woman who donates blood regularly and whose blood tested positive for the *Trypanosoma cruzi* parasite after her second vaccination.

So far these are the only reports and findings on parasites. More research is needed.

An Italian Research Team examined 1006 blood samples. 12 Samples were taken from patients before and after vaccination. 94.23 % had abnormal blood!¹⁵

I personally suspect there are other as of yet undiscovered ingredients in the shots as mRNA

and Graphene can't completely explain the skin conditions found in the injected patients. They are also not a complete explanation for some of the spiritual problems encountered by many energy healers such as torn up, thin aura, dark energies surrounding their clients and many more issues (see the post about [Spiritual Implications of the Fake Covid Vaccines](#))

Natural Treatment Possibilities

There are natural treatments that can alleviate, even heal many of the issues caused by the shots. The main problem is that integrative/alternative physicians, nurse practitioners and physician assistants are usually in small private practice and don't have the resources to do studies. They are all scrambling to find the best treatment options for their patients and many are afraid to share them publicly for fear of losing their license to practice. I had a conversation with an integrative physician about his experience. You can read it [here](#).

I will be speaking with more colleagues and posting their treatment approaches and experiences in future articles.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. –Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
