

Hillary Clinton Complicit in DNC Electoral Rigging

Clinton had to know and be actively complicit with former DNC chairwoman Debbie Wasserman Schultz, along with other top party officials, in rigging the electoral process in her favor – handing her the nomination Tuesday night.

The traditional roll call of state delegates is pro forma pomp and circumstance, a tedious exercise, boring to watch, the outcome predetermined last year.

Hillary is called the most powerful woman in America, selected last year before announcing her candidacy to be Democrat party standard bearer.

It's inconceivable for massive fraud on her behalf to have happened without her full knowledge, support, encouragement and complicity. She had to know and be actively involved – calling the shots as Democrat party leader.

Add another racketeering charge to her rap sheet. Her criminal history since the 1990s makes her the most villainous aspirant for president in US history.

How any thinking person can support her is beyond comprehension. A simple review of her despicable criminal record as me-first lady, US senator and secretary of state is easily accessible online, in literally dozens of articles I've written about her and husband Bill, along with what other reliable independent sources have reported.

Avoid cheerleading media scoundrels – the New York Times most prominent in praising her despicable record, suppressing her high crimes, inventing her nonexistent qualifications for president.

However short Trump falls as someone worthy of the nation's highest office, at least he's not Hillary. Some national polls now show him ahead – though with over three month's before November's election, a lifetime in US politics, anything can change many times between now and election day.

Preventing a Clinton presidency is top priority in US electoral history. Trump could win and still lose – Bush v. Gore and Bush v. Kerry perhaps the two most notorious examples. In 2000 and 2004, the winner lost and loser won, accomplished by massive fraud.

Electoral rigging handed Clinton the Democrat nomination – perhaps the process to be repeated to make her president.

With it, she becomes commander-in-chief of America's military – a ruthlessly dangerous war goddess with her finger on its nuclear trigger, nothing preventing her from squeezing it.

Voting for Clinton is a crap shoot for global war with nuclear weapons – perhaps with loaded dice assuring it.
