Oct. 10, 2022 – Los Angeles, CA – 26 year old Abraham Popalzai, a flight attendant, was diagnosed with Stage 4 colon/liver cancer after having severe symptoms at work.

Help Raise Hope for Abraham

\$12,215 USD raised of \$50,000 goal • 151 donations

Kristin Steckler is organizing this fundraiser on behalf of Abraham Popalzai.

- "I didn't know 25 days ago that my life was about to change; you have no idea what I have been through"...were the exact words that one of the closest people to me in the entire world said over the phone when he called on **October 10, 2022, @ 4:23 pm. My dear friend and colleague Abraham Popalzai, at age 26, just got diagnosed with stage 4 colon/liver cancer. He is a flight attendant & was working hard flying the friendly skies** and serving others despite his terrible stomach cramps and surmounting symptoms. After his last assigned work trip, he was on his way back to his base (LAX) but first landed in Houston & he decided to go to the clinic at the Houston airport, but there wasn't much they could do for him. With his determination to find answers and advocate for his health, as soon as he got back to base he visited the LAC+USC (government hospital) because he didn't have insurance at the time. While Abraham was there he was sent home 4 times. The 1st time they told him he was just constipated, the 2nd time they

Sep. 3, 2023 - 52 year old Donald Smith, flight attendant for Alaska Airlines, died unexpectedly while hiking with his family (cardiac arrest).

Greg Peterson · September 8 at 7:25 AM · 🌐

Message from Inflight:

In Memory of Donny Smith

34 Year Flight Attendant Donny Smith Passed away on September 3, 2023.

With a very heavy heart and the deepest sadness we announce the sudden passing of one of our beloved co-workers. [He was hiking with his family when he passed away.](#)

Donny was an amazing guy who loved his family and Alaska Airlines, where he started at age 18. He exemplified our Alaska values and always tried to bring joy and laughter to those that he interacted with.

Aug. 26, 2023 - Houston, TX - 44 year old Meredith Tabing Smith, flight attendant with Southwest Airlines, died after battling Leukemia (Turbo cancer?).

Meredith Tabing Smith

Support for Meredith Tabing Smith's Memorial Services

Dear family and friends, it is with a heavy heart that we write this post. Our dear Meredith Tabing Smith passed away at the age of 44 in Houston, Texas, on Saturday, August 26, after battling Leukemia.

Meredith was a beloved wife, mother, daughter, colleague, and friend. She married Eddy Smith on October 10, 2020, and together, they raised her 9-year-old daughter, Payton Flores. Meredith joined the Southwest Airlines family in 2005 and loved delivering unrivaled hospitality to customers as a Flight Attendant. Her fun disposition often surfaced as an entertaining jokester. She could easily elicit smiles that were as big as her heart from passengers and crew members. In short, she lived up to the Southwest motto by having "a heart for service."

When not in her Southwest uniform, Meredith dressed impeccably and donned trendy clothing, her favorite turquoise jewelry, and stylish shoes. She was an animal lover and adored her three dogs, Honey, Smoky and Punky. She had a compassionate soul and would often hand veterans a printed message of gratitude and thanks for their service from decommissioned flags.

Aug. 16, 2023 - Shelton, WA - 27 year old Akeylah Mains (daughter of Amanda Mains) is a flight attendant who was diagnosed on August 3, 2023 with Guillain-Barre Syndrome (a rare autoimmune disease associated with COVID-19 vaccines).

A Flight Attendant With Rare Autoimmune Disorder

Please Help my Daughter Akeylah with Hospital Bills as well as to stay current on her everyday bills while she is in the hospital and inpatient recovery for Guillian-Barré Syndrome!

Guillain-Barré Syndrome is an Autoimmune Disease that attacks the body's own nervous system.

She was admitted to the hospital on Aug. 3rd where her symptoms progressed, and while still there, she is waiting for an open spot at an inpatient rehab to continue with a more hands on Physical and Occupational Therapy as well as Speech Therapy.

Akeylah is a 27 year old flight attendant that out of no where felt her life slip out from under her suffering from the debilitating effects of GBS. Which has cause severe muscle weakness, numbness, partial paralysis of her body and full facial paralysis as symptoms. That comes with the inability to walk on her own, feed, bathe or dress herself, which has put a toll on her mental health.

While Guillain Barré Syndrome doesn't have a cure, there is a chance Akeylah will gain back her strength and have the symptoms lesson so she will able to live a full life and return to her career as a flight attendant!

Aug. 2, 2023 - St.Petersburg, FL - Donna Joan Springer Lowe is a flight attendant who has been diagnosed with two different cancers in the past 2 years, esophageal cancer and ocular melanoma. She also had a cardiac arrest during an esophageal surgery.

William Lowe is organizing this fundraiser.

Hi, my name is Bill and my wife is Donna Joan Springer Lowe. We've been married 12 years. My wife is an amazing and strong woman. She's a tough girl! She's one that everyone loves. She's kind, joyful and caring. Always tending to everyone else while she continues to manage her own medical issues. In 2017 she had to have her stomach removed because of ulcers that embedded in her stomach with esophageal repair. At which time she was DX with Barrett's esophagus St 3. With treatment and f/u endoscopies she was DX with Esophageal CA in 2021. In March of 2022 I almost lost her during surgery to a late and repair her esophagus. She coded on the table and was put on life support. Thankfully she recovered. She received 6 months of infusions and was declared cancer free in February of 2023. In recent months her vision has been changing and went to eye Dr and was told she had 45-50% cataract coverage in both eyes. Went to the specialist and the cataracts are now up to 70%. On top of this she has an ocular melanoma in her left eye.

Because of her past illnesses **she's had to reluctantly resign from her job as a flight attendant** and has lost her health insurance. Because I'm a disabled veteran she has

July 14, 2023 - Vancouver, WA - 47 year old Teresa Marie Meyer died suddenly and unexpectedly in her sleep on July 14, 2023. She was a former flight attendant who worked at Amazon. Her 14 yo son found her dead.

June 21, 2023 – American Airlines Flight Attendant Carol Wright collapsed in-flight (VCE-PHL) shortly after take-off on June 21, 2023. Her colleagues performed CPR as pilots diverted to Dublin. She was taken to hospital upon landing but died. She was with American Airlines 38 years.

Remembering PHL Flight Attendant Carol Wright

June 21, 2023

All flight attendants

It is with great sadness that we share the sudden passing of PHL-based Flight Attendant and Purser Carol Wright while working a flight this morning.

Carol began her career with American Airlines 38 years ago, and she loved her profession and the many friendships she created. She is remembered as a pleasure to support and a joy to work alongside.

Any unexpected loss is extremely difficult, but please know that we are taking care of the colleagues who were flying with Carol. We are also in contact with Carol's family and will provide for their needs and any help they require as we assist with bringing her home.

Please keep Carol's family, friends and colleagues in your thoughts.

June 21, 2023 – Ogden, UT – Kendra Prince is a flight attendant. At 33 weeks pregnancy her baby suddenly stopped kicking after an uneventful pregnancy and 24 hours later baby's heart was not beating and was stillborn.

My family NEEDS help! Series of tragic events.

John Prince is organizing this fundraiser.

Meet me and my family, John, Kendra (wife), Kylie (daughter), Max (son). These past three years has been the most defeating and depressing time of our lives.

This past February I lost my job unexpectedly, my position was eliminated. This was a shocker as I was told I was doing everything right and there were no issues. Because of this, we had to move in with my father-in-law, along with the fact that **my wife was 28 weeks pregnant and we couldn't afford rent anymore. My wife is a flight attendant** and had to start working less due to being pregnant. Moving in with my father in law would help us save on rent and groceries and bills and we thought that I could find another job right away and we would be able to save money and move into a house by 2024.

The most devastating thing happened to us on **March 31. My wife was 33 weeks pregnant and we went into to get a checkup because we hadn't felt baby Leah kick in 24 hours. After 3 doctors came in and looked and x-ray's, our lives came crashing down. Baby Leah's heart wasn't beating and was pronounced dead. My wife had to give birth to a still born baby that night.** *there is a GoFundMe that was setup for us for this which helped pay for some of the medical bills and we are amazed and the support shown.

It has been four months, I have applied to over 350 jobs and my unemployment income has run out. My wife is in a very bad mental state where she is depressed and cannot go back to work. A few weeks ago, I took a lawn care job (50% pay cut) because we just need any income coming in. I have had only a few interviews for jobs and nothing has come from it. I have expanded my search and have been willing to move a hundred miles and even take a pay cut, but nothing.

June 3, 2023 - Parma, OH - 61 yo Michael Jones was a United Airlines flight attendant who died on June 3, 2023 from turbo gallbladder cancer he battled for 3 months.

Marc Snyder is 😞 feeling devastated.

June 4 at 2:56 PM · 🌐

❤️ It's hard to find the words or strength to announce that my best friend for over 35 years passed away at 12:05 AM today, at his home, surrounded by myself and his Family. Just a few short months ago Michael complained of stomach and side pain which led him to have his gallbladder removed in March. Doctors found a rare and very aggressive cancer which took him from us fast and far too soon. There are no words so describe the loss and void he leaves in our hearts. ❤️

Final arr... See more

May 22, 2023 – Austin, TX – Amber York is a flight attendant. She was diagnosed with breast cancer in 2020 but had beaten it and was cancer free. Her cancer has just returned as a brain metastasis, Triple negative breast cancer.

Amber York’s Cancer Medical Fund by Mary Fitch

Hi, My name is Mary Fitch and I’m fundraising for my friend Amber York. We recently met at Inflight school & graduated as New Flight Attendants! ➔ We became fast friends and even flew together on our First Initial Operating Experience and a few other flights our first few weeks.

Last week, my friend Amber suffered extremely painful migraines which caused her to go to the ER. Less than 24 hours later she was told she had a massive tumor in her frontal lobe and would need surgery the next morning. Her bone scan was clear but two spots also showed in her chest. Amber’s husband Jason, informed me that the brain surgery went well and that the doctors were pleased with the outcome of removing the tumor, they think they got the entire tumor but she will need to undergo Radiation therapy.

Our hearts & prayers go out to Amber and her husband Jason and their two kids Kaleb and Autumn. Amber was first diagnosed with breast cancer in 2020 at the age of 40. And had been off chemo for 2 years with no signs of cancer. Devastatingly the cancer has returned as Metastatic Breast Cancer Triple Negative disease.

Please consider helping in anyway you can a little or a-lot to help alleviate the stress of the many medical bills Amber’s family are being faced with.

Please SHARE this fundraiser with fellow Flight Attendants, your friends, your family and

Dec. 21, 2022 – Air Albania flight attendant Greta Dyrmishi, age 24, died suddenly in-flight after plane landed in the UK (Dec.21, 2022). A post-mortem found that the 24-year-old had died from sudden adult death syndrome ([SADS](#)).

Dec. 4, 2022 – Germany – 31 year old Michelle Markisch, flight attendant for German leisure airlines Condor, died unexpectedly.

Staff from German leisure airlines Condor were shocked and saddened last month after it was announced cabin crew member and single mother to a young son, Michelle Märkisch, had died unexpectedly at only 31 years of age.

Winnenden, im Dezember 2022

Viel zu früh, plötzlich und unerwartet verstarb meine liebe Mama, unsere geliebte Tochter und Schwester

Michelle Märkisch

geb. Rumpf

28. Sept. 1991 - 4. Dezember 2022

In stiller Trauer
Linus Märkisch
Marion und Richard Rumpf
Philipp und Saskia
sowie alle Angehörigen

Die Beerdigung findet am Freitag, 9. Dezember 2022, um 14 Uhr auf dem Friedhof in Leutenbach statt.

The obituary reads in English: "Way too soon and completely unexpected died my beautiful Mum, our beloved Daughter, and sister." And under the airplane: "Your last flight goes into heaven."

After nearly a decade with the airline, Michelle 's sudden death has left great sadness at the airline, according to her colleagues. The airline made this statement about her passing in an internal memo: "Dear Colleagues, today we have to tell you the sad news that our beloved colleague Michelle Märkisch has died." The statement read. "Michelle started her journey with Condor in 2015 as Part of the cabin crew. On December 4th, she died completely unexpectedly. Our thoughts are with her family and friends. And we wish them nothing but the best during this heartbreaking time."

Nov. 7, 2022 – Daytona Beach, FL – Dorian Boliaux is a flight attendant for United Airlines. in

Sep.2022 she was diagnosed with Multiple Myeloma (blood cancer). She was also diagnosed with AL Primary Amyloidosis!

Dorian's Health Journey

"Team Dor" is organizing this fundraiser on behalf of Dorian Boliaux.

Calling all "Prayer Warriors" and "Giving Hearts" to come together for our dear friend Dorian Boliaux. We've known Dorian for over 33 years since we first began our careers as Flight Attendants for United Airlines. She is an extraordinary person of faith, family, love and true friendship, and God sure knew what He was doing when he brought us together many years ago.

Unfortunately, Dorian's world was turned upside down in September when she was diagnosed with Multiple Myeloma, a blood cancer of the plasma cell. Plasma cells in your bone marrow produce antibodies (proteins) to help make up the immune system. She was also diagnosed with AL Amyloidosis, a rare disease found in the bone marrow, causing proteins called amyloids to build up in the organs and tissues throughout the body,

Sep. 22, 2022 - Dover, OH - Amanda Sharp is a flight attendant for Republic airways. She was diagnosed with breast cancer which was operated, but had spread rapidly to her lymph nodes, which was discovered only after.

Jamboree for the Tatas! Benefit for Mandy Sharp

Kristine Pyle-Singree is organizing this fundraiser on behalf of Amanda Sharp.

On September 22nd, 2022, Mandy was diagnosed with breast cancer. She underwent a lumpectomy and reconstructive surgery in early November, which is when they discovered the cancer had spread to her lymph nodes. She began chemotherapy on January 3rd which will last 4 months followed by 6 weeks of radiation. **She is currently on medical leave from her job as a flight attendant for Republic Airways.** Mandy is the sole care taker of her 13 year old son, Alex, and wants life to be as normal as possible for him.

Join Mandy's army and show her she is not alone in this fight!

Food trucks and entertainment to be announced. A portion of the proceeds will go back to the Logan County Cancer Society.

Aug. 26, 2022 - Dallas, TX - 48 year old Gilroy Sanchez Gonzales, a flight attendant for American Airlines and an ICU nurse, died suddenly on Aug. 26, 2022.

Gilroy Sanchez Gonzales

February 13, 1974 – August 26, 2022

Obituary

Gilroy Sanchez Gonzales, age forty-eight, died in Dallas, Texas, on August 26, 2022. Born on February 13, 1974, in Las Cruces, New Mexico, he was raised in Dallas, Texas, by his parents, Velma Sue and Gilbert R. Gonzales. As a flight attendant and later a critical care ICU nurse and manager, he lived in many cities across the country, including Dallas, Texas; New York City, New York; Saint Louis, Missouri; Chicago, Illinois; and Seattle, Washington.

My Take...

More tragic injuries and deaths in another COVID-19 vaccine mandated profession.

Pilot COVID-19 vaccine injuries and deaths get a tremendous amount of attention, however flight attendants were mandated to take COVID-19 vaccines as well, and they are suffering.

COVID-19 vaccine mandates have decimated a number of professions, most notably doctors, nurses, other healthcare workers, teachers, police officers, firefighters, the military, pilots and more.

What is particularly alarming in this group are the turbo cancers.

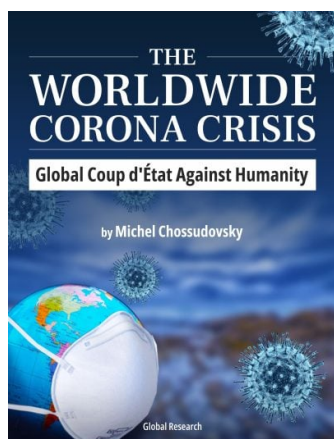

- 26 year old man with Stage 4 Colon/liver cancer
- Young woman with 2 cancers (esophageal, ocular melanoma)
- Young woman's breast cancer returns as a brain metastasis triple negative
- Woman diagnosed with multiple myeloma AND AL primary amyloidosis
- 44 yo woman dies of leukemia
- 61 yo man dies of gallbladder cancer after only 3 months
- Young woman has operation for breast cancer but it spreads to lymph nodes before her oncologists can catch it!

One of these is rare. All of these, is unheard of.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
