In the Horn of Africa every 48 seconds a child dies from the consequences of famine, Oxfam reports. The worst famine in decades, allegedly caused by drought-ravaged Kenya, Ethiopia and Somalia, further stressed by the war in Ukraine... See [this](#).

When a child dies from hunger it is particularly sad. Children are the most vulnerable category of humanity. Famine is not the result of a worldwide food shortage. But famine has to do with food hoarding for speculation, with a lack of well- and equalitarian food distribution system. There is no lack of food per se in the world. According to FAO, with current technologies we are able to produce sufficient food for 12 billion people.

The “post-covid” (really?) Ukraine-Russia war period, is generating a wanton food crisis – leading to a cruel, but well planned, hunger catastrophe. The first victims are usually the poverty-stricken populations, but this time its planned not to stop at the borders of “developed” countries in the Global North.

The cause is not just drought, it’s the consequence of poverty and mass unemployment triggered by the Covid-19 lockdown measures initiated Worldwide in March 2020, not to mention the string of bankruptcies affecting agriculture, food production and distribution.

Is it part of the unspoken “depopulation agenda” under the auspices of the **Great Reset**, of UN Agenda 2030, of Klaus Schwab’s 4th Industrial Revolution, all inter-changeable programs with the same objectives?

Even a drought of such severity is suspicious.

Weather Modification Technologies

Remember the **High-frequency Active Auroral Research Program (HAARP)** developed in the 1990s, which was initiated in Alaska, as an ionospheric research program, jointly funded by the U.S. Air Force, the U.S. Pentagon and US Secret Services.

HAARP, Gakona Alaska, 1990s

Earlier weather modification technologies were applied in the 1960s, during the US-war against Vietnam, when extreme Monsoons were “created” (through cloud seeding), so as to impede the transit of the communist *Vietcong* soldiers and mercenaries from North-Vietnam to the South, through the jungles of Vietnam.

Owning the Weather

Since the 1990s, HAARP has become highly sophisticated and is suspected (without firm evidence) of being responsible for [several world-wide occurring extreme weather phenomena](#):

Weather-modification, according to the [US Air Force document AF 2025 Final Report](#), ‘offers the war fighter a wide range of possible options to defeat or coerce an adversary’, capabilities, it says, extend to the triggering of floods, hurricanes, droughts and earthquakes:

‘Weather modification will become a part of domestic and international security and could be done unilaterally... It could have offensive and defensive applications and even be used for deterrence purposes. The ability to generate precipitation, fog and storms on earth or to modify space weather... and the production of artificial weather all are a part of an integrated set of [military] technologies.’

Creating famine in any way possible, through modified weather patterns, or wantonly deficient food distribution systems, or food retention by other politically influenced means, is a crime against humanity, a crime of biblical proportion, for which apparently, so far,

nobody has been held accountable.

Western populations – predominantly Europe and the US – are being warned, repeatedly, that they will be hit by devastating food shortages, as well as a huge, unheard-of in the west, accompanying inflation. See [this](#).

What we are witnessing is one of the most inhumane, cruel ways of killing people, by famine.

The rich will survive, they will also get their food. The poor and middle segments of society may suffer the most. Many will die.

WEF advisor, Yuval Noah Hariri, calls them “useless eaters”. Lack of food will create riots, for sure, and the riots itself – all planned, foreseen, counted with and funded by “philanthropic” oligarchs – create more havoc and death, interrupting the remaining food chains.

That’s not all. Food shortages will also affect the Middle East and North African countries that are already in conflict, some in war-like situations. They may cut off or reduce Middle-Eastern hydrocarbon production, with all the consequences of spiraling oil-related shortages. Refugees from these lands will migrate to Europe, where they hope to find a better life, food, and shelter. The refugee influx in Europe will exacerbate the food and everything-shortages by a multiple.

Groomed Proxy Politicians, Acting on Behalf of Powerful Financial Interests

But all of that is known and planned that way, by the very “leaders” (sic) of Europe and the west in general – many of them scholars of Klaus Schwab’s Academy for “Young Global Leaders” (YGL).

For a full list of such proxy politicians, who were taught to apply tyrannical measures on the very people who allegedly elected them, who pay for them, who still live under the illusion that their leaders serve them, want the best for their people, in whom they trust – see [this](#). In the words of Klaus Schwab:

I have to say then I mention names like Mrs Merkel, even Vladimir Putin and so on they all have been Young Global Leaders of The World Economic Forum. But what we are really proud of now with the young generation like Prime Minister Trudeau, President of Argentina and so on, is that we penetrate the cabinets... It is true in Argentina and it is true in France now... ([Klaus Schwab](#))

Famine is the Name of Game

Famine will be the name of the game, accompanied by a collapsed western economy, joblessness, freezing cold winters, due to lack of heating oil / energy, homelessness. As the debt burden increases, so does dispossession of shelter.

The banks and oligarchs get richer – exactly the script of the 4th Industrial Revolution, and the *useless eaters* are driven into mass poverty.

**"Control oil
and you control
nations;
control food
and you control
the people."**

– Henry Kissinger

The construct, the plan, the UN Agenda 2030, the Great Reset, are inter-changeable. They become increasingly visible – and people, who are not (yet) reacting, may be doomed.

Death by famine, follows death by vaccine, and embraces death by despair.

People have no clue of what's going on behind the scenes – what really causes famine and why – it's a wanton population reduction scheme, à la Bill Gates, the Rockefellers,

Kissinger... and more.

These are just the most blatant perpetrators. Killing people, mostly children, the weakest link of society, is just about the worst crime that humanity can commit.

Mainstream media does not inform us. They are paid to keep silent, or worse, to trick us into believing it's our fault either because we do not decry loud enough the Russian aggression on Ukraine, the timing of which is no coincidence.

The war in Ukraine also decimates harvests, and oil and gas production, which, in turn, reduces fertilizer production, and by extension, what is produced cannot be shipped, because of delivery disruptions, due to covid, bankruptcies, labor fallouts, because we didn't vaccinate enough, to keep the "social and industrial machinery oiled to function", and so on. A perpetual spiral to misery.

The Pandemic Treaty, the QR Code. Towards Digital Tyranny

Hence, we are supposed to be inclined voluntarily to submit to the soon-to-come vaccine mandates; and that, before its possibly military enforced through the "coming" WHO-designed and managed worldwide "Pandemic Treaty", whose flagship is the multi-purpose international vaccine certificate, via QR-coded electronic data collection and full and absolute surveillance, leading many scared and desperate victims of the 24/7 propaganda to the 4th, 5th, 6th and so on boosters, until death does us part from this wonderful world of the Great Reset.

Famine is already ongoing in Africa, India and parts of Latin America. Will the famine disaster hit the Western "Developed Countries", later in the fall, as predicted by some analysts?

All has to do with the western insane, suicidal act of sanctioning Russia for her aggression on Ukraine. So, say many pundits, analysts and free-thinkers. Do they truly believe that the west, especially Europe, doesn't know what they are doing by sanctioning Russia?

They know exactly that Russia, Ukraine, Belarus and Kazakhstan together account for about 30 to 40 of the world's food supply, mostly grains.

They know that much of the grain may not be produced, as a result of the war.

What is produced and supposed to be shipped to the world's market places, may be stranded, due to lack of labor, transport, fuel, it's a self-perpetuating spiral of disruptions and shortages, that will impact vital food supplies – and cause famine.

For self-protection and to guarantee least damage to her food supply, India, also an important wheat and grain producer, has just banned all wheat exports, mostly to keep local

prices down and to secure as much food as possible for her local population – some 1.4 billion people. See this [India prohibited all exports of wheat on Friday in an attempt to reduce local prices.](#)

Also, no coincidence – fires destroy food manufacturing plants, storage and transport facilities throughout the western and mid-western United States. See the video below. A further planned contribution to food shortages.

The Bird Flu H5N1 Outbreak

A new kind of Bird Flu H5N1 – lab-made, indeed, is already making sure that for our, human protection tens of millions of poultry are already being euthanized.

Perhaps hundreds of millions more around the globe may follow the same fate. For your health protection, of course. Unfortunately, this health protection move will eliminate vital sources of protein, especially for the common people. But, so what, as Yuval Noah Harari would say – it may help neutralizing some of the “useless eaters”.

All this results in food shortages, leading to famine and misery. But no worries, Bill Gates and his artificial meat production scheme will soon come to rescue. We then may have an abundance of Monsanto produced GMO plant food and Bill Gates sponsored artificial meat production. *Bon appetit!*

Nothing is “bad-management” or unwise decision-making. Nothing is coincidence. No, it’s all been planned that way for years, decades. The ongoing phase, total destruction of the western economy, is only a stepping stone to the larger objectives, total control of the world economy shifted from the bottom and the middle to the top – massive population reduction, and the ringing in of the Fourth Industrial Revolution (FIR).

But they will not win.

Mind you FIR has little to do with “industrial”, and even less with “revolution”, but it has all to do with transforming the remaining world population into a herd of gnomes, computer and robot- manipulated slaves, or **transhumans**, as per Yuval Noah Harari, Darwinist, author of “Sapiens” and “Homo Deus”.

Harari is also the closest personal advisor of Klaus Schwab – WEF creator, eternal WEF CEO (acting on behalf powerful financial interests), and continued Mastermind of eradicating nation states’ sovereignties and creating an artificial world, a One World Order (OWO), under a One World Government (OWG), the most anti-nature and anti-social proposal imaginable.

This will never happen. The collective human mind is strong and in solidarity capable of over-coming all evil attempts to control us. We must abandon the illusion to have national governments serving the people. We must escape from this Cognitive Dissonance.

We must wake up and come to senses and to grips with reality. If we do, we are safe. We will be able to resist this soul- and heartless cult of dark and sick people, and we shall resist their criminal machinations.

People, compatriots of Mother Earth, wake up!

Open your eyes to what this Elite Financial Cabal has in store for us.

They are at the beginning of their agenda – UN Agenda 2030 – The Great Reset – the 4th Industrial Revolution – different names for the same killing game.

We must take over the next eight years, acting in solidarity, converting this sinister economic and social agenda into broad grassroots process for humanity.

In the next eight years, we must put a term of what is tantamount to genocide, namely an all-controlling, totalitarian world governance – the digital tyranny – the transformation of humans to transhumans and mind-manipulation through an sophisticated brain control scheme that will give us a robotized smile since **we own nothing but are happy**.

We must stop it.

And we will.

We have the Human Power.

We are the Spirit of Light.

They are the darkness.

We aspire for Community, Peace and Love.

We shall overcome!!!
