In-depth Report: [PALESTINE](#)

In 2020, the [Freedom Flotilla Coalition will sail again](#) to break the illegal and inhuman blockade of Gaza. During this mission we will be focusing on children and youth struggling to survive in the wreckage of Gaza, their beloved home. Canada Boat to Gaza is reaching out to children and youth organizations, and to individuals like you, to help support our work and to bring an end to the suffering in Gaza.

Eight years ago in 2012, the UN declared that Gaza would be uninhabitable by 2020. Over the years, the international community has watched that prediction become truth. Palestinians in Gaza live among bombed out hospitals, schools, and homes. There are water, food and electricity shortages throughout the beleaguered strip making basic survival a serious challenge. The desperate economic situation in Gaza also means that children have to think and act as older than they are, with too many of them [working to help support their families](#).

The most vulnerable of the innocent are children and youth, many of whom have been deliberately targeted by Israeli snipers since the beginning of the Great March of Return, when Palestinians demand their right to return to their homeland from which Israel expelled them. Israeli snipers have murdered at least 256 Palestinians in these peaceful protests, and more than 29,000 have been maimed for life, [many of them children and youth](#). Please watch and share this award-winning short video about one of them, [Dreams in the Crosshairs](#), created by one of our Palestinian partner organizations in Gaza, [We Are Not Numbers](#), with funding from the Freedom Flotilla Coalition.

The world expresses outrage and yet the slaughter and deliberate destruction of Gaza continues with impunity. In November 2019, after a three day Israeli offensive on Gaza, Palestinian Health Minister, Dr. Mai al-Kaila, reported that one-third of the Palestinians killed by Israeli missiles and shells were [women and children](#).

It seems clear that Israel is systematic targeting Gaza's future, its children and youth. Imagine if this was happening in your hometown. Imagine if it was your child who was permanently maimed for peacefully protesting human rights violations. Would the world still be silent? Would you want others to speak up against these attacks?
