On the pretext of a respiratory virus
less dangerous than the seasonal flu[1]
they’re requiring a genetic cocktail
be injected into the arms of me and you.
And if you don’t get it, you lose your job,
you lose your means of earning a living.
You can’t go shopping for groceries.
They lie and say you’re spreading disease.

On the pretext of a respiratory virus
less dangerous than the common cold
you damn well better follow their mandates
and do exactly what you’re told—
wear masks indoors, stay six feet apart
because they’ve abolished your brain and your heart.
They lied and told you their so-called “vaccine”
is perfectly safe and would stay in your arm
but it travels throughout your whole body quickly
and causes incalculable harm.
Hundreds of thousands who got the jab
die within a day or a week.
Millions more will deteriorate.
Poor dupes ignored the truth-tellers’ critique.

On the pretext of a respiratory virus
that hasn’t been proven to exist—
and if it does, it isn’t “novel”,
it’s like many others on Fauci’s list—
they’re imposing totalitarian rules
with the full support of the “liberal” fools.
In Australia they’ve got concentration camps

for those who refuse to get the shot.
They've got FEMA camps in America too.
While you were sleeping they built a lot.
In New Zealand—a dictatorship
ruled by an ignorant bitch—
protesters get thrown in jail
or beaten up and tossed in a ditch.
Germany and Italy have fallen.
Canada is almost gone.
Who knows how long this insanity
will last...but we know WHY it's going on:
Depopulation, pauperization,
Government By Regimentation
and endless rounds of vaccination
to cull the "useless eater" mob.
One World Government under Schwab.
You'll get a booster every six months.
They'll monitor your thoughts and your grunts.

This is the New World Order—
a boot stomping endlessly on your face.
And if you continue to let it happen
you are immoral and a disgrace.
Tell every do-nothing politician.
Tell every employer in your workplace:
If you continue to let this happen
you are immoral and a disgrace.

"There is no SARS-CoV-2 epidemic of national scope, thus no pandemic. This is already evident from the lack of excess mortality when corrected for demographics, and from the rather low occupancy of the intensive care units, whose capacities, in addition, have been massively reduced since April 2020." —Dr. Thomas Binder, M.D., ([The Prevailing Corona Nonsense Narrative](#), Debunked in 10 or 26 Minutes.) See [this](#).

Dr. Binder has 32 years experience in diagnosis and treatment of Acute Respiratory Illness and did his thesis in immunology and virology.

Notes

[1] COVID-19 "is not a mass murderer. The most recent realistic estimate of the global IFR [infection fatality rate] is 0.15%, below 0.05% for under 70s. After replacing the number of deceased within 28 days with a positive PCR test on whatever cause by the number of deceased from COVID-19, it is even much lower, well below that of seasonal influenza....SARS-CoV-2...self-evidently occurs seasonally from

November to April and mutates, without human intervention, in such a way that it becomes ever more contagious but less dangerous. Because of existing basic and cross-immunity, only a fraction of the population falls ill. The disease is usually self-limiting and leaves immunity, possibly for life, and better than the best vaccination ever could. It kills comparatively few people and, unlike influenza, no children.
