Never before has it been so important to have independent, honest voices and sources of information. We are – as a society – inundated with a flood of biased information. The mainstream media, concentrated in the hands of a few and owned by large multinational corporations, is filled with inherent bias and constant manipulation. That is why independent media is of critical importance now more than ever.

Telling the truth is not a money making proposition however. We are currently running a monthly financial deficit which only goes to prove this. Please help sustain Global Research, which has come under increasing attack for relaying stories and accounts that counter what governments, major corporations, and the mainstream media are claiming and reporting.

[Global Research Needs Your Support](#)! Help us reverse our monthly deficit and keep independent, honest voices and sources of information online and accessible to all!
