Julian Assange has been forcibly removed from political asylum and has been arrested. He is no longer in the Ecuadorian Embassy and instead is in British police custody. Julian Assange now faces the prospect of extradition to the USA to face 175 years imprisonment for publishing facts delivered to him as a journalist and those facts revealed systemic government corruption and war crimes. These were the exact issues he required protection from and why he accepted Ecuadorian political asylum.

Julian Assange is an Australian Citizen who had been “arbitrarily” detained for over 8 years and more recently had endured over 1 year of torture in the form of continuous solitary confinement. Deprived of sunlight, contact with the outside world and proper healthcare. The United Nations Human Rights Office of the High Commissioner on Feb. 5, 2016 determined that Julian Assange’s arbitrary detention “should be brought to an end”.

Julian Assange is an awarded and respected international journalist who has never incorrectly published any news.

We respectfully request the Prime Minister and/or the Foreign Minister of the Australian Government intervene and ensure Julian Assange’s freedom of safe passage and return to his home Australia or any other location that Julian Assange requests to travel to. We further respectfully request that the Australian Government where influence can be made with friendly nations, that the Australian Government ensure that no extradition order is effected on Julian Assange from the USA that may otherwise impinge on his ongoing freedom of passage and existence.
