Pfizer, the manufacturer of one of the most widely used COVID-19 vaccines in the country, silently funded groups advocating for vaccine mandates and passports, according to [a report by Lee Fang](#) (paywalled).

In August 2021, the president of the Chicago Urban League, Karen Freeman-Wilson, in an interview on TV, argued that vaccine mandates would not disproportionately harm the black community.

"The health and safety factor here far outweighs the concern about shutting people out or creating a barrier," Freeman-Wilson said at the time.

Earlier that year, the Chicago Urban League had received \$100,000 from Pfizer for a project on promoting "vaccine safety and effectiveness." The organization did not list Pfizer as a donor or partner on its website and Freeman-Wilson did not mention the funding during the interview.

The Chicago Urban League grant is one of many Pfizer-awarded groups to promote and encourage vaccine mandates. The pharmaceutical giant awarded grants to public health organizations, civil rights groups, as well as consumer, medical, and doctors' groups. Most of these groups did not disclose the funding from Pfizer.

Corporate watchdog group the National Consumers League announced support for "government and employer mandates" requiring Covid vaccination in August 2021. The announcement came at around the same time the organization received a \$75,000 grant from Pfizer for "vaccine policy efforts."

Houston-based public health organization the Immunization Partnership publicly lobbied against bills introduced in Texas aimed at banning vaccine passports and vaccine mandates. The organization did not disclose that Pfizer gave it \$35,000 earlier that year for "legislative advocacy."

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”
