Seeds of Destruction

The Hidden Agenda of Genetic Manipulation

by F. William Engdahl

Global Research, 2007 ISBN 978-0-937147-2-2

GLOBAL RESEARCH ONLINE AND MAIL ORDER US\$17.00 plus s and h (includes taxes where applicable) (List Price US\$24.95 plus taxes)

This skillfully researched book focuses on how a small socio-political American elite seeks to establish control over the very basis of human survival: the provision of our daily bread. *"Control the food and you control the people."*

This is no ordinary book about the perils of GMO. Engdahl takes the reader inside the corridors of power, into the backrooms of the science labs, behind closed doors in the corporate boardrooms.

The author cogently reveals a diabolical World of profit-driven political intrigue, government corruption and coercion, where genetic manipulation and the patenting of life forms are used to gain worldwide control over food production. If the book often reads as a crime story, that should come as no surprise. For that is what it is.

Engdahl's carefully argued critique goes far beyond the familiar controversies surrounding the practice of genetic modification as a scientific technique. The book is an eye-opener, a must-read for all those committed to the causes of social justice and World peace.

**[The Globalization of Poverty and the New World Order](#)
by [Michel Chossudovsky](#)**

In this new and expanded edition of Chossudovsky's international best-seller, the author outlines the contours of a New World Order

which feeds on human poverty and the destruction of the environment, generates social apartheid, encourages racism and ethnic strife and undermines the rights of women. The result as his detailed examples from all parts of the world show so convincingly, is a globalization of poverty.

This book is a skilful combination of lucid explanation and cogently argued critique of the fundamental directions in which our world is moving financially and economically.

In this new enlarged edition -which includes ten new chapters and a new introduction- the author reviews the causes and consequences of famine in Sub-Saharan Africa, the dramatic meltdown of financial markets, the demise of State social programs and the devastation resulting from corporate downsizing and trade liberalisation.

International Inquiry into 9/11

An outstanding educational document With contributions by Carol Brouillet, Michel Chossudovsky, Bill Douglas, Bruce Gagnon, Jim Hoffman, Ellen Mariani, Jim Marrs, Michael Ruppert, Barry Zwicker,

Alarming facts are presented during the International Citizens' Inquiry into the events of 9/11. You will learn how the official 9/11 Commission report was little more than a white

wash!

“Celsius 9/11” asks the tough questions Michael Moore’s “Fahrenheit 9/11” does not dare delve into.

This documentary needs to be seen by anyone who is not satisfied with the “official story” of why the horrible events of 9/11 took place. – Zicky Hammud, Member One World Film Festival

“We are being anesthetized by the mainstream media. This got my temperature rising faster than a skyscraper in free fall. Absolutely stimulating!” – Professor Denis Rancourt, University of Ottawa

[September 11, Coverup or Complicity?](#)

TEMPORARILY UNAVAILABLE

Video (DVD) produced by Jeremy Wright, featuring Michel Chossudovsky and Barrie Zwicker

(80 minutes)

This carefully researched video sheds light on “what really happened” on 9/11.

It unmasks the Bush Administration’s so-called “War on Terrorism” and situates the strategic interests of the Anglo-American oil giants in the Caspian Basin and the Middle East.

The video reviews the origins of Osama bin Laden and how the Bush administration used Al Qaeda as a pretext not only to wage **war** in Central Asia and the Middle East but also to repeal the Rule of Law at home.

The Video calls attention to the blind acceptance by the mainstream media of the official version of events. It suggests that we are on the lip of the gravest crisis of democracy since World War II.

Designed to serve as a basis for anti-war activities and community discussion of alternatives and peaceful longer term solutions.
