As they seize weapons, take over government buildings and fire on media outlets, the US-backed Ukrainian protesters are being afforded legitimacy with the aid of a Kony 2012-style viral video which triumphs the grass roots nature of the demonstrations yet is linked to shadowy NGOs that have been directly involved in staging phony ‘color revolutions’ in the past.

The video is meant to push the idea that the Ukrainian revolt is grass roots, but its origins can be traced back to the U.S. State Department.
