Listen to Professor Inoue's "Message to the World" and try to fathom the crime against humanity he describes.

A Stunning message from Professor Masayasu Inoue, Professor Emeritus of Osaka City University Medical School warning of 'a dangerous, new governmental development' was

delivered from Japan at a World Council for Health conference.

His powerful statement largely confirms the numerous independent studies which describe the mRNA jab as a “Killer Vaccine”:

“Media lies coupled with a systemic and carefully engineered fear campaign have sustained the image of a killer virus which is relentlessly spreading to all major regions of the world.

Several billion people in more than 190 countries have been tested (as well as retested) for COVID-19.

Both sets of figures — morbidity and mortality — are invalid.

These invalid COVID-19 “estimates” have been used to justify confinement, social distancing, wearing of the face mask, the prohibition of social gatherings, cultural and sports events, the closure of economic activity, as well as the enforcement of the mRNA “vaccine” launched in November 2020.

There is no such thing as a “COVID-19 confirmed case”.

The fear campaign is relentlessly spearheaded by political statements and media disinformation. A closer examination of official reports from national health authorities as well as peer-reviewed articles provides a totally different picture.”

Professor Masayasu Inoue, who specialises in Molecular Pathology and Medicine, warns that

“There is high risk that Japan made vaccines will be exported under the guise for false trust.

If Japan were to become a vaccine perpetrator, it would leave irreparable harm to future generations.

Therefore, the actions of the Japanese government MUST BE STOPPED by international collaborations.”

Our thanks to John Leake who brought this **video to our attention:**

Masayasu Inoue is Professor Emeritus of Osaka City University Medical School who specializes in molecular pathology.

Reviewing his publishing resume, I wasn’t surprised to see that he has a longstanding interest in oxidative stress. His paper titled [Mitochondrial Generation of Reactive Oxygen Species and its Role in Aerobic Life](#) presents the following summary:

The present work also describes that a cross-talk of molecular oxygen, nitric oxide (NO) and superoxide radicals regulates the circulation, energy metabolism, apoptosis, and functions as a major defense system against pathogens. Pathophysiological significance of ROS generation by mitochondria in the etiology of aging, cancer and degenerative neuronal diseases is also described.

Lately “the etiology of aging, cancer and degenerative neuronal diseases” has been on my mind a lot, as the young friend of a friend was recently discovered to have advanced, metastatic melanoma of unknown primary site that had spread to her brain. The day after I heard this news, I saw the following article in the *New York Post*: [Cancer rates rising in young people due to ‘accelerated aging,’ according to ‘highly troubling’ new study.](#)

Naturally the “troubling new study” mentions nothing about the genetic shots that have been repeatedly injected into young people for the last three years. (John Leake)

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
