This is tragic story out of Michigan that was disclosed by [Kathryn Kendall](#). She lost both her father and her sister within four days of one another, and they were vaccinated with different brands of covid vaccines.

John Robert Kendall Jr. had his second Moderna vaccine in April, and within days he had a heart attack and passed away. He died on April 28, 2021.

John spent time as a U.S. Marshall, and has a lengthy resume in public service. John was also the cofounder of DK security, and is said to have been a phenomenal leader.

Kathryn Anne Kendall | 2020-2021

10 hrs

My dad had his second dose of the moderna shot and within days, died of a heart attack (April 28.) Prior to the shot he had a physical and was given a clean bill of health. After digging deeper about the Moderna shot, heart complications, heart attacks specifically is what I found to be the most highly correlated. Yet everybody thinks I'm crazy for questioning if his death was related to the jab.

My sister had the Johnson and Johnson shot also in late April, had the "flu like" symptoms that night, but never got better. She was in ICU within days of the shot, then ventilator, and died May 2. Four days after my dad. She was 49, no health problems, 4 kids, they claimed she had "covid pneumonia." But after digging deep and researching Johnson and Johnson, severe lung damage, lung complications, symptoms exactly what my sister experienced and specifically with her age, is what i found to be one of the most highly correlated. Yet everybody thinks I'm crazy, for questioning if her death was related to the jab.

I'm sharing this information, hoping it is helpful for others, as we all try to understand how this shot has impacted our families.

Kimberly St. Charles, John's daughter, got her vaccine towards the end of April. She chose the Johnson & Johnson viral vector covid injection. Unfortunately Kimberly began showing reaction symptoms the same day she took the vaccine. She ended up in ICU within days of her shot, and never recovered. She was only 49 with no known health problems and a mother of four children.

HIS DAUGHTER KIM
HAD J&J. SHE DIED
4 DAYS AFTER HIM.

REST IN PEACE

Many are grateful and applaud Kathryn Kendall's courage in speaking out so others are made aware of such tragic outcomes. Our thoughts will be with Robert & Kim's friends and family as they mourn the loss of such remarkable people.

If you or a loved one have/has had an adverse reaction due to these experimental EUA covid injections, please [contact me](#). We need more courageous people like Kathryn speaking up.

Your silence is consent.
