## My Take...

Why would someone pay to create a fake obituary on an obscure website in India or Vietnam, claiming a person in the US who “died suddenly” (usually at home or in a hospital), died from a car accident?

Interestingly, these fake websites (most of them originating in India or Vietnam) are being used by mRNA pushing doctors, to attack those who are trying to shed light on the dramatic increase in sudden deaths.

Even though doctors who forced COVID-19 mRNA vaccines on their patients (knowing the jabs would most likely injure, disable or kill them) are some of the most evil people in the world today, I don't believe they're creating these fake obituaries themselves.

This has the look and feel of a governmental agency operation, or a big pharma sponsored operation to “poison the well” of sudden death reporting.

Many people have extremely short attention spans and a 30 second google search that yields “car accident” as an explanation for a tragic sudden death, is more than enough to put the minds of the 6x-vaccinated at ease.

Never underestimate the lengths that big pharma and their bribed doctors, bureaucrats, politicians and media will go to, to keep the mRNA Vaccine fraud going a little longer.

And yes, that includes commissioning and paying for fake obituaries on prominent sudden deaths where there was a high probability of COVID-19 mRNA Vaccine involvement, and labeling them all as “car accidents”, to discourage their reporting.

## The Worldwide Corona Crisis, Global Coup d’Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. -Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden "plandemic"; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test - which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig*

*Professor Chossudovsky exposes the truth that "there is no causal relationship between the virus and economic variables." In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. -David Skripac*

*A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin*
